--	---

A. General

1. Scope of Bid

1.1 The Employer (Appendix to ITB) on behalf of ‘Authority’ (defined in Appendix to ITB) invites bids for the construction of Works as described in these documents and referred to as “the Works”. The name of the works is provided in the Appendix to ITB. The bidders may submit bids for any or all of the works detailed in the table given in the Notice Inviting Tender. Bid for each work should be submitted separately. The bidders should refer Section 4-A for the detailed scope of work and Section 4-B for Technical Specifications for the work.

1.2 The successful Bidder will be expected to complete the Works by the Intended Completion Date specified in the **Contract data**.

1.3 Throughout these documents, the terms “bid” and “tender” and their derivatives (bidder/tender, bid/tender, bidding/tendering etc.) are synonymous.

1.4 The jurisdiction of court will be as defined as in Appendix to ITB

2. Source of Funds

2.1 The expenditure on this project will be met from the budget provided by the Govt. of Haryana.

3. Eligible Bidders

3.1 The Invitation for Bids is open to all bidders have created contractor Id on the portal <https://works.haryana.gov.in> and eligible bidders meeting the eligibility criteria as defined in ITB.

3.2 The bidders in Joint Ventures are allowed as per the Appendix to ITB.

3.3 Interested bidders who are not registered on Haryana Engineering Works Portal should upload the following documents at the time of bidding:

a. Mandatory Documents

i. Proof of Constitution - Partnership deed (in case of the partnership firm registration); or Certificate of Incorporation (in case of Private limited company, public limited company, Public sector undertaking, Limited Liability Partnership, registration); or Any proof substantiating constitution (in the case of society, trust, AOP, Government department, local authority, statutory body registration.)

ii. PAN Card

iii. GST Certificate

iv. Undertaking of Non-Blacklisting – (Certificate that contractor has not been blacklisted previously)

v. Proof of immovable properties/self-certification that doesn't have any property

vi. Cancelled Cheque / Proof of bank account

vii. Proof of Address

viii. The applicant himself or his employee (at least one) should be a Diploma Holder Engineer (Civil/Electrical/Agri./Hort.) as applicable. Accordingly, self-declaration certificate of applicant and his employee along with copy of Diploma certificate is to be submitted.

- ix. In case for electrical works the applicant or the employee of the applicant should submit valid Wireman License from Chief Electrical Inspector, Haryana
- x. It is mandatory for the contractor to register and utilize the “Call Before You Dig (CBuD)” Mobile Application for all works involving excavation, trenching, or road cutting.

b. Optional Documents

- i. TAN Number Document
- ii. MSME Registration Certificate (If Applicable)
- iii. Form 26AS for last three years (Provided by Income Tax Department)
- iv. LLCs (Limited Liability Company) to upload last audited balance sheet
- v. Change of constitution of agency
- vi. Litigation History (If any)
- vii. List of completed works if any
- viii. List of Abandoned works (if any)
- ix. Any Other relevant documents

In case during examination it is found that any bidder for this category of works has not submitted above mandatory documents or has submitted false documents his bid shall be rejected.

3.4 Bidders shall not be under a declaration of ineligibility for corrupt and fraudulent practices by the Central Government, the State Government or any public undertaking, autonomous body, authority by whatever name called under the Central or the State Government.

4. Qualification of the Bidder

A) For works put to tender upto Rs. 25.00 Lacs, contractor’s id on Haryana Engineering Works Portal.

B) For works put to tender from Rs. 25.01 Lacs to Rs. 64.00 Lacs, a valid enlistment certificate with proof of ownership/ lease of specified machinery/ manpower as listed in Clause 39 of this document and contractor’s id on Haryana Engineering Works Portal.

(Technical Evaluation shall be carried out as per the requirement specified in Clause 39 in section 1 of this document and financial bid of only responsive qualifying bidders shall be opened)

C) For works put to tender from Rs. 64.01 Lacs onwards, following qualification criteria is required to be fulfilled:-

4.1 All bidders shall provide the Qualification Information as specified in Section-2 of this document, Forms of Bid and the undertaking(s) as specified in Section 7. The undertaking should be of a date after the first invitation of this tender. Initially the scanned copy of undertaking(s) shall have to be submitted in technical bid and before signing the agreement, the original undertaking(s) should be submitted by the bidders to the concerned Executive Engineer. The undertaking(s) in original shall make integral part of the agreement. The bidder should also meet the requirements mentioned in clause 39 .

4.2 All bidders participating in tenders costing more than Rs. 25.00 lacs shall include the following information and documents with their bids in Section 2, Qualification Information unless otherwise stated in the Appendix to ITB:

- (a) Copies of original documents defining the constitution or legal status, place of registration, and principal place of business; written power of attorney of the signatory of the Bid to commit the Bidder;

- (b) Total annual financial turnover of each of the last three years duly certified by Chartered Accountant;
- (c) (i) Experience in works of a similar nature and size for each of the last seven years with certificates from the concerned officer not below the rank of Executive Engineer or equivalent;
- (ii) and details of works in progress or contractually committed with detail of clients who may be contacted for further information on those contracts;
- (d) The undertakings as per the format and language given in Section 7 of the document. The undertakings should be of a date after the invitation of this tender. The bids accompanying with the language deviated from the language of the draft provided in Section 2 shall be treated as non – responsive.

4.3 All care should be taken by the bidder to submit correct information and documents in first place. No cognizance of the documents submitted subsequently by the bidder on his own regarding his technical bid shall be taken. However, clarification can be sought upto the extent of clearing any doubt on the documents already submitted online.

4.4 Joint Ventures are permitted to bid for the work as defined in the Appendix to ITB. Bids submitted by a Joint Venture (JV) shall comply with the following requirements:

- a. There shall be a Joint Venture Agreement (as per the format given in Section-7) specific for these contract packages between the constituent firms, indicating clearly, amongst other things, the proposed distribution of responsibilities both financial as well as technical for execution of the work amongst them. For the purpose of this clause, the most experienced lead partner will be the one defined. A copy of the Joint Venture agreement shall be submitted before any award of work could be finalized.
- b. The bid, and in the case of the successful bidder, the Form of Agreement, etc., shall be signed and / or executed in such a manner as may be required for making it legally binding on all partners (including operative parts of the ensuing Contract in respect of Agreement of Arbitration, etc.). On award of work, the Form of Agreement and Contract Documents shall be signed by all partners of the Joint Venture to conclude Contract Agreement.
- c. Lead partner shall be nominated as being partner-in-charge; and this authorization shall be evidenced by submitting a power of attorney signed by the legally authorized signatories of all the partners.
- d. The partner-in-charge shall be authorized to incur liabilities and to receive instructions for and on behalf of the partners of the Joint Venture, whether jointly or severally, and entire execution of the Contract (including payment) shall be carried out exclusively through the partner-in-charge. A copy of the said authorization shall be furnished in this Bid.
- e. All partners of the Joint Venture shall be liable jointly and severally for the execution of the Contract in accordance with the Contract terms, and a relevant statement to this effect shall be included in the authorization mentioned under sub clause I above as well as in the Form of Tender and the Form of Agreement (in case of a successful bidder).

- f. In the event of default by any partner, in the execution of his part of Contract, the Employer shall be so notified within 30 days by the partner-in-charge, or in the case of the partner-in-charge being the defaulter, by the partner nominated as partner-in-charge of the remaining Joint Venture. The partner-in-charge shall, within 60 days of the said notice, assign the work of the defaulting partner to any other equally competent party acceptable to the Employer to ensure the execution of that part of the Contract, as envisaged at the time of bid. Failure to comply with the above provisions will make the Contractor liable for action by the Employer under the Conditions of Contract. If the Most Experienced i.e. Lead Partner defined as such in the Communication approving the qualification defaults, it shall be construed as default of the Contractor and Employer will take action under the Conditions of Contract.
- g. Not with standing the permission to assigning the responsibilities of the defaulting partner to any other equally competent party acceptable to the Employer as mentioned in sub clause (f) above, all the partners of the Joint Venture will retain the full and undivided responsibility for the performance of their obligations under the Contract and/ or for satisfactory completion of the Works.
- h. The bid submitted shall include all the relevant information as required under the provisions of Sub-Clause 4.5 D of ITB and furnished separately for each partner.

4.5 Qualification Criteria [applicable as per cost of work put to tender]

4.5A To qualify for award of the contract, each bidder in its name should have :-

- i) Minimum average annual financial turnover (as certified by the Chartered Accountant) during the last three years, ending 31st March of the previous financial year, should not be less than 30% of the value of work. The turn over shall be updated to price level of the last financial year at the rate of 8% per year compounded yearly.
- ii) Experience of having successfully completed or substantially completed similar works (i.e. road/bridge/building works/airport runway/PHED/ IWRD works/) as applicable for that type of tender during the last seven years ending last day of month previous to the one in which bids are invited should be either of the following:-
 - (a) Three similar works each costing not less than 40% of the value of work.
or
 - (b) Two similar works each costing not less than 50% of the value of work.
or
 - (c) One similar work costing not less than 80% of the value of work.

The amount of works shall be updated to price level of the last financial year at the rate of 8% per year compounded yearly.

Note 1:- The works may have been executed by the applicant as Prime contractor or as a member of Joint Venture As contractor, he should have acquired the experience of execution of all major items of works under the proposed contract. In case a project has been executed by a Joint Venture, the turnover or experience shall be evaluated in proportion to their participation of the Joint Venture. In case of experience as a sub contractor, the certificate from the Principal Employer

shall have to be furnished.

Note 2:- Substantially completed works means those works which are at least 95% completed as on the date of submission (i.e. gross value of work done upto the last date of submission is 95% or more of the original contract price or enhanced contract price as the case may be) and continuing satisfactorily.

Note 3:- Similar works means road work for road tender, building work for building tender, bridge work for bridge tender and so on.

For these, a certificate from the employer shall be submitted along with qualification information clearly mentioning the name of work, Contract Value, billing amount. Date of commencement of works, satisfactory performance of the Contractor and any other relevant information.

4.5 B Each bidder must produce:

- (i) An affidavit (format affidavit to be attached) in the prescribed format given in this document in Section 7. The affidavit should be of a date later than the date of calling of tender; and
- (ii) Such other certificates as defined in the Appendix to ITB. Failure to produce the certificates shall make the bid non-responsive.

4.5 C To qualify for a package of contracts made up of this and other contracts for which bids are invited in the Notice Inviting Tender, the bidder must demonstrate having experience and resources sufficient to meet the aggregate of the qualifying criteria for the individual contracts.

4.5 D If bidder is a Joint Venture, the partners would be limited to three (including lead partner). Joint Venture firm shall be jointly and severally responsible for completion of the project. Joint Venture must fulfill the following minimum qualification requirement.

- i. The lead partner shall meet not less than 50% of qualification criteria given in sub-clause 4.5 A (i) & (ii) of ITB above.
- ii. Each of the remaining partners shall meet not less than 25% of all the criteria given in sub-clause 4.5 A (i) & (ii) of ITB above.
- iii. The Joint Venture must also collectively satisfy the subject of the criteria of Clause 4.5 B and 4.5 C of ITB for this purpose the relevant figures for each of the partners shall be added together to arrive at the Joint Venture total capacity which shall be 100% or more.
- iv. In the event that the Employer has caused to disqualify under Clause 4.7 of ITB below all of the Joint Venture partners will be disqualified.
- v. Joint Venture Applicants shall provide a certified copy of the Joint Venture Agreement in demonstration of the partners undertaking joint and several liabilities for the performance of any contract entered into before award of work.
- vi. The available bid capacity of the JV as required under Clause 4.6 of ITB below will be applied for each partner to the extent of his proposed participation in the execution of the work. The total bid capacity available shall be more than estimated contract value.

- vii. The Sub-Contractors' experience and resources shall not be taken into account in determining the bidder's compliance with the qualifying criteria.

4.5. E Any other requirement as specified elsewhere in the ITB.

4.6 Bid Capacity Formula for Works put to tender value above Rs. 25.01 Lacs

Bidders who meet the minimum qualification criteria will be qualified only if their available bid capacity for construction work is equal to or more than the total bid value. The available bid capacity will be calculated as under:

$$\text{Assessed Available Bid Capacity} = (A * N * 2 - B) \text{ Where}$$

A = Maximum value of financial turnover (as certified by the Chartered Accountant) in any one year during the last three years (updated to price level of the last financial year at the rate of 8% per year compounded yearly).

N = Number of years prescribed for completion of the works for which bids are invited (period up to 6 months to be taken as $\frac{1}{2}$ and more than 6 months as 1 in a year).

B = Value, at the current price level (compounded yearly @8% per year), of existing commitments and on-going works to be completed during the period of completion of the works for which bids are invited.

4.6.1 Bid Capacity Formula for Works put upto tender value of Rs. 25.00 Lacs

(i) A contractor shall be allotted works up to a maximum of Rs. 50.00 Lacs in a financial year.

Where the combined value of ongoing works and the work under tender equals Rs. 50.00

Lacs, the bidder may participate only to the extent of the balance between Rs. 50.00 Lacs and the value of outstanding works. For works up to Rs. 25.00 Lacs, bid capacity shall be calculated as per the following formula:

Formula: Bid Capacity (in Lacs) = Rs. 50.00 Lacs – Value of Outstanding Work(s) (in Lacs)

(ii) In the next financial year, a contractor may be allotted works up to Rs. 1.00 Crore, subject to having satisfactorily completed works of at least Rs. 50.00 Lacs in any previous year. Where the value of ongoing works plus the tendered work exceeds Rs. 50.00 Lacs but does not exceed Rs. 1.00 Crore, the bidder shall furnish completion certificates for works of Rs. 50.00 Lacs completed within the last three years. The bidder may bid only to the extent of the balance between Rs. 1.00 Crore and the value of outstanding works at the time of bid submission.

Formula: Bid Capacity (in Lacs) = Rs. 1.00 Crore – Value of Outstanding Work(s) (in Lacs)

(iii) In any financial year, a non-registered contractor may be allotted works up to Rs. 2.00 Crore, subject to having satisfactorily completed work of Rs. 1.00 Crore in any previous year. Where the combined value of ongoing works and work under tender exceeds Rs. 1.00 Crore, the bidder shall submit completion certificates for works of at least Rs. 1.00 Crore executed in the last three years.

Formula: Bid Capacity (in Lacs) = Rs. 2.00 Crore – Value of Outstanding Work(s) (in Lacs)

4.7 Even though the bidders meet the above qualifying criteria, they are subject to be disqualified if they have:

- made misleading or false representations in the forms, statements, affidavits and attachments submitted in proof of the qualification requirements; and/or
- record of poor performance such as abandoning the works, not properly completing the contract, inordinate delays in completion, litigation history, or financial failures etc: and/or.

- participated in the previous bidding for the same work and had quoted unreasonably high bid prices and could not furnish rational justification to the employer.

5. One Bid per Bidder

5.1 Each Bidder shall submit only one Bid for one work. A Bidder who submits more than one Bid for one work will cause the proposals with the Bidder's participation to be disqualified.

6. Cost of Bidding

6.1 The Bidder shall bear all costs associated with the preparation and submission of his Bid, and the Employer will, in no case, be responsible or liable for those costs.

7. Site Visit

7.1 The Bidder, at the Bidder's own responsibility and risk is encouraged to visit and examine the Site of Works and its surroundings and obtain all information that may be necessary for preparing the Bid and entering into a contract for construction of the Works. The costs of visiting the Site shall be at the Bidder's own expense. The Bidder acknowledges that prior to the submission of the bid, the Bidder/Contractor has, after a complete and careful examination, made an independent evaluation of the Scope of the Project, Specifications and Standards of design, construction and maintenance, Site, local conditions, physical qualities of ground, subsoil and geology, suitability and availability of access routes to the Site and all information provided by the Employer or obtained, procured or gathered otherwise, and has determined to its satisfaction the accuracy or otherwise thereof and the nature and extent of difficulties, risks and hazards as are likely to arise or may be faced by it in the course of performance of its obligations hereunder. The Employer makes no representation whatsoever, express, implicit or otherwise, regarding the accuracy, adequacy, correctness, reliability and/or completeness of any assessment assumptions, statement or information provided by it and the Bidder confirms that it shall have no claim whatsoever against the Employer in this regard.

B. BIDDING DOCUMENTS

8. Content of Bidding Documents

8.1 The set of bidding documents comprises the documents listed below and addenda issued in accordance with Clause 10 of ITB.

1. Detail Notice Inviting Tender
2. Instructions to Bidders including Appendix to bid
3. Qualification Information and other forms
4. Conditions of Contract (Part I General Conditions of Contract, and Contract Data; Part II Special Conditions of Contract)
5. Technical Specifications
6. Drawings
7. Bill of Quantities
8. Form of Acceptance, Form of Agreement, Issue of Notice to Proceed with the Work,
9. Forms of Securities and Form of Unconditional Bank Guarantee.

8.2 The bidder is expected to examine carefully all instructions, conditions of contract, contract data, forms, terms and specifications, bill of quantities, forms and drawings in the Bid Document. Failure to comply with the requirements of Bid Documents shall be at the bidder's own risk. Pursuant to clause 26 hereof, bids, which are not substantially responsive to the requirements of the Bid Documents, shall be rejected.

9. Clarification of Bidding Documents and Pre-bid Meeting

9.1 A prospective bidder requiring any clarification of the bidding documents may notify the Employer in writing or through email at the Employer's address indicated in the invitation to bid. The Employer will respond to any request for clarification which he receives earlier than 10 days prior to the deadline for submission of bids. Copies of the Employer's response will be put on website including a description of the enquiry but without identifying its source.

9.2 If a pre-bid meeting is to be held, the bidder or his authorized representative is invited to attend it. Its date, time and address are given in the Appendix to ITB.

9.3 The purpose of the meeting will be to clarify issues and to answer questions on any matter that may be raised at that stage.

9.4 Minutes of the meeting, including the text of the questions raised (without identifying the source of the enquiry) and the responses given will be uploaded for information of the public or other bidders. Any modifications of the bidding documents listed in Clause 8.1 of ITB, which may become necessary as a result of the pre-bid meeting shall be made by the Employer exclusively through the issue of an Addendum pursuant to Clause 10 of ITB and not through the minutes of the pre-bid meeting.

9.5 Non-attendance at the pre-bid meeting will not be a cause for disqualification of a bidder.

10. Amendment of Bidding Documents

10.1 Before the deadline for submission of bids, the Employer may modify the bidding documents by issuing corrigendum.

10.2 Any addendum/corrigendum thus issued shall be part of the bidding documents and put on website only and shall be deemed to have been communicated to all the bidders. The Employer will assume no responsibility in this regard.

10.3 To give prospective bidders reasonable time in which to take an addendum into account in preparing their bids, the Employer shall extend, as necessary, the deadline for submission of bids, in accordance with Clause 20.2 of ITB.

C. PREPARATION OF BIDS

11. Language of Bid

11.1 All documents relating to the Bid shall be in **English** language.

12. Documents Comprising the Bid

12.1 The Bid submitted by the Bidder shall be in two separate parts:

Part I Technical bid This shall be named Technical Qualification Part of Bid and shall comprise of:

- i) The cost of the bidding documents.
- ii) The Earnest money in any of the forms as specified in clause 16 of ITB or Earnest Money declaration form specified in Section-7 as applicable.
- iii) Authorized address and contact details of the Bidder having the following information:
 - a. Address of communication:
Telephone No.(s):
Office:
Mobile No.:
 - b. Facsimile (FAX) No.:
 - c. Electronic Mail Identification (E-mail ID):
- iv) **Qualification information, supporting documents as specified in ITB.**
- v) Any other information/documents required to be completed and submitted by bidders, as specified in the Appendix to ITB, and
- vi) Scanned copy of the affidavit (**on the format given in Section 7 of bid document**).

Part II. Financial Bid:- It shall be named Financial Bid and shall comprise of:

- (i) Priced bill of quantities for items specified in Section 6;

12.2 The following documents, which are not submitted with the bid, will be deemed to be part of the bid.

Section	Particulars
1.	Detail Notice Inviting Tender
2.	Instructions to Bidders
3.	Conditions of Contract
4.	Contract Data
5.	Technical Specifications
6.	Drawings

13. Bid Prices

13.1 The Contract shall be for the whole Works, as described in Clause 1.1 of ITB, based on the priced Bill of Quantities submitted by the Bidder.

13.2 For item rate tenders, the bidder shall fill in item rate at its appropriate place in figures. Items for which no rate or price is entered by the bidder will not be paid for by the employer. Such item, where the bidder does not quote the price or leaves it blank, will be treated as item to be executed free of cost item from the contractor.

13.3 For percentage rate tender, the bidder shall make its due diligence and quote a single percentage above or below HSR items including any premium if applicable and individual rate for NS items which are in the BOQ but not in HSR. *NS Items in the BOQ, for which no rate or price is entered by the bidder will not be paid for by the Employer and considered as nil rate items.*

13.4 All duties, taxes (excluding GST) , royalties, compensation, cost and other levies payable by the Contractor under the Contract or to execute item(s) of work or for any other cause, shall be included in the rates, prices, and total Bid price submitted by the Bidder online. The GST amount shall be reimbursed on production of proof of deposit of GST with Govt. for the previous payment.

13.5 The rates and prices quoted by the bidder are subject to adjustment during the performance of the Contract in accordance with the provision of Clause 42 A of the Conditions of Contract.

14. Currencies of Bid

14.1 The unit rates and the prices shall be quoted by the bidder entirely in Indian Rupees.

15. Bid Validity

15.1 Online Bids shall remain valid for a period of not less than 120 days after the deadline date for bid submission specified in ITB. A bid valid for a shorter period shall be rejected by the Employer as non-responsive.

15.2 In exceptional circumstances, prior to expiry of the original time limit, the Employer may request that the bidders may extend the period of validity for a specified additional period. The request and the bidders' responses shall be made in writing or by email. A bidder may refuse the request without forfeiting his Earnest money. A bidder agreeing to the request will not be required or permitted to modify his bid, but will be required to extend the validity of his Earnest money for a period of the extension, and in compliance with Clause 16 of ITB in all respects.

16. Earnest money and Earnest money declaration Form

16.1. The Bidder who does not have contractor id on HEWP can not participate in tendering process. Bidders who have contractor ID but have not registered on HEWP can participate in tendering process by paying the earnest money through online payment on the portal. Bidders who have contractor Id and are registered on HEWP and also have deposited one time deposit are eligible for participation in the tender by annexing bid specific Earnest Money Declaration Form generated from HEWP.

16.2. The bidder who is registered as contractor with Haryana Government and is availing the exemption available for earnest money, shall upload bid specific Earnest Money Declaration form duly downloaded from HEWP.

16.3 Any bid from the registered bidders not accompanied by an acceptable Earnest Money Declaration form (in case exemption is availed) as above or not secured as indicated in Sub-Clauses 16.1 above shall be rejected by the Employer as non-responsive.

16.4. The successful bidder shall be de-registered with forfeiture of his/its one time deposit of EMD exemption amount on HEWP and further barred from participation in future bidding for a period of 2 years, in case of failure to submit the Performance Bank Guarantee as per Clause 34 of this document.

17. Alternative Proposals by Bidders

17.1 Bidders shall submit offers that comply with the requirements of the bidding documents, including the Bill of Quantities and the basic technical design as indicated in the drawings and specifications. Conditional offer or alternative proposals will be rejected as non-responsive.

18. Format and Signing of Bid

Deleted

D. ONLINE SUBMISSION OF BIDS

19. Bidding through E-Tendering System

Instructions to bidder on Electronic Tendering System

These conditions will over-rule the conditions stated in the tender documents, wherever relevant and applicable.

19.1 Registration of bidders on eProcurement Portal:-

All the bidders intending to participate in the tenders processed online are required to get registered on the centralized e – Procurement Portal i.e. <https://etenders.hry.nic.in>. Please visit the website for more details.

19.2 Obtaining a Digital Certificate:

19.2.1 The Bids submitted online should be encrypted and signed electronically with a Digital Certificate to establish the identity of the bidder bidding online. These Digital Certificates are issued by an Approved Certifying Authority, by the Controller of Certifying Authorities, Government of India.

19.2.2 A Digital Certificate is issued upon receipt of mandatory identity (i.e. Applicant's PAN Card) and Address proofs and verification form duly attested by the Bank Manager / Post Master / Gazetted Officer. Only upon the receipt of the required documents, a digital certificate can be issued. For more details please visit the website – <https://etenders.hry.nic.in>.

19.2.3 The bidders may obtain Class-II or III digital signature certificate from any Certifying Authority or Sub-certifying Authority authorized by the Controller of Certifying Authorities or may obtain information and application format and documents required for the issue of digital certificate from the authority.

19.2.4 The bidder must ensure that he/she comply by the online available important guidelines at the portal <https://etenders.hry.nic.in> for Digital Signature Certificate (DSC) including the e-Token carrying DSCs.

19.2.5 Bid for a particular tender must be submitted online using the digital certificate (Encryption & Signing), which is used to encrypt and sign the data during the stage of bid preparation. In case, during the process of a particular tender, the user loses his digital certificate (due to virus attack, hardware problem, operating system or any other problem) he will not be able to submit the bid online.

Hence, the users are advised to keep a backup of the certificate and also keep the copies at safe place under proper security (for its use in case of emergencies).

19.2.6 In case of online tendering, if the digital certificate issued to the authorized user of a firm is used for signing and submitting a bid, it will be considered equivalent to a no-objection certificate/power of attorney /lawful authorization to that User. The firm has to authorize a specific individual through an authorization certificate signed by all partners to use the digital certificate as per Indian Information Technology Act 2000. Unless the certificates are revoked, it will be assumed to represent adequate authority of the user to bid on behalf of the firm in the department tenders as per Information Technology Act 2000. The digital signature of this authorized user will be binding on the firm.

19.2.7 In case of any change in the authorization, it shall be the responsibility of management / partners of the firm to inform the certifying authority about the change and to obtain the digital signatures of the new person / user on behalf of the firm / company. The procedure for application of a digital certificate however will remain the same for the new user.

19.2.8 The same procedure holds true for the authorized users in a private/Public limited company. In this case, the authorization certificate will have to be signed by the directors of the company.

19.3 Pre-requisites for online bidding:

In order to bid online on the portal <http://etenders.hry.nic.in>, the user machine must be updated with the latest Java & DC setup. The link for downloading latest java applet & DC setup are available on the Home page of the e-tendering Portal.

19.4 Online Viewing of Detailed Notice Inviting Tenders:

The bidders can view the detailed N.I.T and the time schedule (Key Dates) for all the tenders floated through the single portal e-Tender system on the Home Page at <http://etenders.hry.nic.in>

19.5 Download of Tender Documents:

The tender documents can be downloaded free of cost from the e-Tender portal <http://etenders.hry.nic.in>

19.6 Key Dates:

The bidders are strictly advised to follow dates and times as indicated in the online Notice Inviting Tenders. The date and time shall be binding on all bidders. All online activities are time tracked and the system enforces time locks that ensure that no activity or transaction can take place outside the start and end dates and the time of the stage as defined in the online Notice Inviting Tenders.

19.7 Online Payment of eService fee & Bid Preparation & Submission (PQQ/ Technical & Commercial /Price Bid):

i) Online Payment e-Service fee:

The online payment for eService fee can be done using the secure electronic payment gateway by bidders/ Vendors online directly through Debit Cards & Internet Banking Accounts. The secure electronic payments gateway is an online interface between contractors and Debit card / online payment authorization networks.

ii) PREPARATION & SUBMISSION Of online APPLICATIONS/BIDS:

Detailed Tender documents may be downloaded from e-Tenders website (<http://etenders.hry.nic.in>) and tender mandatorily be submitted online. Scan copy of Documents to be submitted/uploaded for Prequalification or Technical bid under online. The required documents (refer to DNIT) shall be prepared and scanned in different file formats (in PDF /JPEG/MS WORD format such that file size is not exceed more than 10 MB) and uploaded during the on-line submission of Technical Bid.

FINANCIAL or Price Bid PROPOSAL shall be submitted mandatorily online in the Excel Format.

19.8 ASSISTANCE TO THE BIDDERS:-

In case of any query regarding process of e-tenders and for undertaking training purpose, the intended bidder can also avail the following and can contact service provider as per below:

Office Timings of Help-desk support for Single e-TenderPortal of Government of Haryana- Technical Support Assistance will be available over telephone Monday to Friday (09:00 am. To 5:00 pm) 0172-2700275 also contact to help desk team of Delhi (24 x 7) as given below
0120-4001002
0120-4200462
0120-4001005
0120-6277787

All queries would require to be registered at our official email support as under (only those queries which are sent through email along with appropriate screen shots or error description will be considered as registered with the Help-desk)

- (a) Technical:- Support e proc (at) nic (dot) in
- (b) Policy Related:- cppp-doc(at) nic (dot) in

For help manual please refer to the 'Home Page' of the e-Tender website at <https://etenders.hry.nic.in> and click on the available link 'How to ...?' to download the file.

20. Deadline for Submission of Bids

20.1 Complete Bids in two parts as per clause 19 above must be submitted by the Bidder online not later than the date and time indicated in the Appendix to ITB.

20.2 The Employer may extend the deadline for submission of bids by issuing an amendment in accordance with Clause 10.3 of ITB. In such case all rights and obligations of the Employer and the bidders previously subject to the original deadline will then be subject to the new deadline.

21. Late Bids

21.1 Any Bid received by the Employer after the deadline prescribed in Clause 20 will be returned unopened to the bidder.

22. Withdrawal or modification

22.1 No bid shall be modified or withdrawn after the deadline of submission of bids.

22.2 Withdrawal or modification of a bid between the deadline for submission of bids and the expiration of the original period of bid validity specified in clause 15.1 above or as extended pursuant to Clause 15.2 may result in the forfeiture of the Earnest money pursuant to Clause 16 or invite action as per Earnest Money declaration undertaking.

E. Bid Opening and Evaluation

23. Bid Opening

23.1 The Employer inviting the bids or its authorized representative will open the bids online in the presence of the bidders or their representatives who choose to attend at time, date and the place specified in Appendix to ITB. The bids shall be evaluated by committee generated online by the system.

23.2 In the event of the specified date for the Opening of bids being declared a holiday for the Employer, the Bids will be opened at the appointed time and location on the next working day.

23.3 The file containing the Part-I of the bid will be opened first.

23.4 The amount, form and validity of the cost of bidding document and earnest money furnished with each bid will be announced. If the cost of bidding document and earnest money furnished does not conform to the amount and validity period as specified in the Invitation for Bid, and has not been furnished in the form specified in Clause 16, the remaining technical bid will not be opened and will be disqualified for opening of financial bid. Similarly for registered bidders, bid not accompanied by the Earnest Money declaration form, shall be rejected and technical bid will not be opened.

23.5 The Employer will also prepare minutes of the Bid opening, including the information disclosed in accordance with Clause 23.4 of ITB.

23.6

(i) Subject to confirmation of the earnest money, the bids accompanied with valid earnest money/earnest money declaration form will be taken up for evaluation with respect to the Qualification Information and other information furnished in Part I of the bid pursuant to Clause 12.1.

(ii) The technical bid will be evaluated on the basis of the documents submitted online by the bidder and no modification of his technical bid will be sought from the bidder. No cognizance of the documents submitted subsequently by the bidder on his own regarding his technical bid shall be taken. However, clarification can be sought upto the extent of clearing any doubt the documents already submitted online.

(iii) The bidders will respond in not more than 7 days of issue of the clarification letter, which will also indicate the date, time and venue of opening of the Financial Bid.

(iv) Immediately, on receipt of these clarifications the Evaluation Committee will finalize the list of responsive bidders whose financial bids are eligible for consideration.

23.7 The Employer shall hoist the result of technical evaluation of bids alongwith the reasons for rejection of Part-I of the bid (Technical bid) on the website. Thereafter, the employer shall wait for 7 days before opening the financial bid of the qualified bidders so as to give the disqualified bidders and opportunity to avail, if they so desire, any remedy available under the Law.

23.8 Part II (Financial Bid) of bids of only those bidders will be opened online, who have qualified in Part I of the bid. The bidders' names, the Bid prices, the total amount of each bid, and such other details as the Employer may consider appropriate will be notified by the Employer at the time of bid opening.

23.9 The Employer shall prepare the minutes of the online opening of Part-II of the Bids.

24 Process to be Confidential

Information relating to the examination, clarification, evaluation, and comparison of bids and recommendations for the award of a contract shall not be disclosed to bidders or any other persons not officially concerned with such process until the award to the successful Bidder has been announced. Any attempt by a Bidder to influence the Employer's processing of bids or award decisions may result in the rejection of his Bid.

25 Clarification of Bids and Contacting the Employer

25.1 No Bidder shall contact the Employer on any matter relating to its bid from the time of the bid opening to the time the contract is awarded **except as specified in clause 25.3 here under**. If the bidder wishes to bring additional information to the notice of the Employer, it should do so in writing.

25.2 Any attempt by the bidder to influence the Employer's bid evaluation, bid comparison or contract award decision may result in the rejection of his bid.

25.3 To assist in the examination, evaluation, and comparison of Bids, the Employer may, at his discretion, ask any Bidder for clarification of his Bid, including breakdowns of unit rates. The request for clarification and the response shall be in writing or by email, but no change in the price or substance of the Bid shall be sought, offered, or permitted.

26. Examination of Bids and Determination of Responsiveness

26.1 During the detailed evaluation of "Part-I of Bids", the Employer will determine whether each Bid

- (a) meets the eligibility criteria defined in Clauses 3 and 4;
- (b) has been properly signed;
- (c) is accompanied by the required securities; and
- (d) is substantially responsive to the requirements of the bidding documents.

During the detailed evaluation of the "Part-II of Bids", the responsiveness of the bids will be further determined with respect to the remaining bid conditions, i.e., priced bill of quantities.

26.2 A substantially responsive "Financial Bid" is one which conforms to all the terms, conditions, and specifications of the bidding documents, without material deviation or reservation. A material deviation or reservation is one

- (a) which affects in any substantial way the scope, quality, or performance of the Works;
- (b) which limits in any substantial way, inconsistent with the bidding documents, the Employer's rights or the Bidder's obligations under the Contract; or
- (c) whose rectification would affect unfairly the competitive position of other bidders presenting substantially responsive bids.

26.3 If a Bid is not substantially responsive, it will be rejected by the Employer, and may not subsequently be made responsive by correction or withdrawal of the non-conforming deviation or reservation.

27. Correction of Errors.

27.1. "Financial Bids" determined to be substantially responsive will be checked by the 'Employer' for any errors. Errors will be corrected by the Employer as follows:

- (a) Where there is a discrepancy between the unit of any item mentioned in BOQ, from that in HSR, the unit mentioned in HSR shall prevail and the total resulting from multiplying the quoted rate by the quantity, shall be taken in to account.

27.2. The amount stated in the “Financial Bid” will be corrected by the Employer in accordance with the above procedure and the bid amount adjusted in the following manner.

- (a) If the Bid price increases as a result of these corrections, the amount as stated in the bid will be the ‘bid price’ and the increase will be treated as rebate;
- (b) If the bid price decreases as a result of the corrections, the decreased amount will be treated as the ‘bid price’.

28. Adjusted in bid price pursuant to clause 27 above, shall be considered as binding upon the Bidder. If the Bidder does not accept the corrected amount the Bid will be rejected, and action as per provisions of Earnest Money Declaration Form shall be initiated or Earnest Money shall be forfeited as applicable.

29. Evaluation and Comparison of Bids

29.1 The Employer will evaluate and compare only the bids determined to be substantially responsive in accordance with Clause 26 of ITB.

29.2 In evaluating the Bids, the Employer will determine for each Bid the evaluated Bid Price by adjusting the Bid Price as follows:

- (a) adjustments to reflect discounts or other price offered in Financial bid submitted online.

29.2.1 After adjustment, if the lowest bid price of 2 or more bidders is found to be exactly same, the average annual turnover worked out in Clause 4.5 shall be the governing factor for deciding the successful bidder. During evaluation of technical bid, the bidder having higher average annual turnover shall be preferred bidder.

29.3 If the Bid of the successful Bidder is seriously unbalanced in relation to the Engineer’s estimate of the cost of work to be performed under the contract, the Employer may require the Bidder to produce detailed price analysis for any or all items of the Bill of Quantities, to demonstrate the internal consistency of those prices. After evaluation of the price analysis, the Employer may require that the amount of the Performance Security set forth in Clause 34 of ITB be increased at the expense of the successful Bidder to a level sufficient to protect the Employer against financial loss in the event of default of the successful Bidder under the Contract. The amount of the increased Performance Security shall be decided at the sole discretion of the Employer, which shall be final, binding and conclusive on the bidder. The amount of additional performance security shall be equal to an amount arrived at as below: -

There will be no additional bank guarantee for the bid price quoted upto 10% below DNIT amount. The additional performance security shall be equal to percentage below beyond 10% below DNIT. For clarity if a bidder has quoted price 13% below DNIT, the performance security shall be 5% and additional performance security shall be 3% i.e. total 8% of the quoted price. Similarly if a bidder has quoted price 14% below DNIT, the performance security shall be 5% and additional performance security shall be 4% i.e. total 9% of the quoted price and so on

29.4 Validity of above Additional performance Security shall be valid until a date 28 days from the date of issue of the certificate of completion.

29.5 The Employer reserves the right to accept or reject any variation or deviation. Variations and deviations and other factors, which are in excess of the requirements of the Bidding documents or otherwise result in unsolicited benefits for the Employer, shall not be taken into account in Bid evaluation.

29.6 The estimated effect of the price adjustment conditions under Clause 47 of the *Conditions of Contract*, during the period of implementation of the Contract, will not be taken into account in Bid evaluation.

29.7 To ensure a structured and timely technical evaluation process, the following time limits have been fixed as under:-

Tender Cost	Technical Evaluation Time	Objection Period
Up to ₹64 Lacs	7 working days	-
Between ₹64 Lacs and ₹5 Cr.	14 working days	7 days
More than ₹ 5 Cr.	21 working days	7 days

Note:

If the technical evaluation is not completed within the specified timeframe, the processing of the tender will be **AUTOMATICALLY DISABLED ON HEWP**, preventing further actions. The Tender Technical Evaluation Committee/ Tender Inviting Authority shall be responsible for ensuring that technical evaluations are completed within the defined timelines as above.

However, in exceptional circumstances, the bid evaluation time may be extended with the prior approval of competent authority. While making such a request, the reasons for delays must be explained in details, along with the extension period sought for bid evaluation.

30. The agency/Bidder to whom the work is allotted shall be paid lowest of the following in the running/final bills.

- i) Amount calculated with the accepted rates of lowest agency.
- ii) Amount worked out with the accepted percentage above/below HSR+CP/analytical rates/ NS item rates, worked out in financial statement. Financial statement will be made a part of agreement.

F. AWARD OF CONTRACT

31. Award Criteria

31.1 Subject to Clause 32 of ITB, the Employer will award the Contract to the Bidder whose Bid has been determined:

- (i) To be substantially responsive to the bidding documents and who has offered the lowest evaluated Bid price and
- (ii) To be within the available bid capacity adjusted to account for his bid price which is evaluated the lowest in any of the packages opened earlier than the one under consideration. In no case, the contract shall be awarded to any bidder whose available bid capacity is less than the evaluated bid for tender cost more than Rs. 25.00 Lacs.

32. Employer's Right to Accept any Bid and to Reject any or all Bids

32.1 Notwithstanding Clause 31 above, the Employer reserves the right to accept or reject any Bid, and to cancel the bidding process and reject all bids, at any time prior to the award of Contract, without thereby incurring any liability to the affected Bidder or bidders or any obligation to inform the affected Bidder or bidders of the grounds for the Employer's action.

33. Notification of Award and Signing of Agreement

33.1 The bidder whose Bid has been accepted will be notified of the award by the Employer prior to expiration of the Bid validity period by email confirmed by registered letter. This letter (hereinafter and in the Part I *General Conditions of Contract* called the "Letter of Acceptance") will state the sum that the Employer will pay to the Contractor in consideration of the execution, completion and maintenance of the works, by the Contractor during defect liability period as prescribed by the Contract (hereinafter and in the Contract called the "Contract Price").

33.2 The notification of award will constitute the formation of the Contract, subject only to the furnishing of a Performance Security in accordance with the provisions of Clause 34.

33.3 The Agreement will incorporate all agreements between the Employer and the successful Bidder. It will be signed by the Employer and the successful Bidder after the Performance Bank Security is furnished.

33.4 Upon the furnishing by the successful Bidder of the Performance Security, the Employer will promptly notify the other Bidders that their Bids have been unsuccessful.

33.5 Upon the furnishing by the successful Bidder of the Performance Security, the Employer shall issue the letter to proceed with the work.

33.6 If the lowest tenderer (L-1) backs out, his earnest money shall be forfeited or action as per conditions of Bid Security Declaration Form shall be initiated. The agency will be de-barred for giving tenders for two year and the second lowest tenderer (L-2), third lowest tenderer (L-3) in order of sequence, may be called upon to bring his offer to the same level as the originally first lowest tenderer. In the event of their refusal to do so, tenders shall be recalled. In case of great urgency, authority competent to accept the tender may authorize call of limited or short notice tenders.

34. Performance Security

34.1.a) Within 15 days of receipt of the Letter of Acceptance, the successful Bidder shall deliver to the Employer a Performance Security in any of the forms given below for an amount equivalent to 5% of the Contract price plus additional security for unbalanced Bids in accordance with Clause 29.3 of ITB and Conditions of Contract:

A Bank Guarantee in the form given in Section 7/FDR in the name of Executive Engineer concerned. Performance bank guarantee shall be valid until a date 45 days after the expiry of Defect Liability-cum-Maintenance Period.

b) As per Haryana Govt. Co-operation Department Notification No. 8366-C-7-2016/13818 dated 08.12.2016, the performance security for Co-operative Labour and Construction Societies shall be half of the performance security applicable to contractors for works upto any value. In case of the Cooperative Labour and Construction Societies consisting of all women members or all SC members the performance security will be 25% of the performance security applicable to contractor.

34.2 If the performance security is provided by the successful Bidder in the form of a Bank Guarantee/FDR, it shall be issued either (a) at the Bidder's option, by a Nationalized/Scheduled Indian Bank or (b) by a foreign bank located in India and acceptable to the Employer.

34.3 Failure of the successful Bidder to comply with the requirements of Sub-Clause 34 shall constitute sufficient grounds for cancellation of the award and forfeiture of the Earnest money/action due as per Earnest Money declaration. The bidder shall also be debarred for period of 2 year from participation in tenders in any of the Departments/Boards/Corporations etc. of Haryana Government. If the work of is an urgent nature and cannot brook delay involved in re-tendering, the remaining tenderers shall be offered the lowest approved rates. If more than one tenderer turns up, then preferences shall be given to the tenderer graded according to the rates quoted in the first instance.

34.4 Whenever the work value is enhanced on account of variation in quantities / change of scope of work during the execution, beyond 10% above the original agreement amount, the contractor shall be required to submit the additional Performance Security in the form of Bank Guarantee @ 5% of the enhanced value of contract with the same validity as applicable to the original Performance Security and a supplementary agreement for the revised work value shall be signed with the department which shall also define the mile stones as well as revised intended completion date. The contractor shall deliver additional Performance Security within 21 days of receipt of request in this regard from the employer.

Illustration:

Original Amount of agreement	Enhancement	Amount after enhancement	Additional Performance
Rs 1,00,000.00	Rs 10,000.00	1,10,000.00	Nil
Rs 1,00,000.00	Rs 15,000.00	1,15,000.00	5% of Rs 15,000.00

34.5 Failure of the contractor to submit a valid additional Performance Bank Guarantee @ 5% of the enhanced value of contract as above shall invite similar penalties as prescribed for non-submission of original Performance Security. The time control on the revised work shall also be monitored and implemented on pro-rata basis as per the clauses applicable to the original work.

34.6 The Performance Security of the contractor shall be released within 30 days from the date of issue of clearance of the defect liability certificate, whereas the Additional Performance Security shall be released after 28 days from the date of completion of work as recorded in the approved final bill of the contractor.

35. Advances

The Employer will provide Advances as stipulated in the conditions of contract, subject to maximum amount, as stated in the Contract Data.

36. Corrupt or Fraudulent Practices

36.1 The 'Employer' will reject a proposal for award if it determines that the Bidder recommended for award has engaged in corrupt or fraudulent practices in competing for the contract in question and will declare the firm ineligible, either indefinitely or for a stated period of time; to be awarded a contract by Haryana Government in any of Departments/Boards/Corporations etc.

36.2 Not applicable.

36.3 The Employer requires the Bidders/Contractors to strictly observe the laws against fraud and corruption in force in India, namely, Prevention of Corruption Act, 1988.

37. Debarring

If a registered but unverified bidder submits Financial Bid online but he/it fails to submit the Earnest Money instruments in physical form by 5:00 pm with the Executive Engineer on the last date of submission of this tender, he / it shall be blacklisted for participation in the bidding in all future tenders floated by any of Department/Boards/Corporations etc. of Government of Haryana, for a period of 2 years

38. Completion of work

The agency to whom the work is allotted shall complete the entire work as per drawings irrespective of quantities in the DNIT. The agency is bound to consult the drawings before tendering and tender the work accordingly. However, Clause 37 of GCC shall be applicable on the varied quantities

39. Instructions / Special Qualification Requirements (Any other condition for execution of works may also be added)

i. Additional mandatory documents as qualifying requirement for both registered & non registered bidders.

- i) Scanned copy of the affidavit (on the format given in Section 7 (K) of bid document).
- ii) Scanned copy of the undertaking (on the format given in Section 7 (J) of bid document).
- iii) Scanned copy of the undertaking for compliance of the labour laws.
- IV) Financial statements of the last three years (with UDIN no.) duly certified by CA is to be submitted.
- V) Copy of work order of the appropriate value mentioned in the ITB is to be enclosed along with the completion certificate with the bid document.

NOTE:- Bid preparation shall be strictly as per section 1 (C)- Preparation of bid. All the documents specified in preparation of bid shall be submitted.

Appendix to ITB

Instructions to Bidder

Clause Reference

Qualification Information

Notes on Form of Qualification Information

The information to be filled in by bidders in the following pages will be used for purposes of post-qualification as provided for in Clause 4 of the Instructions to Bidders. This information will not be incorporated in the Contract. Attach additional pages as necessary.

1.	Individual Bidders	
1.1	Constitution or legal status of Bidder	<i>[attach copy]</i>
	Place of registration:	
	Principal place of business:	
	Power of attorney of signatory of Bid (if required)	<i>[attach]</i>
1.2	Total annual financial turnover of each of the last three year duly certified by Chartered Accountant	(Rs. In lacs) Year _____ Year _____ Year _____

1.3.1 Work performed as prime Contractor (in the same name and style) on construction works of a similar nature and volume over the last Seven years. Attach certificate from the Engineer-in-charge.

Project Name	Name of Employer	Description of work	Value of contract	Contract No	Date of Issue of Work Order	Stipulated date of completion	Actual Date of Completion	Remarks explaining reasons for delay, if any

1.3.2 Work performed as Sub-Contractor (in the same name and style) on construction works of a similar nature and volume over the last Seven years. Attach certificate from Principal Employer (Main Client). Attach legal document of agreement / subcontract, Form 26 AS of the sub-contractor.

Project Name	Name of Employer	Description of work	Value of contract	Contract No	Date of Issue of Work Order	Stipulated date of completion	Actual Date of Completion	Remarks explaining reasons for delay, if any

1.3.3 Information on Bid Capacity (works for which bids have been submitted and works which are ongoing and yet to be completed) as on the date of this bid.

Existing commitments and on-going construction works:

Description of Work	Place & State	Contract No & Date	Name & Address Of Employer	Value of Contract (Rs.In lacs)	Stipulate period of completion	Value of works remaining to be complete (Rs.Lacs) *	Anticipated Date of completion
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)

1.3.3 (A) Works for which bids already submitted:

Description of works	Place & State	Name& Address of Employer	Estimated value of works (Rs. in lacs)	Stipulated period of completion	Date when decision is expected	Remarks, if any
1	2	3	4	5	6	7

Note:- Here, any of the departments may specify the quantities of the work executed by the bidder.

Section 3

Part I General Conditions of Contract

A. General

1. Definitions

1.1 Terms which are defined in the Contract Data are not also defined in the Conditions of Contract but keep their defined meanings. Capital initials are used to identify defined terms.

Bill of Quantities means the priced and completed Bill of Quantities forming part of the Bid.

Compensation Events are those defined in Clause 40 hereunder.

The Completion Date is the date of completion of the Works as certified by the Engineer, in accordance with Clause 48.1.

The Contract is the Contract between the Employer and the Contractor to execute, complete, and maintain the Works. It consists of the documents listed in Clause 2.3.

The Contract Data defines the documents and other information which comprise the Contract.

The Contractor is a person or corporate body whose Bid to carry out the Works, including routine maintenance, has been accepted by the Employer.

The Contractor's Bid is the completed bidding document submitted by the Contractor to the Employer.

The Contract Price is the price stated in the Letter of Acceptance and thereafter as adjusted in accordance with the provisions of the Contract.

Days are calendar days; months are calendar months.

A Defect is any part of the Works not completed in accordance with the Contract or distressed development in the work irrespective of any causes.

The Defect Liability-cum-Maintenance Period is the period named in the contract Data and calculated from the Completion Date.

The 'Defect Liability-cum-Maintenance Period' is without any payment for maintenance activities.

The Defect Liability-cum-Maintenance Period Certificate is the certificate issued by Engineer, after the Defect Liability-cum-Maintenance Period has ended and upon correction of Defects by the Contractor.

The Maintenance means the activities required to be carried out for routine maintenance of road relating to works covered in scope of work as per the agreement or enhanced agreement.

Drawings include calculations and other information provided or approved by the Engineer for the execution of the Contract.

The Employer is the party as defined in the Contract Data, who employs the Contractor to carry out the Works, including routine maintenance. The Employer may delegate any or all functions to a person or body nominated by him for specified functions.

The Engineer is the person named in the Contract Data (or any other competent person appointed by the Employer and notified to the Contractor, to act in replacement of the Engineer) who is responsible for supervising the execution of the Works and administering the Contract.

Equipment is the Contractor's machinery and vehicles brought temporarily to the Site to construct the Works.

The Initial Contract Price is the Contract Price listed in the Employer's Letter of Acceptance.

The Revised Contract Price is the Contract Price agreed after signing of a supplementary agreement with the Employer.

The Intended Completion Date is the date on which it is intended that the Contractor shall complete the Works. The Intended Completion Date is specified in the Contract Data. The Intended Completion Date may be revised only by the Engineer by issuing an extension of time.

Materials are all supplies, including consumables, used by the Contractor for incorporation in the Works.

Plant is any integral part of the Works that shall have a mechanical, electrical, electronic, chemical, or biological function.

The **Site** is the area defined as such in the Contract Data.

Site Investigation Reports are those that were included in the bidding documents and are reports about the surface and subsurface conditions at the Site.

Specification means the Specification of the Work included in the Contract and any modification or addition made or approved by the Engineer. Specifications for Road and Bridge Works (Latest Edition as on date of Tender) published by Ministry of Road Transport & Highways shall be applicable or any or all other specifications/IS Codes applicable to a work.

The **Start Date** is given in the Contract Data. It is date when the Contractor shall commence execution of the works. **It does not necessarily coincide with any of the Site Possession Dates.**

A **Sub-Contractor** is a person or corporate body who has a Contract with the Contractor to carry out a part of the construction work in the Contract, which includes work on the Site.

Temporary Works are works designed, constructed, installed, and removed by the Contractor that are needed for construction or installation of the Works.

A **Variation** is an instruction given by the Engineer, which varies the Works.

The Works, as defined in the Contract Data, are what the Contract requires the Contractor to construct, install, maintain, and hand over to the Employer.

Substantial completion means those works which are at least 95% completed as on the date of submission (i.e. gross value of work done upto the last date of submission is 95% or more of the original contract price) and continuing satisfactorily.

2. Interpretation

2.1 In interpreting these Conditions of Contract, singular also means plural, male also means female or neuter, and the other way around. Headings have no significance. Words have their normal meaning under the language of the Contract unless specifically defined. The Engineer will provide instructions clarifying queries about these Conditions of Contract.

2.2 If sectional completion is specified in the Contract Data, references in the Conditions of Contract to the Works, the Completion Date, and the Intended Completion Date apply to any Section of the Works (other than references to the Completion Date and Intended Completion Date for the whole of the Works).

2.3 The documents forming the Contract are to be taken as mutually explanatory, and unless otherwise expressly provided elsewhere in the Contract, the priority of the documents, in the event of any ambiguity between them, shall be interpreted in the following order of priority:

- (1) Agreement / Revised Agreement / Supplementary Agreement,
- (2) Notice to Proceed with the Work,
- (3) Letter of Acceptance,
- (4) Contractor's Bid,
- (5) Contract Data,
- (6) Special Conditions of Contract Part II,
- (7) General Conditions of Contract Part I,
- (8) Specifications,
- (9) Drawings,
- (10) Bill of Quantities, and
- (11) Any undertaking given subsequent to submission of bid.
- (12) Any other document listed in the Contract Data.

3. Language and Law

3.1 The language of the Contract shall be English. The law governing the Contract are the Acts/Rules/Guidelines etc. notified by Government of India and Government of Haryana.

3.2 The works are to be carried out strictly as per the applicable laws, permits, rules and regulations. Any damages / penalties imposed by any statutory authority, like NGT etc, on account of noncompliance of any applicable laws, permits, rules and regulations shall have to be borne by the contractor.

4. Engineer's Decisions

4.1 Except where otherwise specifically stated, the Engineer will decide contractual matters between the Employer and the Contractor in the role representing the Employer. However, if the Engineer is required under the rules and regulations and orders of the Employer to obtain approval of some other authorities for specific actions, he will so obtain the approval.

4.2 Except as expressly stated in the Contract, the Engineer shall not have any authority to relieve the Contractor of any of his obligations under the Contract.

5. Delegation

5.1 The Engineer, with the approval of the Employer, may delegate any of his duties and responsibilities to other person, after notifying the Contractor, and may cancel any delegation after notifying the Contractor.

6. Communications

6.1 All certificates, notices or instructions to be given to the Contractor by the Employer/Engineer shall be sent on the address or contact details given by the Contractor. The address and contact details for communication with the Employer/ Engineer shall be as per the details given in Contract Data to GCC. Communications between parties that are referred to in the conditions shall be in writing. The Notice sent by facsimile (fax) or other electronic means shall be effective on confirmation of the transmission. The Notice sent by Registered post or Speed post shall be effective on delivery or at the expiry of the normal delivery period as undertaken by the postal service.

7. Subcontracting

7.1(a) The Contractor may subcontract part of the work with the approval of the Employer in writing, up to the percentage defined in contract data (of the contract price only). The employer shall evaluate the eligibility of the proposed subcontractor proportionate to the quantum of work to be executed by subcontractor and issue approval for the same. The Employer while approving the subcontracting shall only allow subcontracting if the subcontractor meets the respective experience, machinery and turnover criteria for the quantum of work to be subcontracted. It is expressly agreed that the Contractor shall, at all times, be responsible and liable for all his obligations under this Agreement notwithstanding anything contained in the agreements with his Sub-contractors or any other agreement that may be entered into by the Contractor and no default under any such agreement shall exempt the Contractor from his obligations or liability hereunder.

7.1 (b) However, any specialized work can be Subletted to a Sub Contractor possessing required valid Experience, machinery and turnover after approval from the Competent Authority issuing technical estimate.

7.2 The Contractor shall not be required to obtain any consent from the Employer for:

- (a) the sub-contracting of any part of the Works for which the Sub-Contractor is named in the Contract.
- (b) the provision for labour, or labour component.
- (c) the purchase of Materials which are in accordance with the standards specified in the Contract.

7.3. The Engineer should satisfy himself before recommending to the Employer whether the Sub-Contractor so proposed for the Works possesses the experience, qualifications and equipment necessary for the job proposed to be entrusted to him in proportion to the quantum of Works to be sub-contracted.

7.4 While sub-contracting part of construction work as per provisions of Clause 7.1 and 7.3 above, the Contractor shall enter into formal sub-contract with sub-contractor making provisions for such requirements as may be specified by the Engineer including a condition that to the extent of inconsistency, provision of the Contract shall prevail over the provisions of the sub-contract. A copy of document of formal sub-contract shall be furnished to the Employer within a period of 30 days from the date of such sub-contract. In all such cases, on completion of the Contract, the Engineer, unless for reasons recorded in writing decides otherwise shall issue a Certificate of Experience to the contractor and in such certificate, the experience of the sub-contractors shall also be mentioned. The Copy of

such certificate would also be endorsed to the sub-contractor.

8. Other Contractors

8.1 The Contractor shall cooperate and share the Site with Other Contractors, public authorities, utilities, and the Employer between the dates given in the Schedule of Other Contractors, as referred to in the Contract Data. The Contractor shall also provide facilities and services for them as described in the Schedule. The Employer may modify the Schedule of Other Contractors, and shall notify the Contractor of any such modification.

8.2 The Contractor should take up the works in convenient reaches as decided by the Engineer to ensure there is least hindrance to the smooth flow of traffic including movement of vehicles and equipment of Other Contractors till the completion of the Works.

9. Personnel

9.1 The Contractor shall ensure that the personnel engaged by it in the performance of its obligations under this Contract are at all times appropriately qualified, skilled and experienced in their respective functions.

9.2 The Contractor shall employ for the construction work and operation of lab, the technical personnel named in the Contract Data or other technical persons approved by the Engineer. Before signing the agreement the contractor will submit the bio data of the technical personnel, as given in contract data, he proposes to employ on this work to the Engineer and will get the bio data approved from the Engineer. The Engineer will approve any proposed replacement of technical personnel only if their relevant qualifications and abilities are substantially equal to or better than those of the personnel stated in the Contract Data.

9.3 If the Engineer asks the Contractor to remove a person who is a member of the Contractor's staff or work force, stating the reasons, the Contractor shall ensure that the person leaves the Site within seven days and has no further connection with the Works in the Contract. The Contractor shall then appoint (or cause to be appointed) a replacement.

9.4 The Contractor shall not employ any retired Gazetted officer who has worked in the Engineering Department of the State Government and has either not completed two years after the date of retirement or has not obtained State Government's permission for employment with the Contractor.

9.5 The Engineer may require the Contractor to remove (or cause to be removed) any person employed on the Site or Works, including the Contractor's Representative, who in the opinion of the Engineer:

- (a) persists in any misconduct,
- (b) is incompetent or negligent in the performance of his duties,
- (c) fails to conform with any provisions of the Contract, or
- (d) persists in any conduct which is prejudicial to safety, health, or the protection of the environment.

10. Employer's and Contractor's Risks

10.1 The Employer carries the risks which this Contract states are Employer's risks, and the

Contractor carries the risks which this Contract states are Contractor's risks.

11. Employer's Risks

11.1 The Employer is responsible for the excepted risks which are (a) in so far as they directly affect the execution of the Works in the Employer's country, the risks of war, invasion, act of foreign enemies, rebellion, revolution, insurrection or military or usurped power, civil war, riot commotion or disorder (unless restricted to the Contractor's employees) and contamination from any nuclear fuel or nuclear waste or radioactive toxic explosive.

12. Contractor's Risks

12.1 All risks of loss of or damage to physical property and of personal injury and death which arise during and in consequence of the performance of the Contract other than the excepted risks, referred to in clause 11.1, are the responsibility of the Contractor.

13. Insurance

13.1 The Contractor at his cost shall provide, in the joint names of the Employer and the Contractor, insurance cover from the Start Date to the date of completion, in the amounts and deductibles stated in the Contract Data for the following events which are due to the Contractor's risks:

- (a) loss of or damage to the Works and material, plant and machinery to be incorporated in the work.
- (b) Personal injury or death.
- (c) Loss of damage to property of third party other than the Contractor and the Employer (except works, plant, material and equipments) in connection with the Contract.

13.2 Insurance policies and certificates for insurance shall be delivered by the Contractor to the Engineer for the Engineer's approval before the Start Date. All such insurance shall provide for compensation to be payable in Indian Rupees to rectify the loss or damage incurred.

13.3 (a) The Contractor at his cost shall also provide, in the joint names of the Employer and the Contractor, insurance cover from the date of completion to the end of **Defect Liability-cum-Maintenance Period**, in the amounts and deductibles stated in the Contract Data for personal injury or death which are due to the Contractor's risks:

(b) Insurance policies and certificates for insurance shall be delivered by the Contractor to the Engineer for approval before the completion date/start date. All such insurance shall provide for compensation to be payable in Indian Rupees.

13.4 Alterations to the terms of insurance shall not be made without the approval of the Employer.

13.5 Both parties shall comply with any conditions of the insurance policies.

14. Site Investigation Reports

14.1 The Contractor, in preparing the Bid, may, at his own risk, rely on any Site Investigation Reports if referred to in the Contract Data, supplemented by any other information available to him, before submitting the bid.

14.2 The Contractor shall be required to make adequate dewatering arrangements to make the area dry for construction work. No separate payment shall be made to the Contractor for dewatering. The percentage premium (above or below) for HSR items and individual rates for NS items shall include the cost of dewatering unless specific provisions are made in the BOQ for payment of dewatering. This includes sub soil/surface dewatering also, if needed to execute the work properly.

15. Queries about the Contract Data

15.1 The Engineer will clarify queries on the Contract Data.

16. Contractor to Construct the Works

16.1 The Contractor shall construct, and install and maintain the Works in accordance with the Specifications and Drawings.

17. The Works to Be Completed by the Intended Completion Date

17.1 The Contractor may commence execution of the Works on the Start Date and shall carry out the Works in accordance with the Programme submitted by the Contractor, as updated with the approval of the Engineer, and complete them by the Intended Completion Date.

18. Approval by the Engineer

18.1 The Contractor shall submit Specifications and Drawings showing the proposed Temporary Works to the Engineer, who is to approve them.

18.2 The Contractor shall be responsible for design and safety of Temporary Works.

18.3 The Engineer's approval shall not alter the Contractor's responsibility for design and safety of the Temporary Works.

18.4 The Contractor shall obtain approval of third parties to the design and safety of the Temporary Works, where required.

18.5 All Drawings prepared by the Contractor for the execution of the temporary or permanent Works, are subject to prior approval by the Engineer before their use.

19. Safety

19.1 The Contractor shall be responsible for the safety of all activities on the Site.

19.2 The Contractor shall be responsible for safety of all persons, employed by him on Works, directly or through petty contractors or Sub-Contractors, and shall report accidents to any of them, however, and wherever occurring on Works, to the Engineer or the Engineer's Representative, and shall make every arrangement to render all possible assistance and to provide prompt and proper medical attention. The compensation for affected Workers or their relatives shall be paid by the Contractor in such cases expeditiously in accordance with the Workmen's Compensation Act and other labour Laws and regulations.

20. Discoveries

20.1 Anything of historical or other interest or of significant value unexpectedly discovered on the Site shall be the property of the Employer. The Contractor shall notify the Engineer of such discoveries and carry out the Engineer's instructions for dealing with them.

21. Possession of the Site

21.1 The Employer shall handover complete or part possession of the site to the Contractor seven days in advance of construction programme. At the start of the work, the Employer shall handover the possession of at least 80% of the site.

22. Access to the Site

22.1 The Contractor shall allow access to the Site and to any place where work in connection with the Contract is being carried out, or is intended to be carried out to the Engineer and any person/persons/agency authorized by:

- (a) The Engineer
- (b) The Employer
- (c) State Government of Haryana.

22 A. Royalties

Except where otherwise stated, the contractor shall pay all tonnage and other royalties, rent and other payments of compensation, if any, for getting stone, sand, gravel, clay or other materials required for the works.

The contractor has to give proof for making payment of royalty to any state Government for procuring stone soling, stone metal, bajri and earth etc. If these are arranged from quarries situated in Haryana but not auctioned by Industries Department, Government of Haryana, the Engineer shall be at liberty to make recovery of royalties after due notice to the contractor. The decision of Employer in this regard shall be final.

23. Instructions

23.1 The Contractor shall carry out all instructions of the Engineer, which comply with the applicable laws where the Site is located.

24. Dispute Redressal system

24.1 If any dispute or difference of any kind what-so-ever shall arise in connection with or arising out of this contract or the execution of work or Maintenance of the works there under, whether before its commencement or during the progress of works or after the termination, abandonment or breach of the contractor after completion of work, it shall, in the first instance, be referred for settlement to the Employer defined in contract within 45 days of arising of the dispute or difference. The Employer shall, within a period of 45 days after being requested in writing by the contractor to do so, convey his decision to the contractor. Such decision in respect of every matter so referred shall, subject to review as hereinafter provided, be final and binding upon the contractor as well as employer. In case the work is already in progress, the contractor shall proceed with the execution of the works, including maintenance thereof pending receipt of the decision of the Employer as aforesaid, with all due diligence.

24.2 Either of the parties is barred from making reference to the Employer after 120 days

from completion of work i.e. the claims will be time barred if the reference to the Employer is not made within 120 days from the completion of work.

24.3 After the decision of Employer, if either of the party is not satisfied, the matter in the dispute shall be referred to the Disputes Review Board (DRB). The Board shall comprise of three Members having experience in the field of construction or have been involved in the works related to construction and with the interpretation of contractual documents. Further, they should not be serving in the department and will have no relation/ financial transaction with the agency. One member each, not below the rank of Chief Engineer (Retd) shall be selected by the department and the contractor from the list approved by the Department. The Presiding/ Chairman of the board shall be selected by the two members so selected within 30 days, not below the rank of Engineer-in-Chief (Retd). The third member shall serve as Chairman of the board.

In the event of death, disability, or resignation of any member, such member shall be replaced in the same manner as the member being replaced was selected. If for any other reason, a member fails or is unable to serve, the Chairman (or failing the action of the Chairman then either of the other members) shall in form the Parties and such non- serving member shall be replaced in the same manner as the member being replaced was selected. Any replacement made by the parties shall be completed within 28 days after the event giving rise to the vacancy on the Board.

24.4 The members of the Board shall be paid as per the rates approved by the Govt. from time to time. While selecting the members of the board the latest fee approved by the Govt. shall be communicated to the such members and their appointment shall be subject to consent to the rates. The Fees shall be borne by both parties equally.

24.5 The Board shall deliver its decision within 120 days from its constitution or any extension (maximum upto 60 days) mutually agreed upon by the Department and the Contractor. If either, the Department or the Contractor, is dissatisfied with decision of the Board, may within 120 days after receipt of the decision/non-decision. Of the Board, with in stipulated period, can go to appropriate court.

25 Arbitration

In view of the provision of the clause 24 on Dispute Redressal System, it is the condition of the Contract that there will be no arbitration for the settlement of any dispute between the parties.

B. Time Control

26. Programme

26.1 Within the time stated in the Contract Data, the Contractor shall submit to the Engineer for approval a Programme showing the general methods, arrangements, order, and timing for all the activities in the Works, for the construction of works.

26.2 The Contractor shall submit the list of equipment and machinery being brought to site, the list of key personnel being deployed, the list of machinery/ equipments being placed in field laboratory and the location of field laboratory along with the Programme. The Engineer shall cause these details to be verified at each appropriate stage of the programme.

26.3 An update of the Programme shall be a programme showing the actual progress achieved on each activity and the effect of the progress achieved on the timing of the remaining Works, including any changes to the sequence of the activities.

26.4 The Contractor shall submit to the Engineer for approval an updated Programme at intervals no longer than the period stated in the Contract Data. If the Contractor does not submit an updated Programme within this period, the Engineer may withhold the amount stated in the Contract Data from the next payment certificate and continue to withhold this amount until the next payment after the date on which the overdue Programme has been submitted.

26.5 The Engineer's approval of the Programme shall not alter the Contractor's obligations. The Contractor may revise the Programme and submit it to the Engineer again at any time. A revised Programme shall show the effect of Variations and Compensation Events.

27. Extension of the Intended Completion Date

27.1 The Engineer shall extend the Intend Completion Date, with approval from authority competent to grant time extension as mentioned in clause 16.16.6 of PWD code through Employer, if a Compensation Event occurs or a Variation is issued which makes it impossible for Completion to be achieved by the Intended Completion Date without the Contractor taking steps to accelerate the remaining work and which would cause the Contractor to incur additional cost.

The Clause 16.16.6 is reproduced as under:-

“16.16.6 The authority competent to technically sanction the estimate shall have the power to grant EOT. However, to check disproportionate EOTs and to ensure uniformity in approach, the Engineer-in-Chief shall issue instructions in this regard from time to time.”

27.2 The Engineer with the approval of the authority competent to grant time extension as per PWD Code Clause 16.16.6 through employer shall decide whether and by how much to extend the Intended Completion date within 56 days of the Contractor asking the Engineer for a decision upon the effect of a compensation event or variation and submitting full supporting information. If the Contractor has failed to give early warning to delay or has failed to cooperate in dealing with a delay, the delay by the failure shall not be considered in accessing the new Intended Completion Date.

27.3 The Engineer shall within 14 days of receiving full justification from the contractor for extension of Intended Completion Date refer to the employer. The employer shall refer the case to the authority competent to grant time extension as per Clause 16.16.6 of PWD Code within further 14 days for his decision. If the authority competent to grant time extension fails to give his acceptance within next 28 days, the engineer shall not grant the time extension and the Contractor

may refer the matter to the Dispute Redressal System under clause 24.1. In case the employer happens to be the authority competent to grant time extension, he would convey his decision to the Engineer within 42 days.

28. Delays Ordered by the Engineer

28.1 The Engineer may instruct the Contractor to delay the start or progress of any activity within the Works. Delay/delays totaling more than 30 days will require prior written approval of the Employer.

29. Management Meetings

29.1 The Engineer may require the Contractor to attend a management meeting. The business of a management meeting shall be to review the plans for the Works.

29.2 The Engineer shall record the business of management meetings and provide copies of the record to those attending the meeting. The responsibility of the parties for actions to be taken shall be decided by the Engineer either at the management meeting or after the management meeting and stated in writing to all those who attended the meeting.

C. Quality Control

30. Identifying Defects

30.1 The Engineer shall check the Contractor's work and notify the Contractor of any Defects that are found. Such checking shall not affect the Contractor's responsibilities. The Engineer may instruct the Contractor to search for a Defect and to uncover and test any work that the Engineer considers may have a Defect.

31. Tests

31.1 For carrying out mandatory tests as prescribed in the specifications, the Contractor shall establish field laboratory at the location decided by Engineer. The field laboratory will have minimum equipments as specified in the Contract Data. The Contractor shall be solely responsible for :

- (a) Carrying out the mandatory tests prescribed in the relevant Specifications, and
- (b) For the correctness of the test results, whether preformed in his laboratory or elsewhere.

If the Engineer instructs the Contractor to carry out a test not specified in the Specifications to check whether any work has a Defect and the test shows that it does, the Contractor shall pay for the test and any samples.

32. Correction of Defects noticed during the Defects Liability-cum-Maintenance Period. **Period as defined in Contract Data.**

32.1 The Engineer shall give notice to the Contractor of any Defects before the end of the Defect Liability-cum-Maintenance Period, which begins from the Completion Date. The Defect Liability-cum-Maintenance Period shall be extended for as long as the Defects remain to be corrected.

32.2 Every time notice of Defect/Defects is given, the Contractor shall correct the notified Defect/Defects within the duration of time specified by the Engineer's notice.

32.3 To fulfill the objectives laid down, the Contractor shall undertake detailed inspection of the work at least once in a month. The Engineer can increase this frequency in case of emergency. The Contractor shall forward to the Engineer, the record of inspection and rectification each month. For Road works the Contractor shall pay particular attention on those road sections which are likely to be damaged or inundated during rainy season.

32.4 The Engineer may issue notice to the Contractor to carry out maintenance of defects, if any, noticed in his inspection, or brought to his notice. The Contractor shall remove the defects within the period specified in the notice and submit to the Engineer a compliance report.

33. Uncorrected Defects

33.1 If the Contractor has not corrected a Defect within the time specified in the 'Engineer's notice, the 'Engineer' will assess the cost of having the Defect corrected, and the Contractor will pay double of this amount.

33.2 If the contractor fails to pay the amount as intimated by the 'Engineer' to the contractor as per clause 33.1 the same shall be recovered from the running bill or the security amount and if it is more than the security amount then the same shall be recovered from the performance security.

D. Cost Control

34. Bill of Quantities

34.1 The Bill of Quantities shall contain items for the construction, installation, testing, and commissioning works to be done by the Contractor.

35 The Bill of Quantities is used to calculate the Contract Price. The Contractor is paid for the quantity of the work done at the rates in the Bill of Quantities for each item.

36. Variations

36.1 The Engineer shall, having regard to the scope of the Works and the sanctioned estimated cost, have power to order, in writing, Variations within the scope of the Works, he considers necessary during the progress of the Works. Such Variations shall form part of the Contract and the Contractor shall carry them out and include them in updated Programmes produced by the Contractor. Oral orders of the Engineer for Variations, unless followed by written confirmation, shall not be taken into account.

37. Payments for Variations

37.1 If the final quantity of the work done exceeds from the quantity in the Bill of Quantities for the particular item by more than 25 per cent provided the change exceeds 1% of initial Contract Price, the 'Engineer' with the approval of the Competent Authority and shall adjust the rate to allow for the change, duly considering:

- (a) justification for rate adjustment as furnished by the Contractor,
- (b) economies resulting from increase in quantities by way of reduced plant, equipment and overhead costs.
- (c) Entitlement of the Contractor to compensation events where such events are caused by any additional work.

37.2 If requested by the 'Engineer' / Employer, the Contractor shall provide the 'Engineer' / Employer with a detailed cost breakdown of any rate in the Bill of Quantities.

38. Cash Flow Forecasts

38.1 When the Programme is updated, the Contractor shall provide the Engineer with an updated cash flow forecast.

39. Payment Certificates

39.1 The Contractor shall submit to the 'Engineer' monthly statements of the estimated value of the work completed less the cumulative amount certified previously by 1st week of the month. In case contractor does not submit his bill by 1st week of the month, 'Engineer' shall get the monthly statement of the estimated value of work completed less cumulative amount prepared by the end of third week of the month. This procedure will be followed even if no work is carried out at the site of work.

39.2. Deleted.

39.3 Deleted.

39.4 Deleted.

40. Payments

40.1 Payments shall be adjusted for deductions for advance payments, security deposit/retention, other recoveries in terms of the contract and taxes at source, as applicable under the law.

41. The Employer may appoint another authority, as specified in the Contract Data (or any other competent person appointed by the Employer and notified to the Contractor) to make payment certified by the Engineer.

42. Items of the Works for which no rate or price has been entered in the Bill of Quantities, will not be paid for by the Employer and shall be deemed covered by other rates and prices in the Contract.

43. The agency / bidder to whom the work is allotted shall be paid lowest of the following in the running / final bills:-

1. Amount calculated with the accepted rates of lowest agency.
2. Amount worked out with the accepted percentage above /below HSR+CP/analytical rates/NS item rates, worked out in financial statement. Financial statement will be made a part of agreement.

44. Compensation Events

44.1 The following are Compensation Events unless they are caused by the Contractor:

- (a) The Employer does not give access to 80% of the area of project Site by the Site Possession Date stated in the Contract Data.
- (b) The Employer modifies the schedule of other contractors in a way which affects the work of the contractor under the contract.
- (c) The Engineer orders a delay or does not issue drawings, specifications or instructions required for execution of works on time.
- (d) The Engineer instructs the Contractor to uncover or to carry out additional tests upon work which is then found to have no Defects.
- (e) The Engineer does not approve of a subcontract to be let, within 30 days.
- (f) Ground conditions are substantially more adverse than could reasonably have been assumed before issuance of Letter of Acceptance from the information issued to Bidders (including the Site Investigation Reports), from information available publicly and from a visual inspection of the site.
- (g) The Engineer gives an instruction for dealing with an unforeseen condition, caused by the Employer, or additional work required for safety or other reasons.
- (h) Other contractors, public authorities, utilities or the Employer does not work within the dates and other constraints stated in the Contract, and they cause delay or extra cost to the Contractor.

- (i) The advance payment is delayed, beyond 28 days after receipt of application and bank guarantee.
- (j) The effect on the Contractor of any of the Employer's Risks.
- (k) The Engineer unreasonably delays issuing a Certificate of Completion.
- (l) Other Compensation Events listed in the Contract Data or mentioned in the Contract.

44.2 In case of works of Irrigation Water Resources Department, no compensation would be payable due to non availability of closure of a canal. If the closure is not made available within the Intended Completion Date, the Contractor will have the option to complete the works, with the permission of Competent Authority, in the extended period.”

44.3 If a Compensation Event would prevent the Works being completed before the Intended Completion Date, the Intended Completion Date shall be extended. The Engineer shall recommend to the Employer whether and by how much the Intended Completion Date shall be extended. Final approval shall rest with the Employer.

45. Tax

The Price Bid by the Contractor shall include all custom duties, import duties, levies, business taxes, income, toll and other taxes, duties etc. of local bodies and authorities as applicable that may be levied in accordance to the laws and regulations in being as on the closing date for submission of Bid in the country of Employer on the Contractor's Equipment, Plant, materials and supplies (permanent, temporary and consumables) acquired for the purpose of Contract and on the services performed under the Contract excluding GST . Nothing in this Contract shall relieve the Contractor from the responsibility to pay the taxes and duties that may be levied in the Employer's country on profits made by him in respect of the Contract. The GST amount shall be reimbursed on production of proof of deposit of GST with Govt. for the previous payment.

45.1 Subsequent Legislation

If, after the closing date for submission of Bid there occur changes to any National or State Statue, Ordinance, Decree or other Law or any regulation or bye-law of any local or other duly constituted authority, or the introduction of any such State Statue, Ordinance, Decree, Law, regulation or bye-law which causes additional or reduced cost to the Contractor in the execution of the Contract, such additional or reduced cost shall, after due consultation with the Employer and the Contractor, be determined by the Construction Manager and shall be added to or deducted from the Contract Price and the Construction Manager shall notify the Contractor accordingly, after taking approval from the Competent Authority, with a copy to the Employer.

45.2 Other Changes in Cost

To the extent that full compensation for any rise or fall in costs to the Contractor is not covered by the provisions of this or other 'Clauses in the Contract, the unit rates and prices included in the Contract shall be deemed to include amounts to cover the contingency of such other rise or fall of costs.

46 Currencies

46.1 All payments will be made in Indian Rupees.

47. Price Adjustment

47.1 Contract price shall be adjusted for increase or decrease in rates with the principles and procedures and as per formula given in the contract data. The rate of cement/steel issued under the authority of Engineer-in-Chief concerned on the date of receipt of tender shall be considered as base rate.

47.2 To the extent that full compensation for any rise or fall in costs to the contractor is not covered by the provision of this or other clauses in the contract, the unit rates and prices included in the contract shall be deemed to include amounts to cover the contingency of such other rise or fall in costs.

47.3 The contractor shall submit original bill/ voucher while claiming the payment for the work done. The bill/ voucher should pertain to the period of original contractual time limit and should correspond with the progress of work. No extra payment due to increase in rate of cement/steel/bitumen will be paid if the original bill/ vouchers are not submitted by the agency. No increase in prices of the cement/steel/bitumen shall be reimbursed to the contractor beyond the original time period allowed for construction as per contract agreement irrespective of extension of time limit granted to the agency for any reason, whatsoever.

48. Retention Money

The Employer shall retain a sum of 6% (six percent) from each payment due to the contractor subject to a maximum of 5% of the final contract price until Completion of the whole of the Works.

On completion of the whole of the Works half the total amount retained is repaid to the Contractor and half when the Defect Liability-cum-Maintenance Period has passed and the Engineer has certified that all Defects notified by the Engineer to the Contractor before the end of this period have been corrected.

On completion of the whole works, the contractor may substitute retention money with an “on demand” Bank guarantee/FDR.

49. Liquidated Damages

49.1 In the event of failure on part of the Contractor to achieve timely completion of the project, including any extension of time granted under Clause 27, he shall, without prejudice to any other right or remedy available under the law to the Employer on account of such breach, pay as agreed liquidated damages to the Employer and not by way of penalty in a sum calculated at the rate per day or part thereof as stated in the Contract Data. For the period that the Completion Date is later than the Intended Completion Date, liquidated damages at the same rate shall be withheld if the Contractor fails to achieve the milestones prescribed in the Contract Data. However, in case the Contractor achieved the next milestone, the amount of the liquidated damages already withheld shall be restored to the Contractor by adjustment in the payment certificate. Both the Parties expressly agree that the total amount of liquidated damages shall not exceed 10% (ten percent) of the contract price on the date on which liquidated damages have become due. The liquidated damages payable by the Contractor are mutually agreed genuine pre-estimated loss and without any proof of actual damage likely to be suffered and incurred by the Employer; and the Employer is entitled to receive the same and are not by way of penalty.

The Employer may, without prejudice to any other method of recovery, deduct the amount of such damages from any sum due, or to become due to the Contractor or from Performance Security or any other dues from Government or semi Government bodies within the state.

The payment or deduction of such damages shall not relieve the Contractor from his obligations to complete the Works, or from any other of his duties, obligations or responsibilities under the Contract.

The Contractor shall use and continue to use his best endeavour to avoid or reduce further delay to the Works, or any relevant Stages.

49.2 The Employer, with the approval of the competent authority, based on the justified reasons, can extend the intended completion date. The liquidated damages can be deferred/reduced/waived (whole or part) by the SE concerned for contract(s) upto Rs.1.00 cr., CE from Rs.1.00 cr. to Rs.10.0 cr. and E-In-C for contract(s) above Rs.10.00 cr. This will be done on the written request of the contractor and written recommendations of EE/SE as the case may be. If the Intended Completion Date is extended after liquidated damages have been paid, the Engineer shall correct any such payment of liquidated damages by the Contractor

49.3 It is agreed by the Contractor that the decision of the Employer as to the liquidated damages payable by the Contractor under this Clause shall be final and binding.

50. Advance Payment

50.1. The Employer shall make advance payment to the Contractor of the amounts stated in the Contract Data by the date stated in the Contract Data, against provision by the Contractor of an Unconditional Bank Guarantee in a form as per Section-7 and by a bank acceptable to the Employer in amounts and currencies equal to the advance payment. The guarantee shall remain effective until the advance payment has been repaid, but the amount of the guarantee shall be progressively reduced by the amounts repaid by the Contractor. Interest will be charged on the advance payment as specified in the contract data.

50.2. The Contractor is to use the advance payment only to pay for Equipment, Plant and Mobilization expenses required specifically for execution of the Works. The Contractor shall demonstrate that advance payment has been used in this way by supplying copies of invoices or other documents to the 'Engineer'.

50.3. The advance payment shall be repaid by deducting proportionate amounts from payments otherwise due to the Contractor. Following the schedule of completed percentages of the Works on a payment basis. No account shall be taken of the advance payment or its repayment is assessing valuations of work done, Variations, price adjustments, Compensation Events, or Liquidated Damages.

50.4. Secured Advance

The 'Engineer' shall make advance payment in respect of materials intended for but not yet incorporated in the Works in accordance with conditions stipulated in the Contract Data.

51 Securities

51.1 The Performance Security equal to 5% (five percent) and additional security for unbalanced bids shall be provided to the Employer no later than the date specified in the Letter of Acceptance and shall be issued in an amount and form and by a bank or surety acceptable to the Employer, and denominated in Indian Rupees. The Performance Security shall be valid until a date 45 days from the date of expiry of Defect Liability-cum-Maintenance Period and the additional security for unbalanced bids shall be valid until a date 28 days from the date of issue of the certificate of completion.

51.2 Whenever the work value is enhanced on account of variation in quantities / change of scope of work during the execution, beyond 10% above the original agreement amount, the contractor shall be required to submit the additional Performance Security in the form of Bank Guarantee @ 5% of the enhanced value of contract with the same validity as applicable to the original Performance Security and a supplementary agreement for the revised work value shall be signed with the department which shall also define the mile stones as well as revised intended completion date. The contractor shall deliver additional Performance Security within 21 days of receipt of request in this regard from the employer.

Illustration:

Original Amount of agreement	Enhancement	Amount after enhancement	Additional Performance
Rs 1,00,000.00	Rs 10,000.00	1,10,000.00	Nil
Rs 1,00,000.00	Rs 15,000.00	1,15,000.00	5% of Rs 15,000.00

52. Cost of Repairs

52.1 Loss or damage to the Works or Materials to be incorporated in the Works between the Start Date and the end of the **Defect Liability-cum-Maintenance Period** shall be remedied by the Contractor at his cost if the loss or damage arises from the Contractor's acts or omissions.

53. Monthly Billing by Contractors Post Allotment

It shall be mandatory for the contractor, after the allotment of work, to submit monthly running bills for the work executed in the preceding month. Such bills shall invariably be submitted through the designated module on the HEWP platform between the 1st and 10th day of every month. In cases where no work has been executed in a preceding month, the contractor shall still be required to submit a bill with **zero amount** within the stipulated period.

In case the contractor submits the monthly bill between the 11th and 20th day of the month, a penalty at the rate of 0.025% of the contract price shall be levied. If the contractor fails to submit the monthly bill by the 20th day, an additional penalty of 0.025% of the contract price per day shall be applicable for each day of delay beyond the 20th day. These penalty charges shall be non-refundable under all circumstances.

The total penalty for delay in submission of monthly bills shall not exceed 10% of the contract price.

E. Finishing the Contract

53. Completion of Construction and Maintenance

53.1 The Contractor shall request the Engineer to issue a Certificate of Completion of the works and the Engineer will do so upon deciding that the Work is completed, within 21 days of the receipt of request or within a reasonable period as per nature of the work.

54. Taking Over

54.1 The Employer shall take over the Works within seven days of the Engineer's issuing a certificate of Completion of Works. The Contractor shall continue to remain responsible for its **Defect Liability-cum-Maintenance period during the Defect Liability-cum-Maintenance Period.**

54.2 The Employer shall take over the maintained work within seven days of the Engineer issuing a certificate of clearance of **Defect Liability-cum-Maintenance Period.**

55. Substantial completion

55.1 The Engineer shall issue a substantial completion certificate if so requested by the contractor if the work is atleast 95% complete and the work has been executed to such an extent that it can be gainfully utilized by the Employer and remaining work is minor in nature not affecting gainful use of the work.

56. Defect Liability-cum-Maintenance period

56.1 The Defect Liability-cum-Maintenance period shall be as defined in the Contract Data and Special Condition of Contract.

57. Final Account

57.1. The Contractor shall supply to the 'Engineer' a detailed account of the total amount that the Contractor considers payable under the Contract before the end of the Defects Liability Period. The 'Engineer' shall issue a Defect Liability Certificate and certify any final payment that is due to the Contractor within 56 days of receiving the Contractor's account if it is correct and complete. If it is not, 'Engineer' shall issue within 56 days a schedule that states the scope of the corrections or additions that are necessary. If the Final Account is still unsatisfactory after it has been resubmitted, the Engineer shall decide on the amount payable to the Contractor and issue a payment certificate, within 56 days of receiving the Contractor's revised account.

57.2 The contractor will submit the final bill of construction within 21 days of issue of Completion Certificate. The Engineer will process and pass the final bill within 21 days of the submission of final bill by the contractor.

58. Operating and Maintenance Manuals

58.1 The Contractor shall submit "as built" drawings for the work by the dates given in the contract data. If "as built" Drawings and/or operating and maintenance manuals are required, the Contractor shall supply them by the dates stated in the Contract Data.

58.2 If the Contractor does not supply the Drawings and/or manuals by the dates stated in the Contract Data, or they do not receive the Engineer's approval, the Engineer shall withhold the amount stated in the Contract Data from payments due to the Contractor.

59. Termination

59.1 The Employer or the Contractor may terminate the Contract if the other party causes a fundamental breach of the Contract.

59.2 Fundamental breaches of the Contract shall include, but shall not be limited to, the following:

- (a) the Contractor stops work for 28 days when no stoppage of work is shown on the current Programme and the stoppage has not been authorized by the Engineer;
- (b) the 'Engineer' instructs the Contractor to delay the progress of the Works and the instruction is not withdrawn within 56 days the Contractor is declared as bankrupt or goes into liquidation other than for approved reconstruction or amalgamation;
- (c) the Engineer gives Notice that failure to correct a particular Defect whether pertaining to construction work or pertaining to **Defect Liability-cum-Maintenance Period** is a fundamental breach of the Contract and the Contractor fails to correct it within a reasonable period of time determined by the Engineer;
- (d) the Contractor does not maintain a Security, which is required;
- (e) the Contractor has delayed the completion of the Works by the number of days for which the maximum amount of liquidated damages can be paid, as defined in clause 44.1;
- (f) the Contractor fails to provide insurance cover as required under clause 13;
- (g) if the Contractor, in the judgment of the Employer, has engaged in the corrupt, fraudulent or coercive practice in competing for or in executing the Contract. For the purpose of this clause, "corrupt practice" means the offering, giving, receiving, or soliciting of anything of value to influence the action of a public official in the procurement process or in Contract execution. "Fraudulent Practice" means a willful misrepresentation or omission of facts or submission of fake/forged documents in order to induce public official to act in reliance thereof, with the purpose of obtaining unjust advantage by or causing damage to justified interest of others and/or to influence the procurement process to the detriment of the Government interests. And, this includes collusive practice among Bidders (prior to or after bid submission) designed to establish bid process at artificial non-competitive levels and to deprive the Employer of the benefits of free and open competition. "Coercive practice" means the act of obtaining something, compelling an action or influencing a decision through intimidation, threat or the use of force directly or indirectly, where potential or actual injury may befall upon a person, his/ her reputation or property to influence their participation in the tendering process.
- (h) if the Contractor, in the judgment of the Employer, has engaged in the corrupt, fraudulent practice to extract undue payments from the department while executing the Contract. For the purpose of this clause, "corrupt practice" means the offering, giving, receiving, or soliciting of anything of value to influence the action of a public official in the procurement process or in Contract execution. "Fraudulent Practice" means a willful misrepresentation or omission of facts or submission of fake/forged documents / claims / bills in order to induce public official to act in reliance thereof, with the purpose of obtaining unjust advantage detriment of the Government interests.

- (i) any other fundamental breaches as specified in the Contract Data.

59.3 When either party to the Contract gives notice of a breach of contract to the 'Engineer' for a cause other than those listed under Sub Clause 59.2 above, the 'Engineer' shall decide whether the breach is fundamental or not

59.4 Notwithstanding the above, the Employer may terminate the Contract for convenience.

59.5 If the Contract is terminated, the Contractor shall stop work immediately, make the Site safe and secure, and leave the Site as soon as reasonably possible.

60. Payment upon Termination

60.1 (i) If the Contract is terminated because of a fundamental breach of Contract by the Contractor, the Engineer shall issue a certificate for the value of the work done, less liquidated damages, less advance payments received up to the date of the issue of the certificate and less the percentage to apply to the value of the work not completed, as indicated in the Contract Data. If the total amount due to the Employer exceeds any payment due to the Contractor, the difference shall be recovered from the Retention Money and Performance Security. If any amount is still left unrecovered it will be a debt payable to the Employer from any other due payments to the contractor for any other works executed by him in the State of Haryana, any other state Govt. works, Central Govt. works including state public sector works executed by the Contractor.

(ii) If the Contract is terminated because of a fundamental breach of contract by the Contractor due to non compliance of the requirements of clause 32 of GCC regarding Defect Liability-cum-Maintenance Period, the Engineer will assess the cost of having the defect corrected. If the total amount due to the Employer exceeds any payment due to the Contractor, the difference shall be recovered from the Security Deposit and Performance Security. If any amount is still left unrecovered, it will be recovered from any dues payable to the Contractor from any other State Government works including State Public Sector works executed by the Contractor. If any amount still remains unrecovered, it shall be recovered as arrears of land revenue.

60.2 If the Contract is terminated at the Employer's convenience or because of a fundamental breach of Contract by the Employer, the 'Engineer' shall issue a certificate for the value of the work done, the cost of balance material brought by the contractor and available at site, the reasonable cost of removal of Equipment, repatriation of the Contractor's personnel employed solely on the Works, and the Contractor's costs of protecting and securing the Works and less advance payments received up to the date of the certificate, less other recoveries due in terms of the contract and less taxes due to be deducted at source as per applicable law.

Clause 60 (A) - Termination Upon Death of Contractor and payment

Notwithstanding anything contained herein, in the event of the death of the Contractor, the Employer shall have the discretion to determine whether the Contract may be continued or terminated. The Employer may permit the legal heir of the deceased Contractor to continue the execution of the work, provided such heir is willing and found competent to perform the remaining obligations to the satisfaction of the Employer.

If the legal heir is not in a position to carry out the business further, or fails to demonstrate adequate capacity or willingness to continue with the execution of the work, the Employer may, by notice in writing, terminate the Contract.

1. Notification: The Contractor's legal heirs or authorized representative shall promptly notify the Employer in writing of the Contractor's death, providing relevant documentation, including a

death certificate.

2. Payment for Completed Work: The Employer shall pay the Contractor's legal heirs for the portion of the work satisfactorily completed and duly accepted up to the date of the termination, in accordance with the terms of the Contract. The valuation shall be determined by Contractor's death, based on the agreed-upon rates or a fair valuation of the completed work. The valuation shall be determined by Engineer and confirmed by Employer.

3. Return of Materials and Equipment: Any materials, equipment, or tools belonging to the Employer and in the possession of the Contractor at the time of death shall be returned to the Department. The Contractor's legal heirs or authorized representative shall facilitate this return.

4. Settlement of Accounts: The Employer and the Contractor's legal heirs or authorized representative shall cooperate in settling all outstanding accounts related to the Agreement. This includes any payments due to the Contractor, refunds due to the Department, or any other financial obligations as per provisions of the Contract Agreement.

5. No Liability: Neither party shall be liable to the other for any losses or damages arising solely from the termination of this Agreement due to the Contractor's death, except for the obligations outlined in this clause.

6. Governing Law and Jurisdiction: This clause and its interpretation shall be governed by and construed in accordance with the laws of India. Any disputes arising from this clause shall be subject to the exclusive jurisdiction of the courts in Chandigarh

7. Force Majeure: The death of the contractor will be considered a force majeure event for the purposes of this contract.

61. Property

61.1 All materials on the Site, Plant, Equipment, Temporary Works and Works are deemed to be the property of the Employer, if the Contract is terminated because of a Contractor's default to make recoveries.

62. Release from Performance

62.1 If the Contract is frustrated by the outbreak of war or by any other event entirely outside the control of the Employer or the Contractor, the Engineer shall certify that the Contract has been frustrated. The Contractor shall make the Site safe and stop work as quickly as possible after receiving this certificate and shall be paid for all work carried out before receiving it and for any work carried out afterwards to which a commitment was made.

62.2 If a Contractor dies during the currency of the Contract or becomes permanently incapacitated, and his/her legal heirs are not willing to complete the Contract, the Contract shall be closed without levying any damages/compensation as provided for in clauses 44 and 60 of GCC.

However, if the nominee expresses his/her intention to complete the balance work and the competent authority is satisfied about the competence of the nominee, then the competent authority shall enter into a fresh agreement for the remaining work strictly on the same terms and conditions, under which the Contract was initially awarded.

Part-II Special Conditions of Contract

1. LABOUR:

1.1 Every Contractor shall:-

- (i) In relation to an establishment to which this Act applies on its commencement, within a period of 60 days from such commencement, and
- (ii) In relation to any other establishment to which this Act may be applicable at any time after such commencement, within a period of 60 days from the date on which this Act becomes applicable to such establishment, make an application to the registering officer for the registration of establishment.

Further, the first running bill of the contractor shall be cleared only after the receipt of registration certificate under the Building & Other Construction Workers Welfare (RE&CS) Act, 1996 and registration of all the eligible construction workers as a beneficiary of the Haryana Building & Other Construction Worker Welfare Board.

1.2 The Contractor shall, unless otherwise provided in the Contract, make his own arrangements for the engagement of all staff and labour, local or other, and for their payment, housing, feeding and transport.

1.3 The Contractor shall, if required by the 'Engineer's', deliver to the 'Engineer' a return in detail, in such form and at such intervals as the 'Engineer' may prescribe, showing the staff and the numbers of the several classes of labour from time to time employed by the Contractor on the Site and such other information as the 'Engineer' may require.

2. COMPLIANCE WITH LABOUR REGULATIONS :

During continuance of the contract, the Contractor shall abide at all times by all existing labour enactments and rules made thereunder, regulations, notifications and bye laws of the State or Central Government or local authority and any other labour law (including rules), regulations, bye laws that may be passed or notification that may be issued under any labour law in future either by the State or the Central Government or the local authority. Salient features of some of the major labour laws that are applicable to construction industry are given below. The Contractor shall keep the Employer indemnified in case any action is taken against the Employer by the competent authority on account of contravention of any of the provisions of any Act or rules made thereunder, regulations or notifications including amendments. If the Employer is caused to pay or reimburse, such amounts as may be necessary to cause or observe, or for non-observance of the provisions stipulated in the notifications/bye laws/Acts/Rules/regulations including amendments, if any, on the part of the Contractor, the 'Engineer's' /Employer shall have the right to deduct any money due to the Contractor including his amount of performance security. The Employer/'Engineer' shall also have right to recover from the Contractor any sum required or estimated to be required for making good the loss or damage suffered by the Employer.

The employees of the Contractor in no case shall be treated as the employees of the Employer at any point of time.

2.1. Registration of Establishment:-

(1) Every employer shall –

- (a) in relation to an establishment to which this Act applies on its commencement, within a period of sixty days from such commencement; and
- (b) in relation to any other establishment to which this Act may be applicable at any time after such commencement, within a period of sixty days from the date on which this Act becomes applicable to such establishment, make an application to the registering officer for the registration of such establishment;

Provided that the registering officer may entertain any such application after the expiry of the periods aforesaid, if he is satisfied that the applicant was prevented by sufficient cause from making the application within such period.

- (2) Every application under sub-section (1) shall be in such form and shall contain such particulars and shall be accompanied by such fees as may be prescribed.
- (3) After the receipt of an application under sub-section (1), the registering officer shall register the establishment and issue a certificate of registration to the employer thereof in such form and within such time and subject to such conditions as may be prescribed.
- (4) Where, after the registration of an establishment under this section, any change occurs in the ownership or management or other prescribed particulars intimated by the employer to the registering officer within thirty days of such change in such form as may be prescribed”.

In case of work executed through the contractor, it is the responsibility of the contractor to get the works registered as employers as per section 2(i) of the BOCW Act. In case of works executed directly through the department, the department is liable to get the works registered.

a) Every Contractor shall:-

- (i) In relation to an establishment to which this Act applies on its commencement, within a period of 60 days from such commencements; and
- (ii) In relation to any other establishment to which this Act may be applicable at any time after such commencement, within a period of 60 days from the date on which this Act becomes applicable to such establishment, make an application to the registering officer for the registration of establishment.

It is mandatory to strictly compliance of BOCW Act and registration of all eligible construction labour. Otherwise it will attract criminal proceedings against the contractual agency and employer for non-compliance of Building & Other Construction Workers Welfare (RE&CS) Act, 1996 and registration of all the eligible construction workers as a beneficiary of the Haryana Building & Other Construction Worker Board.

2.2 SALIENT FEATURES OF SOME MAJOR LABOUR LAWS APPLICABLE TO

DNIT Name : Capability (Performance) Te...

ESTABLISHMENTS ENGAGED IN BUILDING AND OTHER CONSTRUCTION WORK.

- a) Workman Compensation Act 1923:- The Act provides for compensation in case of injury by accident arising out of and during the course of employment.
- b) Payment of Gratuity Act 1972:- Gratuity is payable to an employee under the Act on satisfaction of certain conditions on separation if an employee has completed 5 years service or more on death, the rate of 15 days wages for every completed year of service. The Act is applicable to all establishments employing 10 or more employees.

- a) The contractor shall take all reasonable steps to protect the environment at and off the Site and to avoid damage or nuisance to persons or to property of the public or others resulting from pollution, noise or other causes arising as a consequence of his methods of operation.
- b) During continuance of the contract, the contractor shall abide at all times by all existing enactments on environmental protection and rules made there under, regulations, notifications and by laws of the State or Central Government or local authorities and any other law, bye law, regulations that may be passed for notification that may be issued in this respect in future by the State or Central Government or the local authority.

3.1 Salient features of some of the major laws that are applicable are given below:

- (i) The water (Prevention and Control of Pollution) Act 1974: This provides for the prevention and control of water pollution and the maintaining and restoring of wholesomeness of water. 'Pollution' means such contamination of water or such alternation of physical, chemical or biological properties of water or such discharge of any sewage or trade effluent or of any other liquid, gaseous or solid substance into water (whether directly or indirectly) as may, or is likely to, create a nuisance or render such water harmful or injurious to public health or safety, or to domestic, commercial, industrial, agricultural or other legitimate uses, or to the life and health of animals or plants or of aquatic organisms.
- (ii) The Air (Prevention and Control of Pollution) Act 1981: This provides for prevention, control and abatement of air pollution. 'Air Pollution' means the presence in the atmosphere of any 'air pollutant', which means any solid, liquid, or gaseous substance (including noise) present in the atmosphere in such concentration

as may be or tend to be injurious to human beings or other living creatures or plants or property or environment.

- (iii) The Environment (Protection) Act 1986: This provides for the protection and improvement of environment and for matters connected therewith, and the prevention of hazards to human beings, other living creatures, plants and property. 'Environment' includes water, air and land and the interrelationship which exists among and between water, air and land, and human beings, other living creatures, plants, micro-organism and property.
- (iv) The Public Liability Insurance Act 1991: This provides for public liability insurance for the purpose of providing immediate relief to the persons affected by accident occurring while handling hazardous substances and for matters connected herewith or incidental thereto. Hazardous substance means any substance or preparation which is defined as hazardous substance under the Environment (Protection) Act 1986, and exceeding such quantity as may be specified by notification by the Central Government.

4. The Apprentices Act, 1961

4.1 The Contractor shall duly comply with the provisions of the Apprentices Act, 1961 (III of 1961), the rules made there under and the orders that may be issued from time to time under the said Act and the said Rules and on his failure or neglect to do so, he shall be subject to all liabilities and penalties provided by the said Act and said Rules.

5.0 Amendment

The Haryana Government may, from time to time and to amend any of the Labour or Pollution or other regulations, all amendments in any or all Acts shall also be followed.

6.0 Drawings and Photographs of the Works

6.1 The Contractor shall do photography/video photography of the site firstly before the start of the work, secondly mid-way in the execution of different stages of work and lastly after the completion of the work. No separate payment will be made to the Contractor for this.

6.2 The Contractor shall not disclose details of Drawings furnished to him and works on which he is engaged without the prior approval of the Employer in writing. No photograph of the works or any part thereof or plant employed thereon, except those permitted under clause 58.1, shall be taken or permitted by the Contractor to be taken by any of his employees without the prior approval of the Employer in writing. No photographs/ Video photography shall be published or otherwise circulated without the approval of the Employer in writing.

7. The various works shall be done in line to line level and grade. The periodical checking of these by the Engineer or Engineer's representative shall not absolve the Contractor of his responsibility regarding their accuracy. In case of any deviation or discrepancy in line, level or grade at the meeting faces, the Contractor shall make good the discrepancy at his own cost and without any compensation for the additional work, if any involved. The Engineer shall further have right, if need be, to rectify the discrepancies and recover the cost from the Contractor.

8. All materials, before being incorporated in the work, shall be inspected by the Engineer or his representative and, if necessary, tested before use. Any work, on which such materials are used without approval and written permission of the Engineer, is liable to be considered as defective and not acceptable.

- 8.1 The day to day and periodical tests, to be carried out on materials, mixes and placed concrete, etc., shall be specified by the Engineer from time to time and the Contractor shall allow all the facilities and cooperation towards collections of samples etc. All labour for collecting samples for tests will be supplied by the Contractor free of cost to the Engineer. Where testing facility is not available in the field lab, the Engineer-in-Charge will get the test conducted from some approved laboratory and testing and transportation charges shall be borne by the Contractor in all such cases.
- 8.2 An authorized representative of the Contractor shall remain present at the time when the samples are taken and shall authenticate the facts, if so required. If the Contractor's representative fails to be present as aforesaid, the samples or cores, etc. as are taken by the Engineer or his representatives shall be considered to be authentic. The Contractor will however be informed of the details of such samples having been taken.
- 8.3 The materials, mixes and the cores shall be tested day to day and periodically at the laboratory and the results given thereby shall be considered correct and authentic by the Contractor. The Contractor shall be given access to all operations and tests that may be carried out as aforesaid so that he may satisfy himself regarding the procedure and method adopted. It shall then be the Contractor's responsibility to produce the works, materials and finished item to the standards based on the laboratory design and tests.
- 8.4 The methods of sampling, testing, procedures and standards shall be laid down by the Engineer from time to time.
- 8.5 The quality and quantity of material shall be the responsibility of the Contractor, irrespective of the test results being good.
9. Arrangement of water and electric power, etc. required by the Contractor for the work shall be made by him at his own cost. Engineer will, however, recommend to the concerned State Electricity Utilities for providing the connection and power to the Contractor, however, the Engineer will bear no responsibility in this respect.
- 9.1 Contractor shall not be allowed to start the work till Engineer is satisfied with the proper arrangement of good quality water for execution of work including curing for 28 days. For this, the Contractor shall have to construct water storage tanks of sufficient capacity. No extra payment shall be made on this account. Any delay in execution of work due to non-availability of sufficient water will be responsibility of the Contractor. In case water is used from Government source, the contractor has to pay 0.5% of the cost of the part of such work for which the water is used.
- 9.2 The Contractor shall not set fire to any standing jungle, trees, 'bush' wood or grass without a written permission from the Engineer.
- 9.3 When such permission is given and also in all cases when destroying of dug trees, bush wood, grass, etc. by fire the Contractor shall take necessary measures to prevent such fire spreading to or otherwise damaging surrounding property.
- 9.4 Any damage caused by the spreading of such fire, whether in or beyond limits of the Engineer's property shall be made good by the Contractor within a period specified by the Engineer or in default the amount of the damage shall be recovered by the Engineer from the Contractor's bill as damages or deducted by any other duly authorized officer from any sums that may be due or become due from the Employer to the Contractor under the Contract or otherwise.

- 9.5 The Contractor shall bear the expenses of defending any action of law proceedings that may be brought by any person by injury sustained owing to neglect of precautions to prevent the spread of fire and shall pay any damage, and cost that may be awarded in consequence.
10. The Engineer may order the Contractor to suspend any work that may be subject to damage by climatic conditions and no claim of the Contractor will be entertained by the Engineer on this account.
11. A site order book shall be kept on the site of the work. As far as possible, all orders, regarding the work are to be entered in this Book. All entries therein shall be signed by the Engineer or his authorized representative and the Contractor or his authorized representative. In important cases, the Engineer will countersign the entries which have been made. The site order book shall not be removed from the work site except with the written permission of the Engineer and the Contractor or his representative shall be bound to take note of all instructions and directions meant for the Contractor as entered in the site order book without having to be called on separately to note them. The authorized representative of the Engineer shall submit periodically copies of the remarks in the site order book to the Engineer for record and to the Contractor for submitting compliance report.
12. The Contractor shall confirm to the regulations, safety precautions, bye-laws or any other statutory rules made by any local authority or by the Government and shall protect and indemnify the Engineer against any claims or liability arising from or based on the violations of any such laws, ordinance, regulations, orders and decrees, etc.
13. The Contractor shall make his own arrangement for supply of all materials including cement and steel. The Contractor shall be responsible for all transportation and storage of the materials at site and shall bear all the related costs. The Engineer shall be entitled, at any time, to inspect or examine all such materials. The Contractor shall provide reasonable assistance for inspection or examination as may be required.
- 13.1 The Contractor shall keep an accurate record for use of materials like cement and steel used in the works in a manner prescribed by the Engineer.
- 13.2 Large stock of cement shall not be kept at the work site but only sufficient quantities shall be kept to ensure continuity of the work. The Contractor shall provide and maintain efficient water proof storage sheds for cement on the site of work. It shall be stacked on the platform 30 cm above the floor level and shall be covered with tarpaulin or any other impervious covering material in order to protect the cement bags from moisture. The cement shall be neatly stacked in an orderly manner so as to allow an easy access and count. The arrangement of storage and utilization shall be such as to ensure the utilization of cement in order of its arrival at the stores and the Contractor shall maintain satisfactory records which would at any time show the date of receipt and proposed utilization of cement lying in the stores at site.
14. The Contractor shall also construct and equip at his cost a working office with electricity and water arrangement for his site Engineer.
15. The contractor shall also provide instruments for setting up field laboratory at his own cost to site Engineer. No separate payment shall be made for this.
16. The Engineer shall have the right to deduct from the money due to Contractor any sum required or estimated to be required for making good the loss suffered by a worker or workers by reason of non-fulfillment of the condition of Contract for the benefit of the workers vis-à-vis the Haryana Government, the Contractor shall be primarily liable for all payments to be made under

and for the observance of the rules, regulations and labour law without prejudice to his right to claim indemnity from his sub-Contractor.

17. Third Party Inspection - The Engineer-in-Charge may opt for 3rd party inspection other than department in addition to inspection by department staff, the 3rd party would inspect to ensure execution of work as per specification/ agreement and also quality control i.e. draw of samples, testing and other items etc. The report of the same would be submitted to Engineer-in-Charge by the 3rd party. The agency/ contractor shall be bound by the report of 3rd party inspection and shall take remedial measures for execution of work as per specifications in agreement at their own cost. The cost of 3rd party inspection will be borne by the employer.

18. The Contractor shall confirm to the regulations, safety precautions, bye-laws or any other statutory rules made by any local authority or by the Government and shall protect and indemnify the Engineer against any claims or liability arising from or based on the violations of any such laws, ordinance, regulations, orders and decrees, etc.

19. The Contractor shall make his own arrangement for supply of all materials including cement and steel. The Contractor shall be responsible for all transportation and storage of the materials at site and shall bear all the related costs. The Engineer shall be entitled, at any time, to inspect or examine all such materials. The Contractor shall provide reasonable assistance for inspection or examination as may be required.

19.1 The Contractor shall keep an accurate record for use of materials like cement and steel used in the works in a manner prescribed by the Engineer.

19.2 Large stock of cement shall not be kept at the work site but only sufficient quantities shall be kept to ensure continuity of the work. The Contractor shall provide and maintain efficient water proof storage sheds for cement on the site of work. It shall be stacked on the platform 30 cm above the floor level and shall be covered with tarpaulin or any other impervious covering material in order to protect the cement bags from moisture. The cement shall be neatly stacked in an orderly manner so as to allow an easy access and count. The arrangement of storage and utilization shall be such as to ensure the utilization of cement in order of its arrival at the stores and the Contractor shall maintain satisfactory records which would at any time show the date of receipt and proposed utilization of cement lying in the stores at site.

20. The Engineer may order the Contractor to suspend any work that may be subject to damage by climatic conditions and no claim of the Contractor will be entertained by the Engineer on this account.

21. Cement contents - Actual cement required for the aggregates in concrete to be used shall be determined by laboratory test while designing the concrete mixes. If the cement contents of the design mix of that grade come less than the provision of cement contents provided in the Haryana Scheduled of Rates, (with latest amendments) due to durability conditions, the cement contents as provided in the Haryana Schedule of Rates shall be used and no extra payment on this account shall be made to the contractor. No extra amount over and above the minimum cement content as provided in the Haryana Schedule of Rates shall be paid.

22. Mandatory Use of “Call Before You Dig (CBuD)” Mobile Application

It shall be mandatory for the contractor to register and utilize the “Call Before You Dig (CBuD)” Mobile Application for all works involving excavation, trenching, or road cutting. The CBuD platform shall be used to notify all concerned stakeholders, including Public Works Department, Local Bodies, Telecom Operators, and other utility owners, prior to commencement of such

activities, so as to safeguard underground utility assets. The contractor shall ensure compliance with the provisions of the Right of Way (RoW) Rules 2024, notified under the Telecommunication Act 2023, which require prior intimation to telecom asset owners and compensation for any damage caused to underground utility infrastructure. Any non-compliance with this requirement shall be treated as a breach of contract, and the contractor shall be solely responsible for all liabilities, damages, and penalties arising therefrom.

Special conditions of contract as per the requirement of the work.

 - iii. The record entry of the work done has been taken in the small measurement book (SMB) at

- Page No. ____ dated ____.
- iv. No penalty is leviable on the contractor on any account as per the contract if leviable the amount of penalty is ____.
 - v. Copy of protocol and certificate for stage payment, if required.
4. Certificate from labour welfare officer / factory manager stating that contractor has complied with all labour laws and safety clearance certificate from safety officer. In case of non-availability of labour welfare officer / safety officer from EIC.

Note Documentation attached along with the contractor bill should be referred in the forwarding letter of the executive office forwarded the bill for pass and payment.

• **FORCE MAJEURE: -**

The delay in completion of work may be treated as force majeure to the contractor only if: -

1. The delay is resulted from any causes arising out of compliance with regulations, orders or instructions of the Central or State Governments, acts of God, acts of Civil & Military authority, fires, floods, strikes, lock-outs, freight embargoes, war risk riots and civil commotion.
 2. The contractor's request for extension of the delivery period along with all necessary evidence comes, before the expiry of the schedule date(s) of delivery.
- **IDLE LABOUR CHARGES: -**

No idle labour charges will be admissible in the event of any stoppage caused in the work resulting in contractor's labour being rendered idle due to any cause.

• **OVER RUN CHARGES: -**

No overrun charges shall be paid in the event of the completion period being extended for any reasons.

• **WATCH & WARD: -**

The watch and ward of T&P and other material will be the responsibility of the contractor.

• **STATUTORY DEDUCTIONS: -**

Statutory deduction on account of Income Tax etc. including surcharge shall be made at source from the bills of the contractor at the prevailing rates.

• **FACTORY ACT/MINIMUM WAGES ACT/INSURANCE ACT/ EPF ACT ETC.:-**

Strict adherence of various applicable laws like the Factories Act, Minimum Wages Act, ESI Act, Payment of Wages Act, the workman's Compensation Act, EPF Act, Contractor labour (Regulation & Abolition) Act, 1970 and all other statutory requirements as amended from time to time the entire satisfaction of Central/State Govt. Authorities, shall be the responsibility of the Contractor and he shall have to make good loss, if any, suffered by HPGCL on account of default in this regard by the contractor. EPF/ESI contributions will be deposited by the contractor in his own EPF/ESI code no. in the respective account of the workers. The contractor will submit the copy of EPF/ESI challan to the Labour Welfare Officer, at the time of payment along with corresponding list of workers.

The contractor shall make the payment of wages to its labour/worker in their bank account only. Documentary evidence thereof shall be submitted along with the running bills.

• **INSURANCE OF WORKERS:-**

The contractor will be solely responsible for any liability for his workers in respect of any accident, injury arising out and in course of contractor's employment. To meet his aforesaid obligation under the workmen Compensation Act, The contractor may obtain W.C. Policy from the Insurance Company for the persons employed by him for carrying out the work. The premium payable for the aforesaid Insurance Policy shall be borne by the contractor. The contractor shall ensure that the said Insurance Policy of this insurance cover is required to be submitted by the contractor to Engineer-in-charge of work immediately after issue of LOI, but before the start of work.

• **SAFETY RULES: -**

A firm shall have to comply with all the provisions of safety rules. The chief Safety officer may impose penalty of Rs. 200/- per day per head if the workers of contractor are found to be working carelessly without

proper protective equipment's in unsafe conditions. Against violation of any other clause, a penalty of Rs 500/- per violation (minimum) shall be levied.

In case of repeated violation of serious nature resulting in various serious accident or direct loss to the corporation/ threatens to cause severe consequences, higher penalty rates may be imposed including suspension/termination of the contract. If any action is initiated by Chief Inspector of Factories, Chandigarh or any other authority against occupier/factory manager or any other authority of HPGCL in case of any fatal/non-fatal accident or any other violation of factory act, 1948, Pb. Hr. Factory rules, 1952 or any other industrial or labour act, the contractor shall be liable for the same and also to deposit the amount of fine/penalty if any. In case of default action as deem fit shall be initiated against the contractor. This office reserves the right to claim adequate compensation from the contractor on account of any damage caused to the plant & equipment handed over to him for execution of the work, due to careless handling or negligence on the part of the contractor.

- **ARBITRATION**

All matters, questions, disputes, differences and/ or claims arising out of and/ or concerning and/or in connection and/or relating to this contract whether or not obligations of either or both the Parties under this contract be subsisting at the time of such dispute and whether or not this contract has been terminated or purported to be terminated or completed, shall be referred to the Sole Arbitrator to be appointed by the mutual consent from the panel of Arbitrators provided by HPGCL. The firm may give consent on anyone from the panel. In case no consensus is arrived at between the parties the aggrieved party can approach the competent court of law for appointment of Sole Arbitrator. The award of Arbitrator shall be final and binding on the parties to this Contract. Subject to aforementioned provisions, the provisions of Arbitration & Conciliation Act, 1996 as amended from time to time and rules made thereunder for the time being in force, shall apply to the Arbitration proceedings under the Clause.

It has been agreed between both the parties that the fee of the Arbitrator shall be governed by Arbitration and Conciliation Act, 1996 as amended.

- **LAWS GOVERNING CONTRACTS: -**

All contracts shall be governed by the laws of India for the time being in force. Irrespective of the place of delivery, place of performance or place of payment under the contract, the contract shall be deemed to have been made at the place from which the acceptance of tender has been issued. The courts of the place from where the acceptance of tender has been issued shall alone have exclusive jurisdiction to decide any dispute arising out of or in respect of the contract.

- **SHORT CLOSURE OF THE CONTRACT**

The contract may be short closed at any time during the period of contract by HPGCL without assigning any reason by giving a notice of one month, for which no compensation shall be payable to the contractor.

- **SET OFF**

Any sum of money due and payable to the supplier under the contract (including security-deposit returnable to the supplier) may be appropriated by the HPGCL and set-off against any claim of the Corporation for the payment of a sum of money arising out of under that or any other contract.

- **Undertaking for Compliance of labour laws:-**

"Firm has to certify itself for its eligibility with supporting documents to participate in the NIT stating that it is not under any default towards compliances under any of the labour laws presently, however in case at a later stage such certification found wrong then it will lead to misrepresentation of the facts and the firm shall be treated as blacklisted on this ground and action shall be taken as per regulation 36 & 37 of the HPGCL Works & Purchase Regulations, 2015."

1. The penalty shall be levy to contractor for non- timely payment of wages, deposit of EPF, ESI etc.
2. Security only be released after issue of the final labour Law Clearance Certificate by the Labour Welfare Officer as well as submission of latest documents i.e. returns challans by the contractor towards EPF, ESI etc.
3. Salary/wages slips & EPF statements be issued by the contractor on monthly basis for the manpower deployed against respective contracts.

SPECIAL INSTRUCTIONS:-

1. Any emergent job have to be attended without loss of time so, one responsible representative of the contractor should always be available at site to take the instructions and to supervise the work.
2. The contractor shall have to make his own arrangement for the material required for the execution of work.
3. Emergent jobs are to be executed even during the odd hours and nothing extra shall be payable on this account.
4. The provisions made above are without prejudice to the right of the Corporation to take action against the contractor under the conditions of the contract for not doing the work according to the prescribed specification.
5. If the contractor fails to start/take-up/complete the work & continues to give the poor progress & poor quality of work, HPGCL shall be entitled to get the work done departmentally or from any other agency at the risk & cost of the contractor after serving a notice of 3 days to the contractor without prejudice to other provision of the contract.
6. Accommodation can be provided in PTPS Colony on chargeable basis, on the request of the firm as per rules & regulation of HAC, PTPS, Panipat.
7. Electricity will be supplied free of cost at site of work at one point.
8. The firm will follow the environmental laws as applicable from time to time.
9. All materials to be arranged by the contractor, no material issued by the department.
10. The contractor shall from time to time remove all rubbish resulting from the execution of his work. Adjacent streets drive ways and other areas shall be kept unobstructed at all times. The resulting rubbish shall be dumped in the areas indicated by the Engineer-in-Charge or removed by the Contractor as per instructions that may be issued by the Engineer-in-Charge. In case contractor does not keep the area clean and if found necessary to get the area cleaned, the Engineer-in-Charge will issue a notice of 48 hours and get the area cleaned by some other agency. The cost of such cleaning shall, however, be borne by the contractor. In case of rubbish accumulating due to deposition by more than one contractor, the share of charges to be borne by the contractor as indicated by the Engineer-in-Charge shall be final.
11. The contractor will be responsible for getting the gate passes of worker issued from competent authority and will surrender these gate passes on completion of work.
12. Proper safety precaution to be adopted as work to be executed in highly sensitive area.
13. Payment will be made on the basis of actual executed work / quantity of material consumed at site.
14. The work is to be carried out as per the scope of work and satisfaction of E.I.C.
15. During the execution of work at site, if any damage to the structure/ equipment takes place, the same will be got rectified / repaired by the contractor free of cost.
16. All PPE's (lifelines, safety helmet, shoes, goggles & harness etc.) required for the job is to be provided by contractor.
17. Capability test shall be carried out exactly as per CTI standard – ACT -105. The Lead Engineer conducting the performance testing shall be approved by the Cooling Technology Institute (CTI), USA or shall have experience of similar work in NTPC, BHEL or any other PSU/Private Thermal Plant having capacity of 210 MW or more.
18. Necessary scaffolding at hot water risers where tapping for measurement of water flow is available, is to be arranged by the firm.
19. High-accuracy test instrumentation, calibrated by approved sources complying with NABL standards / ISO/IEC 17025 shall be provided by the agency. All instrumentation will be examined and calibrated by qualified technicians, prior to shipment. Pre-test calibrations shall be provided over narrow ranges for temperature and pressure instrumentation, for the expected ranges for the project, to minimize the device systematic uncertainty associated with the calibration.
20. Hot Water Temperature – Typically measured using a high accuracy resistive thermal detector (RTD) in a flowing well located on a riser drain, if available, or pitot tap, if available.
21. Cold Water Temperature – Typically measured using a high accuracy RTD in a flowing well located at the discharge side of each operating circulating water pump. This location allows for good mixing of the cold water and is corrected to remove heat added by the action of the pump. Alternately, a temperature grid could be installed in the basin discharge flume. Other locations can be discussed if needed.
22. Negotiation of rates of the bidders will be done as per instructions prevailing in HPGCL from time to time.

Contract Data to General Conditions of Contract

Sr. No.	Description		Clause No.
1.	The Employer is Designation: Address:	Chief Engineer/PTPS HPGCL, Panipat PTPS, HPGCL, Panipat	[Cl.1.1]
2.	Name of authorized Representative	Executive Engineer/CMDP-I	[Cl.1.1]
3.	The Engineer is Designation: Address:	Executive Engineer/CMDP-I Executive Engineer/CMDP-I PTPS, HPGCL, Panipat	[Cl.1.1]
4.	The Intended Completion Date for the whole of the Works is 2 Months after start of work.	2 Months	[Cl.1.1, 17&27]
5.	The Site is located	PTPS, Panipat	[Cl.1.1]
6.	The Start Date shall be 10 days after the date of issue of the Notice to Proceed with the work		[Cl.1.1]
7.	Section completion		[Cl. 2.2]
8.	The following documents also form part of the Contract :		[Cl.2.3 (11,12)]
9.	Joint Ventures	Allowed	[Cl.3.1,4.4]
10.	Sub Contracting	AS PER CBD	[Cl. 7.1]
11.	The Schedule (if any) of Other Contractors is attached	AS PER CBD	[Cl. 8.1]
12.	The Technical Personnel for work and operation of lab are:		[Cl. 9.2]

Sr. No.	Personnel	Qualification	No. of personals
1	Project Manager		-
2	Site Engineer		-
3	Plant Manager		-
4	Quantity Surveyor		-
5	Soil and Material Engineer		-
Total:			-

Note:-

In case, the above qualified personnel are not deployed the following deduction shall be made per month from the payment due to the contractor.

Project Manager	=	Rs. 150000/- per month
Site Engineer	=	Rs. 75000/- per month
Plant Manager	=	Rs. 50000/- per month
Quantity Surveyor	=	Rs. 40000/- per month
Soil and Material Engineer	=	Rs. 40000/- per month

The Employer reserves the right to employ any or all the above personal as per requirement given above irrespective of above deductions made from the payments due to the contractor.

11.	Amount and deductible for insurance are:	
(i)	Insurance cover for work is equal to the contract price and the amount of deductible is 1% of the contract price	[Cl. 13.1 (a)]
(ii)	Minimum insurance cover for injury and death is Rs.10.00 lacs per occurrence with the number of occurrences limited to four. After each occurrence, contractor will pay additional premium necessary to make insurance valid for four occurrences always. The amount of deductible is Rs. 2.00 Lacs of the contract price.	[Cl. 13.1 (b)]
(iii)	Minimum insurance cover for damage to the property of the third party is Rs. 20.00 Lacs. The amount of deductible is Rs. 2.00 Lacs of the contract price.	[Cl. 13.1 (c)]
(iv)	Insurance cover for work is equal to the contract price and the amount of deductible is 1% of the contract price	[Cl. 13.3 (a)]
12.	Site investigation report	[Cl.14.1]
13.	DELETED	[Cl. 25]
14.	a. The period for submission of the programme for approval of Engineer shall be days from the issue of Letter of Acceptance	[Cl.26.1]
	b. The updated programme shall be submitted at interval of days	[Cl. 26.4]
	c. The amount to be withheld for late submission of an updated programme shall be 2% of the initial / revised contract price or the enhanced contract price as applicable.	[Cl. 26.4]

15. The following events shall also be Compensation Events: [Cl. 44.2 I]

Substantially adverse ground conditions encountered during the course of execution of work not provided for in the bidding document.

- (i) Removal of underground utilities detected subsequently
- (ii) Significant change in classification of soil requiring additional mobilization by the contractor, e.g. ordinary soil to rock excavation,
- (iii) Removal of unsuitable material like marsh, debris dumps, etc not caused by the contractor
- (iv) Artesian conditions
- (v) Seepage, erosion, landslide
- (vi) River training requiring protection of permanent work
- (vii) Presence of historical, archeological or religious structures, monuments interfering with the works.
- (viii) Restriction of access to ground imposed by civil, judicial, or military authority.

15 a. The formula for price adjustment of prices are: [Cl. 47.1]

15 (a) (i) Adjustment of price for bitumen:

Price adjustment for increase or decrease in the cost of bitumen shall be paid as follows:

That the rate of bitumen/ emulsion at the refinery on the date of close for financial bidding shall be considered as base rate if during execution of the works, the rate of bitumen/ emulsion increase or decrease at refinery, the difference in cost shall be paid/ recouped from the contractor in the bill, subject to the following conditions:-

- (A) The contractor shall submit original bill/ voucher of the refinery while claiming the payment for the work done. The bill/ voucher should pertain to the period of original contractual time limit and should correspond with the progress of work. No extra payment due to increase in rate of bitumen / emulsion will be paid if the original bill/ voucher are not submitted by the agency.
- (B) No increase in prices of the bitumen / emulsion shall be reimbursed to the contractor beyond the original time period allowed for construction as per contract agreement irrespective of extension of time limit granted to the agency for any reason, whatsoever. However, decrease in price of bitumen/emulsion shall be recouped from the contractor even beyond the original time period allowed for construction.
- (C) After approval of tender, the contractor shall submit the work programme for execution of work and get it approved from the Engineer-in-Charge in the time limit prescribed in the tender document. The increase in rates of bitumen, emulsion shall only be paid if the bitumen work is carried out within the prescribed period as per approved work programme.
- (D) Only actual difference of rates of Bitumen will be payable / deductible to the contractor. No overhead charges and contractor profit etc. are to be added / deleted, no tender premium is to be added / deleted.”

- (E) The contractor can arrange the bitumen from any of the refinery subject to the condition that the quality of bitumen is as per the requirement of contract and specifications. Regarding payment of price variation of bitumen as per the agreement, that the escalation de-escalation will be paid on the basis of lesser cost implication to Department / Government on consideration of the difference in rates as given below subject to financial regularity and other terms and conditions of agreement :-
- (a) Prevailing rates of IOC refineries at Panipat at the time of tender and at the time of purchase of bitumen.
- (b) Prevailing rates at the source from which the bitumen is purchased by the contractual agency at the time of tender.

It is further clarified that:-

- (a) When recovery is due on account of decrease in rates of bitumen, higher of the difference in rates of IOC Panipat and that of private refinery / Sector, shall be considered.
- (b) When escalation is due to increase in rates of bitumen is due to agency, then lesser of the difference in rates of IOC Panipat and that of private refinery / Sector, from whom bitumen was purchased, shall be considered.

15 (a) (ii) Adjustment for Grey Cement (OPC/PPC) and, Steel for reinforcement and structural members (index for MS Long Products) :

Price adjustment for increase or decrease in the cost of Grey Cement (OPC/PPC) and, Steel for reinforcement and structural members (index for MS Long Products) shall be paid as follows:

- (A) If after submission of the, the price of Grey Cement (OPC/PPC) or Steel for reinforcement and structural members (index for MS Long Products) incorporated in the works (not being a material supplied from the Engineer-in-Charge's Store) increase (s) beyond the price (s) prevailing at the time of the last stipulated date for financial bid closing of tenders (including extensions, if any) for the work, then the amount of the contract shall accordingly be varied and provided further that any such increase shall not be payable if such increase has become operative after the stipulated date of completion of work in question.
- (B) If after submission of the, the price of Grey Cement (OPC/PPC) / or Steel for reinforcement and structural members (index for MS Long Products) incorporated in the works (not being a material supplied from the Engineer-in-Charge's Store) is decreased, Govt. shall in respect of these materials incorporated in the works (not being materials supplied from the Engineer-in-Charge's Stores) be entitled to deduct from the dues of the contractor such amount as shall be equivalent to the difference between the prices of Cement (OPC/PPC) as prevailed at the time of last stipulated date for receipt of tenders including extensions if any for the work and the prices of these materials on the coming into force of such base price of Cement (OPC/PPC) and issued under authority of Engineer-in-Chief, Haryana PWD B&R, Chandigarh.

- (C) It is further clarified that the decrease in the prices of of Grey Cement (OPC/PPC) / or Steel for reinforcement and structural members (index for MS Long Products) and shall be deducted from the dues of the contractor if such decrease has become operative after the stipulated date of completion of work in question and increase shall not be payable if such increase shall not be payable if such increase has become operative after the stipulated date of completion of work in question.
- (D) The increase/ decrease in prices shall be determined by the All India Wholesale Prices Indices for Grey Cement (OPC/PPC) / or Steel for reinforcement and structural members (index for MS Long Products) as published by the Economic Advisor to Government of India, Ministry of Commerce and Industry) and base price for Grey Cement (OPC/PPC) / or Steel for reinforcement and structural members (index for MS Long Products) as mentioned in the Bid Document or if not mentioned then as issued under authority of Engineer-in-Chief, Haryana PWD B&R, Br. Chandigarh as valid on the last stipulated date of receipt of tender, including extension if any and for the period under consideration.

Adjustment Calculation Formula for Grey Cement

The amount of the contract shall accordingly be adjusted for Cement (OPC/PPC) will be worked out as per the formula given below:-

Adjustment for component of “Grey Cement (OPC/PPC)”

$$V_c = P_c \times Q_c \times \frac{CI - C_{10}}{C_{10}}$$

Where,

V_c = Variation in Cement (OPC/PPC) cost i.e. increase or decrease in the amount in rupees to be paid or recovered.

P_c = Base price of Cement (OPC/PPC) as mentioned in the Bid Document or if not mentioned then as issued under authority of Engineer-in- Chief, Haryana PWD B&R, Br. Chandigarh valid at the time of the last stipulated of receipt of tender including extension if any.

Q_c = Quantity of Cement (OPC/PPC) used in the works since previous bill.

CI = All India wholesale price index for Cement (OPC/PPC) as published by the Economic Advisor to Government of India, Ministry of Industry and Commerce as valid on the last stipulated date of receipt of tenders including extensions if any.

C_1 = All India wholesale price index for Cement (OPC/PPC) for period consideration as published by the Economic Advisor to Government of India, Ministry of Industry and Commerce

Adjustment Calculation Formula for Steel for reinforcement and structural members (index for MS Long Products)

$$V_s = P_s \times Q_s \times \frac{SI - S_{10}}{S_{10}}$$

V_s = Variation in cost of Steel (MS Long Products) i.e. increase or decrease in the amount in rupees in the amount in rupees to be paid or recovered.

Ps = Base price of Steel (MS Long Products), as mentioned in the Bid Document or if not mentioned then as issued under authority of Engineer-in-Chief, Haryana PWD B&R Br., Chandigarh at the time of the last stipulated date of receipt of tender including extensions, if any.

Qs= Quantity of Steel (MS Long Products) paid either by way of secured advance or used in the works since previous bill (Whichever is earlier).

S1o= All India wholesale Price Index for Steel (MS Long Products) for the period under consideration as published by Economic Advisor to Government of India, Ministry of Industry and Commerce as valid on the last stipulated date of receipt of tenders including extensions, if any.

S1= All India Wholesale Price Index for Steel (MS Long Products) for the period under consideration as published by Economic Advisor to Government of India, Ministry of Industry and Commerce.

Base rate of Cement (OPC/PPC) and Steel (MS Long Products)

Grey- Cement (OPC/PPC) : Rs. 4940 /- per MT excluding taxes.

Steel (MS Long Products) : Rs. 50000 /- per MT excluding Taxes.

No other increase/decrease in prices is permissible.

15 (a) (iii) Adjustment of POL (fuel and lubricant) component

Price adjustment for increase or decrease in the cost of POL (fuel and lubricant) shall be paid in accordance with the followings formula:

$$V_f = 0.85 \times P_f / 100 \times R_x (F_1 - F_0) / F_0$$

V_f = increase or decrease in the cost of work during the month under consideration due to changes in rates for fuel and lubricants.

F₀ = The all India wholesale price index for 'Fuel and Power' for the calendar month 28 days preceding the date of opening of bids as published by the Office of Economic Advisor, Government of India, Ministry of Commerce and Industry, Department of Industrial Policy and Promotion with website www.eaindustry.nic.in

F₁ = The all India average wholesale price index for 'Fuel and Power' for the month under consideration as published by Office of Economic Advisor, Government of India, Ministry of Commerce and Industry, Department of Industrial Policy and Promotion with website as www.eaindustry.nic.in

$$P_f = 5.$$

R = Value of work executed during the period.

16. The proportion of payments retained (Retention Money) shall be 6% from each bill subject to a maximum of 5% of final contract price.

[CI.48]

17. (a) Milestones to be achieved during the contract period.

<u>Financial works to be completed</u>	<u>Period from the start date</u>	[Cl. 49.1]
Milestone 1 i.e. 20%	25% of the stipulated time	
Milestone 2 i.e. 50%	50% of the stipulated time	
Milestone 3 i.e. 75%	75% of the stipulated time	
Milestone 4 i.e. 100%	100% of the stipulated time	
(b) Amount of liquidated damages for delay in completion of works	<u>For whole of work</u> (1/2000)th of the initial / revised Contract Price, rounded off to the nearest thousand, per day. <u>For non achievement of milestone,</u> (1/2000)th of the initial / revised Contract Price, rounded off to the nearest thousand, per day.	
(c) Maximum limit of liquidated damages for completion of work	10 (Ten) per cent of the contract price rounded off to nearest thousand.	

18.	The amounts of the advance payment are:		[CL:50]
	Nature of Advance	Amount	Conditions to be fulfilled
I	Mobilization	Maximum 5 % of the contract price	An interest bearing mobilization advance upto the extent of 5% of contract value (or such limit as prescribed) may be given to contractors for works costing more than Rs.2.00 crores, against unconditional and irrecoverable bank guarantees to be furnished by the contractor equal to the amount of advances paid from time to time. Interest @Marginal Cost of Funds based Lending (MCLR) of SBI prevalent at the time of tender per annum shall be charged on mobilization advance given to the contractor The recovery of the mobilization advance together with interest shall be done through percentage deductions from interim/running payments, in the manner prescribed in the contract. It shall be desirable to recover the total amount of mobilization advance alongwith interest within 80 % of the time stipulated for completion. The mobilization bank guarantee shall be released after the recovery of full mobilization advance, including interest thereon. In case, of slow progress of work, the 'Engineer' comes to a conclusion that the total amount of mobilization advance with interest cannot be recovered by the time 80% of stipulated time is over, the bank guarantee(s) furnished by the contractor may be encashed. If the tender document so provides, the contractor will have the option to furnish mobilization bank guarantee in parts and on recovering of $\frac{1}{4}$, $\frac{1}{2}$, $\frac{3}{4}$ and full advance, proportional bank guarantees can be released.

II	Secured advance for non-perishable materials brought to site	75% of Invoice value	In case the contractor requires an advance on the non-perishable materials brought to site, 'Engineer' may, on written request from the contractor, sanction the advance upto an amount 75% or as decided by the 'Engineer' of the value (as assessed by themselves) as stated in the Contract Data of such materials, provided such materials are to be consumed within next three months and that a formal agreement is drawn up with the contractors under which Govt. secures a lien on the materials and is safeguarded against losses due to the contractor postponing the execution of the work or misuse of the material and against the expense entailed for their proper watch and safe custody. If the material is fire prone or can be destroyed fully/partially on storage, it shall be desirable to have it first insured by the contractor. Cases in which a contractor, whose contract is for finished work, requires an advance on the security of materials brought to site. Any secured advance should be settled / recovered within 3 months of its release. Note : Such advance will not be given for sand, aggregate, GSB and stone metal etc. The contractor will submit the original bills and e-way bills for the material for which secured advance is being claimed.
----	--	----------------------	--

III	Machinery Advance	Maximum 5 % of the contract price	For works costing more than Rs.10.00 crores another interest bearing machinery advance to a maximum of 5% of the contract price, depending on merits of the case, can be given against the new key construction equipment brought to the site and to be deployed on the work, if a written request is made by the contractor. The advance shall be paid only upon the contractor furnishing (i) an affidavit that the machinery in question is free of any charge or hypothecation with any bank or financial institution: (ii) unconditional and irrecoverable bank guarantee(s) (iii) satisfactory proof of purchase/payment of the machinery, and (iv) a written undertaking that the equipment so purchased by him is required for use on the work in question, is fully serviceable shall work only on that job and shall not be removed from the site without obtaining written approval of the 'Engineer's. The recovery of machinery advance and the Interest @Marginal Cost of Funds based Lending (MCLR) of SBI prevalent at the time of tender per annum shall be charged. against the machinery advance given to the contractor. The recovery of the machinery advance together with interest shall be done through percentage deductions from interim/running payments, in the manner prescribed in the contract. It shall be desirable to recover the total amount of machinery advance alongwith interest within 80% of the time stipulated for completion. The mobilization bank guarantee shall be released after the recovery of full machinery advance, including interest thereon.
	The bank guarantee shall be unconditional, requiring the bank to pay the beneficiary the sum specified in the guarantee on the first demand and without demur, and without reference to the party on whose behalf it has been issued, notwithstanding any dispute or disagreement that might have arisen between the employer and the contractor. The form of bank guarantee shall be prescribed by the departments. It shall be the duty of the 'Engineer' to obtain independent confirmation about the genuineness of the bank guarantees directly from the bank issuing them. Further, he shall keep them in safe custody and hand them over to his successor when a change of charge takes place. Details of bank guarantees shall be entered into a register which shall be reviewed every month to ensure timely action in respect of renewal of any guarantee, if required, before it expires.		

	(The advance payment will be paid to the Contractor no later than 28 days after fulfillment of the above conditions)
	Always provided that the advance shall be completely repaid prior to the expiry of the original time for completion pursuant to clauses 17.
	The secured advance shall be repaid from each succeeding monthly payments to the extent material [for which advance was previously paid pursuant to Clause 51.4 of G.C.C.] have been incorporated into the Works.

19. The period for setting up a field laboratory with the prescribed equipment is **28** days from the date of notice to start work [Cl.31.1]
20. **The Defect Liability-cum-Maintenance Period is Days from the date of completion.** [Cl. 56]
21. The date by which “as-built” drawings (in scale as directed) in 2 sets are required is within 28 days of issue of certificate of completion of whole or section of the work, as the case may be. [Cl.58.2]
22. The amount to be withheld for failing to supply “as-built” drawings by the date required is **Rs. 0.5% of agreement amount.** [Cl.58.2]
23. The following events shall also be fundamental breach of Contract: [Cl.59.2 (h)]
 - (i) The Contractor has contravened Clause 7.1 or Clause 9 of Part I General Conditions of Contract
 - (ii)
24. The percentage to apply to the value of the work not completed representing the Employer’s additional cost for completing the Works shall be 20 (Twenty) percent. [Cl.60.1(i)]

TECHANICAL CONDITION for EI work

1. The recovery of the pipe already laid will be made on measurement rate basis or point rate basis or on actual expenditure basis which ever is on high side. In case of Departmental work, 10% supervision charges shall also be added.
2. Conduit pipe where already laid for wiring purpose will be delivered to the contractor in absolutely clean condition with round inspection boxes duly painted, covered and whole system tested. After the conduit system is handed over to the contractor to whom the work is allotted, he will be responsible for its upkeep.
3. During execution of work, if the contractor does not lay pipe and its accessories in the slab within time prescribed by the Engineer-in-Charge of the work, the Deptt. can then lay the said pipe-departmentally at contractors risk and cost without operating the clause 2 and 3 of the contract agreement.
4. Separate conduit pipe for power plug with independent circuit wires shall be laid.
5. Multi plugs shall be provided in all the buildings.
6. C-Series MCB will be provided for air conditioner wiring and no extra payment will be made and only one make of MCB's will be used in whole work.
7. Vertical type of MCB distribution boards will be provided wherever required as per design.
8. The contractor is also allowed to use MCBs duly ISI marked of more then 9 KA breaking capacity for which no extra payment will be made.
9. The make of enclosure will be same as that of MCB of standard size having thickness 1.6 mm and 1.2 mm in case of TPN and SPN enclosure respectively.
10. All MCCBs upto 220 Amp will have 25 KA minimum breaking capacity and above 220 amp. MCCBs will have 50 KA minimum breaking capacity. All MCCBs will have magnetic thermal release and rotary operating mechanism duly interlocked and only one make of MCCBs shall be used in whole work. No extra payment on this account shall be made.
11. The thickness of M.S. Sheet of switch boxes should be of 16 gauges for which no extra payment will be made.
12. The fan boxes sheet should be 16 gauge and anodized for which no extra payment will be made.
13. The contractor shall install the material from the list of approved electrical material appended in the NIT. Material not covered in the list will be used as per HSR-2021, and PWD Specifications-1990.
14. The contractor must ensure preparation and submission of pipe diagram, wiring diagram, key diagram etc. as required vide PWD Specifications.
15. Where ISI recommends multi stranded conductor of cable, cable with multi-stranded conductor only will be used on work.

16. Rates should be quoted by the tenderer both in word and in figure, in case of any difference between the two, the lowest of the same shall be considered as final rate.
17. The rates of bus bar includes the cost of all Labour and material required to complete the job in all respect including thimbles etc. of the same material as that of bars. The support for bars will be made of porcelain. No extra payment in this regard will be given.
18. The tenderer must either be 'A' Class Electrical Contractor enlisted with Haryana PW(B&R) Deptt. or he must sublet the electrical work to a sub contractor possessing the above qualification. The Sub contracting will be done with the written approval of Superintending Engineer, Elect. Circle PW(B&R) Deptt., concerned or Executive Engineer, Elect. Divn. PW(B&R) Deptt. (concerned division) as per competency.
19. All the street light fittings, bulbs and cables will be got inspected by the contractor at the works/Go down of the manufacturer before installation at site. A certificate will also be produced/ submitted by the contractor about the authenticity of purchase of above material from the authorized source.
20. Only ISI make (I.S.2036-1995) white Bakelite sheet will be used without any extra cost.
21. The rates mentioned in the NIT are for complete item including cost of all accessories, material, labour, tool plants, water electricity bills etc. Unless otherwise specified. No extra payment for the same shall be made.
22. The minimum size of MS control switch boards for controlling one fan point and one light point shall not be less than 20cm x 25cm x 10cm.
23. The MS box for telephone, Intercom and Bell push shall be installed of size 100mm x 100mm x 60mm in place of 75mm x 75mm x 60mm.
24. The tender having ambiguous/confusing rates and conditions shall be summarily rejected.
25. The quantity/amount of NIT can be increased or decreased.
26. No Road cut charges shall be paid.
27. The contractor shall install two number check nuts and one No. PVC threaded Bush for each pipe in MS inspection boxes. The contractor shall also install PVC flanged bush in the junction boxes for each pipe. No extra payment on this account will be made. The contractor shall quote the rates accordingly.

L.T. panel: -

General: - This distribution board shall be fabricated out of 14 gauge sheet steel cubical type suitable for floor mounting end or dead front type. Suitable rubber gaskets shall be provided between all opening and joint to make the distribution board dust, moisture and vermin proof. The distribution board shall be suitable for indoor location and shall consist of the bus bar chambers both vertically and horizontally and the cable entry for the distribution shall be from bottom. Distribution board will consist of a number of vertical sections. Each vertical section shall be divided in to a few standard sizes of the compartment. The equipment for the various incoming and out going feeders shall be housed in a separate compartment. Each compartment door of distribution board shall be provided with inter locking arrangement with the handle of the respective switches/ MCCB such that the door can not be opened unless the switches are in the off position. Vertical cable entry shall be provided on each section of the distribution board for cabling purpose. Continues bus bar of copper shall be provided at the bottom along the entire

length, cable compartment with concealed hinged front door will be fully segregated from the main horizontal/ vertical bus bar of equipment module. The distribution board shall be painted with a suitable enameled shade after necessary primary treatment. The distribution board shall be suitable for operation on 415 volts 3 phase 50 cycles per second A.C. supply system.

Bus Bar: - The high conductivity copper bus bar provided in the chambers shall be duly tinned and insulated and rigidly supported at the short intervals by strong 12mm thick non inflammable hylam partitions. The partitions shall be so designed so as to with stand the stress, which can normally occur on short circuits. Further, The bus bars and links shall be of flat copper dully tinned so that the contact between bus bars shall be easily accessible from front for any connections and inspection etc.

The bus bars chamber should have of strong metal having no possibility of any dents, due to accidents and damage, which could result into electrical fault. Bus bars chamber shall be of unit type construction and have standard flanges opening at the top and bottom on both side so that any modification, extension can be easily effected at the site.

Test Certificate: - A test certificate from the manufacturer shall be handed over to the department before installation of the panel specifying that the panel conform to relevant ISS/ PWD specifications.

Wiring Diagram: - After completion of the work complete diagram showing connections to the various equipment on the board is to be prepared by the contractor and to be submitted to the department along with final bill of the work. In case contractor fails to supply the diagram amount @ 0.5% of the work executed shall be deducted from the contractor's final bill.

Connection: - Inter connections from bus bar chamber to the different molded case circuit breaker / air circuit breaker should be through solid copper bars of the required capacity duly tinned and insulated for which no extra payment will be made.

ADDITIONAL CONDITIONS (E.I.)

1. A tenderer shall be deemed to have full knowledge of the relevant documents, samples, site etc. whether he inspects them not.
2. The department reserves the right to withdraw any item or any portion of the work while allotting the work / approving the tender case or during execution of work.
3. The rates mentioned in the NIT are for complete items including cost of all accessories, materials, labour, tools plants and water electricity bill etc. Unless otherwise specified.
4. In case of any error or omission in the description rates and unit etc. of HSR items it will be applicable as mentioned in the schedule of rate 2021 corrected up to date except mentioned as above. Further in case of any confusion or imperfection of the HSR item the confidential detailed analysis of HSR shall be applicable and still there is any dispute in this regard the decision of Superintending Engineer Electrical Circle PWD B&R concerned shall be final.
5. The jurisdiction of the court will be the District Court of concerned district head quarter.
6. The recovery of the pipe already laid will be made on measurement rate basis or point rate basis or on actual expenditure basis which ever is on high side. In case of Departmental work, 10% supervision charges shall also be added.
7. Conduit pipe where already laid for wiring purpose will be delivered to the contractor in absolutely clean condition with round inspection boxes duly painted, covered and

whole system tested. After the conduit system is handed over to the contractor to whom the work is allotted, he will be responsible for its upkeep.

8. During execution of work, if the contractor does not lay pipe and its accessories in the slab within time prescribed by the Engineer-in-Chief of the work, the Deptt. can then get the said pipe laid departmentally/other sources at contractors risk and cost without operating the clause 2 and 3 of the contract agreement. Recovery of such work executed departmentally/other source shall be made at market rate+10%.
9. Separate conduit pipe for power plug with independent circuit wires shall be laid.
10. Multi plug socket shall be provided for light & power plugs.
11. Call bell shall be dingdong/music only as per site requirement.
12. C-Series MCB will be provided for air conditioner / motor wiring without any extra cost.
13. MCB's shall be of minimum 9 KA breaking capacity.
14. The make of enclosure will be same as that of MCB of standard size having thickness 1.6 mm and 1.2 mm in case of TPN and SPN enclosure respectively.
15. All MCCB's up to 220 Amp. will have 25KA minimum breaking capacity and above 220amp. MCCB's will have 50 KA minimum breaking capacity. All MCCB's will have magnetic thermal release and rotary operating mechanism duly interlocked and only one make of MCCBs shall be used in whole work. No extra payment on this account shall be made.
16. The thickness of M.S. Sheet of switch boxes/ fan boxes should of minimum 1.6 mm.
17. The contractor shall install the material from the list of approved electrical material appended in the NIT. Material not covered in the list will be used as approved by Engineer-in-charge of site.
18. The contractor must ensure preparation and submission of pipe diagram, wiring diagram, key diagram etc. as required vide PWD Specifications.
19. PVC insulated Stranded / multi strand wire shall be allowed to be used. Similarly where ISI recommends multi stranded conductor of cable, cable with multi-stranded conductor only will be used on work. PVC insulated PVC sheathed under ground cable as per IS: 1554 Part-I is to be used. However the firm shall be allowed to used XLPE insulated PVC sheathed cable as per IS: 7098 Part-I. No extra payment on this account shall be made. The contractor should quote the rate accordingly.
20. The rates of bus bar include the cost of all Labour and material required to complete the job in all respect including thimbles etc. of the same material as that of bars. The support for bars will be made of porcelain.
21. The tenderer must either be 'A' Class Electrical Contractor enlisted with Haryana PWD B&R or he must sublet the electrical work to a sub contractor possessing the above qualification. The Sub contracting will be done with the written approval of Executive Engineer, Elect. Divn. PWD B&R Br. (concerned division) for value

upto 25 lacs. For work more than Rs. 25 Lacs Superintending Engineer Elect. Circle PWD B&R Br., concerned shall be competent authority.

22. The Electrical part of bill of quantity of the agreement will be got executed by and under the supervision of Executive Engineer, Elect. Divn. PWD B&R Br., (concerned division) and all the running payment of electrical works will be made by him. However copy of final bill will be sent to Executive Engineer (Civil) to include in the final bill. The over all technical supervision of electrical work shall be of Superintending Engineer Elect. Circle PWD B&R Br., concerned and any technical instructions given by him will have to be adhered to strictly by the contractor.
23. If desired by Engineer-in-charge, the electrical material will be got inspected by the contractor at the works / Go down of the manufacturer / dealer before installation at site. A certificate will also be produced/ submitted by the contractor about the authenticity of purchase of above material from the authorized source.
24. ISI make (I.S.2036-1995) white Bakelite sheet 3mm thick will be used on the work. The contractor should quote rates accordingly.
25. The rates mentioned in the NIT are for complete item including cost of all accessories, material, labour, tool plants, water electricity bills etc., unless otherwise specified.
26. The minimum size of MS control switch boards for controlling one fan point and one light point shall not be less than 20cm x 25cm x 10cm.
27. The contractor shall install two number check nuts and one No. PVC threaded Bush for each pipe in MS inspection boxes. The contractor shall also install PVC flanged bush in the junction boxes for each pipe.
28. If the agency does not fill / quote the rate of any item then it will be considered as nil and same item will be executed by the agency free of cost. The agency will have to give an undertaking on account of above otherwise earnest money will be forfeited. In addition to this Engineer-in-Charge of work may also black list the agency.
29. The department can withdraw any item from the contract agreement of the agency and gets it executed from other sources.
30. In case of rewiring & special repair work the old dismantled material if any will be handed over to the department by the contractor and the receipt obtained will be submitted along with first bill.
31. The MS box for telephone, TV, intercom and bell push shall be installed of size 100mm x 100mm x 60mm.
32. In case of over head line, minimum distance of street light poles from the over head line must be maintained as per Indian Electricity rule direction. Shut down to the over head line from electricity department should be taken before doing the work under such over head lines. Work in the campus where over head line is existing should be carried out in the presence of SDE / ASDE / JE. The contractor will be fully responsible for any damage / loss due to laps on this account.
33. Only experience of Central Govt. / State Govt. Department will be considered for this work.

34. The date of warranty will be start on the date of installation of the transformer, Panel and allied equipments for this work
35. Minor civil repair including but not limited to chiseling plaster, paint will be in the scope of firm / contractor.
36. The bidder will offer inspection at the place of manufacturing. The bidder will bear the cost of travelling (to and fro). Boarding on lodging of atleast two officers/ officials.
37. These conditions shall supersede the similar conditions found contrary elsewhere in the DNIT.
38. It will be mandatory for contractor to get the complete installation cleared / approved from CEI Haryana after completion. The inspection fee will be deposited by the firm metering equipment will also be got cleared for DHBVNL by the contractor including depositing necessary feed etc.
39. Firm/ contractor will offer inspection of all major materials at manufacturer place and will bear the to and fro including boarding & loading expenses for atleast two person.
40. A tenderer shall be deemed to have full knowledge of the relevant documents, samples, site etc. whether he inspects them not.
41. The department reserves the right to withdraw any item or any portion of the work while allotting the work / approving the tender case or during execution of work.
42. The rates mentioned in the NIT are for complete items including cost of all accessories, materials, labour, tools plants and water electricity bill etc. Unless otherwise specified.
43. In case of any error or omission in the description rates and unit etc. of HSR items it will be applicable as mentioned in the schedule of rate 2021 corrected up to date except mentioned as above. Further in case of any confusion or imperfection of the HSR item the confidential detailed analysis of HSR shall be applicable and still there is any dispute in this regard the decision of Superintending Engineer Electrical Circle PWD B&R concerned shall be final.
44. The jurisdiction of the court will be the District Court of concerned district head quarter.
45. The recovery of the pipe already laid will be made on measurement rate basis or point rate basis or on actual expenditure basis which ever is on high side. In case of Departmental work, 10% supervision charges shall also be added.
46. Conduit pipe where already laid for wiring purpose will be delivered to the contractor in absolutely clean condition with round inspection boxes duly painted, covered and whole system tested. After the conduit system is handed over to the contractor to whom the work is allotted, he will be responsible for its upkeep.
47. During execution of work, if the contractor does not lay pipe and its accessories in the slab within time prescribed by the Engineer-in-Chief of the work, the Deptt. can then get the said pipe laid departmentally/other sources at contractors risk and cost

without operating the clause 2 and 3 of the contract agreement. Recovery of such work executed departmentally/other source shall be made at market rate+10%.

48. Separate conduit pipe for power plug with independent circuit wires shall be laid.
49. Multi plug socket shall be provided for light & power plugs.
50. Call bell shall be dingdong/music only as per site requirement.
51. C-Series MCB will be provided for air conditioner / motor wiring without any extra cost.
52. MCB's shall be of minimum 9 KA breaking capacity.
53. The make of enclosure will be same as that of MCB of standard size having thickness 1.6 mm and 1.2 mm in case of TPN and SPN enclosure respectively.
54. All MCCB's up to 220 Amp. will have 25KA minimum breaking capacity and above 220amp. MCCB's will have 50 KA minimum breaking capacity. All MCCB's will have magnetic thermal release and rotary operating mechanism duly interlocked and only one make of MCCBs shall be used in whole work. No extra payment on this account shall be made.
55. The thickness of M.S. Sheet of switch boxes/ fan boxes should of minimum 1.6 mm.
56. The contractor shall install the material from the list of approved electrical material appended in the NIT. Material not covered in the list will be used as approved by Engineer-in-charge of site.
57. The contractor must ensure preparation and submission of pipe diagram, wiring diagram, key diagram etc. as required vide PWD Specifications.
58. PVC insulated Stranded / multi strand wire shall be allowed to be used. Similarly where ISI recommends multi stranded conductor of cable, cable with multi-stranded conductor only will be used on work. PVC insulated PVC sheathed under ground cable as per IS: 1554 Part-I is to be used. However the firm shall be allowed to used XLPE insulated PVC sheathed cable as per IS: 7098 Part-I. No extra payment on this account shall be made. The contractor should quote the rate accordingly.
59. The rates of bus bar include the cost of all Labour and material required to complete the job in all respect including thimbles etc. of the same material as that of bars. The support for bars will be made of porcelain.
60. The tenderer must either be 'A' Class Electrical Contractor enlisted with Haryana PWD B&R or he must sublet the electrical work to a sub contractor possessing the above qualification. The Sub contracting will be done with the written approval of Executive Engineer, Elect. Divn. PWD B&R Br. (concerned division) for value upto 25 lacs. For work more than Rs. 25 Lacs Superintending Engineer Elect. Circle PWD B&R Br., concerned shall be competent authority.
61. The Electrical part of bill of quantity of the agreement will be got executed by and under the supervision of Executive Engineer, Elect. Divn. PWD B&R Br., (concerned division) and all the running payment of electrical works will be made

by him. However copy of final bill will be sent to Executive Engineer (Civil) to include in the final bill. The over all technical supervision of electrical work shall be of Superintending Engineer Elect. Circle PWD B&R Br., concerned and any technical instructions given by him will have to be adhered to strictly by the contractor.

62. If desired by Engineer-in-charge, the electrical material will be got inspected by the contractor at the works / Go down of the manufacturer / dealer before installation at site. A certificate will also be produced/ submitted by the contractor about the authenticity of purchase of above material from the authorized source.
63. ISI make (I.S.2036-1995) white Bakelite sheet 3mm thick will be used on the work. The contractor should quote rates accordingly.
64. The rates mentioned in the NIT are for complete item including cost of all accessories, material, labour, tool plants, water electricity bills etc., unless otherwise specified.
65. The minimum size of MS control switch boards for controlling one fan point and one light point shall not be less than 20cm x 25cm x 10cm.
66. The contractor shall install two number check nuts and one No. PVC threaded Bush for each pipe in MS inspection boxes. The contractor shall also install PVC flanged bush in the junction boxes for each pipe.
67. If the agency does not fill / quote the rate of any item then it will be considered as nil and same item will be executed by the agency free of cost. The agency will have to give an undertaking on account of above otherwise earnest money will be forfeited. In addition to this Engineer-in-Charge of work may also black list the agency.
68. The department can withdraw any item from the contract agreement of the agency and gets it executed from other sources.
69. In case of rewiring & special repair work the old dismantled material if any will be handed over to the department by the contractor and the receipt obtained will be submitted along with first bill.
70. The MS box for telephone, TV, intercom and bell push shall be installed of size 100mm x 100mm x 60mm.
71. In case of over head line, minimum distance of street light poles from the over head line must be maintained as per Indian Electricity rule direction. Shut down to the over head line from electricity department should be taken before doing the work under such over head lines. Work in the campus where over head line is existing should be carried out in the presence of SDE / ASDE / JE. The contractor will be fully responsible for any damage / loss due to laps on this account.
72. Only experience of Central Govt. / State Govt. Department will be considered for this work.
73. The date of warranty will be start on the date of installation of the transformer, Panel and allied equipments for this work
74. Minor civil repair including but not limited to chiseling plaster, paint will be in the scope of firm / contractor.

75. The bidder will offer inspection at the place of manufacturing. The bidder will bear the cost of travelling (to and fro). Boarding on lodging of atleast two officers/ officials.
76. These conditions shall supersede the similar conditions found contrary elsewhere in the DNIT.
77. It will be mandatory for contractor to get the complete installation cleared / approved from CEI Haryana after completion. The inspection fee will be deposited by the firm metering equipment will also be got cleared for DHBVNL by the contractor including depositing necessary fee etc.
78. Firm/ contractor will offer inspection of all major materials at manufacturer place and will bear the to and fro including boarding & loading expenses for atleast two persons.

TECHNICAL SPECIFICATION OF LIFTS

ALARM BELL

1. A battery operated emergency alarm bell with rechargeable cells and recharger including wiring shall be provided and connected to a clearly marked push button in the car operating panel. Alarm bell shall be located outside at the ground floor landing.

RAILING

2. Suitable size of railing shall be provided on the car top for safety.

PAINTING

3. All exposed elevator material shall be properly painted to the entire satisfaction of Engineer-in-charge.

COUNTER WEIGHT SCREEN

4. Proper counter weight screen shall be provided at the hoist way pit.
5. Fire resistant traveling cable shall be used as per relevant ISI specifications.

HOISTWAY DOOR INTERLOCKS

6. Each hoist way door shall be provided with approved interlocks which will protect the movement of car away from the landing unless all doors are closed and locked. The interlocks shall also prevent opening of the door except at the landing where the car is stopping or has stopped.

SAFETY GEARS

7. The car movement shall be controlled through Governor including speed in descending and free fall, limiting the speed to safe limits as per relevant I.S.I.

HANDICAP COMPATIBILITY

8. All Lift of capacity 13 passenger or more than 13 persons shall be handicapped compatibility and necessary provisions shall be made accordingly.

9. Enlistment as contractor in the department for original manufacturer of elevators is not required
10. Erasing and over Writings are not permissible. All amendments, corrections and insertions must be signed by the firms
11. Rates should be quoted for complete LIFT with ARD and AMC separately in words and in figures. In case there is any difference in rates between words and figures, the lower of the two will be taken as correct.
12. The tender shall remain valid upto 120 days from the date of opening of quotation. With the issuing of acceptance/ allotment letter to the contractor within this period, the contract agreement will stand concluded even without signing of contract agreement and in case the contractor fails to commence the work, his earnest money will stand forfeited and action under clause 45 of A & B of the contract agreement will also be taken in addition to the forfeiture of earnest money. In case the contractor withdraws or amends his offer within this period i.e. 120 days or before the issue of acceptance/allotment letter, his earnest money will only stand forfeited. The contractor will also be liable to be debarred/ blacklisted in both the cases.
13. Only Manufacturer of lift as mentioned in BOQ are allowed to bid for the work.
14. Firms are advised to visit the site sufficiently in advance of the date fixed for submission of the quotation. The firms shall be deemed to have full knowledge of all the relevant documents, samples, sites etc. whether they inspect them or not.

DATE OF COMPLETION

15. Certified date of completion will be accepted after 30 days uninterrupted trouble free trail run of lift after commissioning. This trail run period is excluded from the contractual period

ACCOMMODATION

16. Necessary lockable accommodation for storing of lift material shall be provided by the department. The contractor shall however, be responsible for watch and ward of material brought at site against damage and theft and losses due to any reason including natural calamities.
17. No living accommodation for the elevator staff shall be provided by the department.

LIFE OF LIFT.

18. The lifts are deemed to have life span of 20 years. Under no circumstances, the lifts will be declared obsolete during the above period by the firm. The firm shall be bound to keep/maintain sufficient inventory of Parts/Assemblies required for maintaining the lifts for 20 years' life.
- 20) The work shall conform to IS- 1860 –1980/ or latest, IS: 4666-1980 and all other relevant IS (BIS) specifications mutatis mutandis.
- 21 The reference floor for call collection and start of lift, in case of any fault shall be the nearest/same floor where the lift will stop after operation of ARD. offer should be inclusive of this arrangement and no extra payment will be made for this.
- 22) For wiring purposes ISI mark heavy gauge welded MS conduit/GI/aluminum troughing /flexible pipe shall be used.

SAFETY

- 23 Under no circumstances the lift shall operate when the car door or landing door is in open position. If lift will be found in operation without proper barricading when the door of either landing or car is open, it will be treated as serious negligence on the part of firm and firm shall be held responsible for all direct damages arising there from.

SCOPE OF WORK TO BE DONE BY DEPTT.

- 24 (a) To provide proper hoist way along with pit in plumb with permissible variation of + 100mm, (-) 50mm, without any projection

inside the hoist way, duly plastered and white washed.

(b) To provide light with bulb & 5amp plug point in the middle of each landing level inside hoist way.

(c) To provide adequate size machine room with hoisting beam / hook, doors and windows of proper size, ventilation, duly plastered and white washed.

(d) To provide sufficient light , power socket & exhaust fan in machine room.

(e) To provide trap door of desired size (exact dimensions to be supplied by the contractor) with 5mm thick MS plate cover fixed in angle iron frame.

(f) To provide permanently fixed 3 phase and single phase supply terminated through main switches / MCCBs, along with double earthing in machine room. Electricity shall be provided by the department on payment basis for erection purpose and free of cost for testing and commissioning

(g) To provide proper access to machine room. If steel step ladder will be provided then it will have proper hand rail on both sides.

SCOPE OF WORK TO BE DONE BY CONTRACTOR

25 (a) To provide doorsills, doorframes, machine beams, bearing plates, buffer support channels, fascia plates.

(b) To provide scaffolding.

(c) To provide all cut pockets / rope holes and grout bolts to fix rails, brackets.

(d) To do all minor building work comprising cutting and repair thereof.

(e) To adjust doorsills.

(f) To furnish drawings showing general arrangements of the elevator equipment for approval from Engineer-in-Charge before the work is begun.

(g) To provide temporary barricading with caution boards at each landing to prevent accident during execution and maintenance of work.

(h) To provide steel ladder for access to lift pit.

(i) To do all necessary work to support machines in machine room including RCC pedestal if required.

AMBIENT TEMPERATURE

26. The lift should work satisfactorily without requiring /necessitating cooling system for control panel, motor or any system or part thereof on ambient temperature upto 55 degree centigrade.

COST COMPARISON OF TENDER.

27 For cost comparison of quotation, maintenance charges shall be added to the cost of original work as per formula: Total cost of quotation = Cost of original work + AMC charges quoted in quotation x No. of years of AMC.

PAYMENT

28 The firm shall not be entitled for any payments on account of work done by them till he signs the agreement.

29 30 % advance against bank guarantee of equal cost, 50% supply of material, 10 % on completion & balance 10% on commissioning

FINANCIAL & TAXES

30. Earnest money in the shape of bank guarantee valid for one year will also be acceptable.

31 10% (Ten Percent) security shall be deducted from each bill of the firm subject to maximum 5% (inclusive of earnest money already deposited) of the agreement amount. The security/performance guarantee in shape of bank guarantee valid for 18 months shall also be acceptable which shall be deposited in full before the first payment & will be refunded after completion of free maintenance period.

- 32 Income Tax / Sales tax /works contract tax/ labour cess /service tax / GST at source as and if applicable will be deducted on the amount of the work done from all running and final bills .Necessary TDS certificate will be issued by the department.
- 33 The rates shall be inclusive of all charges at the time of quoting however variation due to increase/decrease in rates of statutory duties, taxes etc. and any new levies during execution of original/maintenance work, as per the contract agreement shall be to the account of the department.
- 34 IEEMA price variation is not acceptable within the original time limit. If the delay is on account of department IEEMA will be payable for such period only. If the delay in completion is on the part of firm, no IEEMA price variation shall be payable.
- 35 In case of force major circumstances, time extension will be granted on proof of the same but no IEEMA price variation will be payable.
- 36 The agencies shall submit separate rates for lifts with vandal proof and Moon Rock/Honey Comb Scratch resistant stainless steel. Stainless steel to be used shall be decided by the department.

JURISDICTION OF COURT

- 37 Jurisdiction of court will be at concerned district head quarter.

INSPECTION

- 36) Manufacturer test certificate should be given by the contractor for Motors, Ropes, control panels and other assemblies. It will be certified by the firm that all the equipment supplied is tested and it conforms to relevant standards and specifications provided in contract agreement. Contractor shall get the lifts inspected from Chief Electrical Inspectorate/Nodal agency for inspection of lifts. The required inspection charges shall be paid by the firm and reimbursed to the firm by the department on proof of payment.

FREE MAINTENANCE

- 37 After 30 (thirty) days uninterrupted and trouble free operation maintenance Service for equipment furnished under the specifications shall be provided free of cost for labor, material and spare parts for a period of 12 (Twelve) months. The free service shall include examination of the installation during regular working hours by trained employees and shall include all necessary adjustments, greasing, oiling, cleaning, setting right of defects including replacement of defective parts with genuine standard parts as required to keep the equipment in proper operation.
- 38 During the free maintenance period lift will have to be maintained and inspected regularly at least once in a month and as and when called by Engineer-in-Charge or his representative due to fault / breakdown without any charges.
- 39 There shall not be delay of more than 24 (Twenty four) hours in removal of minor break down /defect and four days including day of complaint and holidays for the major break down /defect reported in station where quotationer has lift service organization. At other place it shall not be more than 48 (Forty eight) hours and 6 (six) days inclusive of holidays respectively. In case firm do not attend to above complaint and rectifies defects within above specified period then, free maintenance period will be extended by 2 (Two) times the delayed period beyond the prescribed period .

GUARANTEE

- 40 The elevator contractor shall guarantee that the material and workmanship of the

Apparatus installed by him under these specifications are new and of first quality in every respect and for that he will make good any defect for the period for 12 (Twelve) months plus extended period of free maintenance from the date of completion of 30 (thirty) days trouble free operation .

COMPENSATION FOR DELAY

41. 0.5% of incomplete portion of work per week, maximize 5 % of the contract value.

NOTICE / RESCINATION OF AGREEMENT:-

42. In any case in which under clause or clauses of this contract the contractor has rendered himself liable to pay compensation amounting to the whole of his security deposit (whether paid in one sum or deducted by installments. The Executive Engineer on behalf of Govt. Of Haryana shall have power to adopt any following course s he may deem best suited to the interest of Govt.
- (a) To rescind the contract of which recession notice in writing to the contractor under the hand of Executive Engineer shall be conclusive evidence & in which case the security deposit of the contractor shall stand forfeited & be absolutely at the disposal of Govt.
- (b) To measure the work of the contractor, & to take such part there of as shall be unexpected out of his hands & to give it to another contractor to complete in which case any expenses which may be incurred in excess of the sum which would have been paid to the original contractor of the whole work had been executed by him (of the amount of such excess, the certificate in writing of the Executive Engineer shall be final & conclusive shall be borne & paid by the original contractor & may be deducted from any money due to him by Govt. under the contract or otherwise or from his security deposit.

In the event of any above courses being adopted by the Executive Engineer, the Contractor shall have no claim to compensation for any loss sustained by him by reason of his having purchased or produced any material or entered into any engagement or made any advances on account of or with a view to the execution of the work for the performance of contract. And in case of the contract shall be rescind under the provision aforesaid, the contractor shall not be entitled to recover or be paid any sum for any work there to for actually performed under the contract, unless & until the Executive Engineer will have certified in writing the performance of such work & the payable in respect thereof & he shall only be entitled to be paid the value so certified.

43. Agreement amount will stand automatically enhanced if there is any increase due to applicability of IEEMA clause or any other statutory variation in taxes and duties levied after the date of quotation subject to the condition that this enhanced amount does not require revision of detailed estimate/administrative approval. For any other excess proper enhancement will be sought from the competent authority as per usual practice/rules.
44. The agencies shall submit their tender of lifts with the specifications/conditions given in the quotation document only. They will not give their own specifications/conditions separately in general. If there is any deviation in specifications/conditions from those given above then only those particular specifications/conditions shall be given in the first envelop meant for technical bids.
45. **TRAVEL:** - Travel of lift will be measured as per IS 3534-1976 or latest i.e from floor level of 1st landing to floor level of last landing.
46. Before quoting the rates the bidder should visit the site and ensure that the lift well is as per the size/ specifications given in the tender documents. In case

the lift well is under construction, it will be liability of bidder to timely check the same.

47. The lower of quoted AMC rates and standard AMC rates as mentioned in DNIT will be payable to L-1 bidder.

IEEMA PRICE VARIATION CLAUSE FOR ELEVATOR WORKS CONTRACTS

The price quoted/confirmed is based on the cost of raw materials/components and labour cost as on the date of quotations and the same is deemed to be related to wholesale price index number for metal products and all India average consumer price index number for industrial workers as specified below. In case of any variation in these index numbers, the price shall be subject to adjustment up or down in accordance with the following formula:-

$$P = \frac{P_o}{100} \left[15 + 55 \frac{MP}{MP_o} + 15 \frac{W_o}{W_o} (D) + 15 \frac{W_o}{W_o} (D) \right]$$

P = Price payable as adjusted in accordance with the above price variation formula.

P_o = Price quoted/confirmed.

M_{po} = Whole sale price index number for metal products as published by the office of “the Economic Advisor, Ministry of Industry, Government of India, in their weekly bulleting, Revised Index Number of wholesale prices for the week ending first Saturday of the relevant calendar month.

W_o = All India Consumer price index number for industrial workers as published by Labour Bureau, Ministry of Labour, Government of India for the relevant calendar month.

The above index numbers M_{po} & W_o are those published by Government of India as prevailing on the first working day of the calendar month FOUR months prior to the date of tendering e.g. when offer is submitted in June 1998 then the applicable indices M_{po} will be as prevailing of the 1st Saturday of February 1998 and W_o would be that for the month of February 1998.

MP = Whole sale price index number for metal products as published by the office of “the Economic advisor, Ministry of Industry, Government of India, in their weekly bulletin revised index number of wholesale prices. The applicable whole sale price index number for metal products as the 1st Saturday of month covering the date FOUR months prior to the date of delivery.

W_o(D) = All India average consumer price index number for industrial workers as published by Labour Bureau, Ministry of Labour, Government of India. The applicable all India. Average consumer price index number for Industrial workers prevailing for the month covering the data FOUR months prior to the date of delivery of manufactured material and would be as published by Govt. of India.

PRICE VARIATION CLAUSE FOR COMPREHENSIVE MAINTENANCE CONTRACTS FOR ELEVATORS/ESCLATORS

The price of comprehensive maintenance contractors for elevators/escalators is to be revised at the end of one year period on the basis of the following variation formula :-

$$P = \frac{P_o}{100} \left[15 + \frac{50W}{W_o} + 25 \frac{MP}{MP_o} + 10 \frac{FP}{FP_o} \right]$$

Wherein:

- P= Revised price payable in accordance with the above formula.
- Po = Previous year's confirmed price for the maintenance contract.
- W = All India average consumer price index number for industrial workers, as published by the Labour Bureau, Ministry of Labour, Govt. of India.
This index number is as applicable for the month, six months prior to the date of commencement of previous year's contract.
- MPo= The final wholesale price index number for metal products as published by the office of the Economic advisor, Ministry of Industry, Govt. of India.
This index number is as applicable on the 1st Saturday of the month, six months prior to the date of commencement of previous year's contract.
- FPO= The final wholesale price index number for fuel, power, light and lubricants as published by the office of the Economic Advisor, Ministry of Industry, Govt. of India.
This index number is as applicable on the 1st Saturday of the month, six months prior to the date of commencement of previous year's contract.
- W= All India average consumer price index number for Industrial workers is as published by the Labour Bureau, Ministry of Labour, Govt. of India.
This index number is as applicable for the month, six months prior to the date of commencement of the revised contract.
- MP= The final wholesale price index number for metal products as published by the office of the Economic Advisor, Ministry of Industry, Govt. of India.
This index number is as applicable on the 1st Saturday of the month, six months prior to the date of commencement of previous year's contract.
- FP= The final wholesale price index number for fuel, power, light and lubricants as published by the office of the Economic Advisor, Ministry of Industry, Govt. of India.
This index number is as applicable on the 1st Saturday of the month, six months prior to the date of commencement of previous year's contract.

ADDITIONAL CONDITIONS FOR MTC. CONTRACT.

1. *AMC means AMC after completion of free maintenance period specified in the agreement.*
2. *The work will be carried out as per relevant IS: Specifications and other general codes and practices.*
3. *Sales Tax / Income Tax/ labour cess /GST /Service tax as and if applicable will be deducted from all bills. However, certificate for TDS will be issued by the department.*
4. *The jurisdictions of court shall be at district head quarter concerned of work.*
5. *After expiry of free maintenance period, AMC shall come into force. AMC charges for first year will be calculated on updated value of original work contract agreement after including up to date IEEMA price variation. The maintenance charges will be increased/ decreased every year on the basis of IEEMA Price variation clause. The first maintenance period will be from expiry of free maintenance period to the end of financial year i.e. 31st March Subsequently the maintenance charge shall be fixed on 1st April every year and will remain current throughout the financial year without any variation. However any statutory variation / new imposition of taxes and duties will be to the account of the department*
6. *The firm will maintain a reasonable inventory of genuine spares parts in their service depot, so that faults in the lifts do not remain unattended for want of spares. During the free maintenance period lift will have to be maintained and inspected. Regularly at least once in a month and as and when called by Engineer-in- Chief Charge or his representative, due to fault/breakdown without*

- a charges.
7. *This maintenance contract includes replacement of all minor and major parts/assemblies including their cost and cost of all other material/consumable and tools etc. and labour required to maintain these lifts in proper working order. The maintenance of the following items will also be included in the contract.*
 8. *Denting /Painting of Car enclosure panels, Car doors, Landing doors, Handrails. Replacement of Light diffuser, Bulbs, Tubes, Mirrors, Floor covering carpets, external wiring to elevator, hoist way and machine room, other Architectural features & replacement of batteries for alarm, Emergency light, ARD, Intercom,*
 9. *The firm shall remove the breakdown during or after working hours and even on holidays on receipt of information at the firm control station from the authorized representatives of PW (B&R) Department or the client department in whose premises the lifts are working. The firm will intimate the complaint number to the complainant at the time of reporting the breakdown. Machine room key shall be made available to authorized technician of the firm on arrival at site. The breakdown rectification report shall be signed by the department for record of issue of spares and keeping time record of the firms service personnel. The firm personnel will also sign the log book of respective lift in token of attending the complains & removal of defects and other observations recorded by department officers /officials to complete satisfaction.*
 10. *The firm shall set right the lift in working condition within 24 (Twenty-four) hours for the minor defects and within 4(four) days including day of complaint for the major breakdown after receipt of the complaint at their center, if service center of the firm exists at that station and within 48(Forty-Eight) hours and 6 (six) days for minor and major breakdown respectively, in case service center of the firm does not exist at that station. If the complaint is not attended within the specified period, beside not paying AMC charges for delayed period, compensation of two days AMC charges for every delay of one day or part thereof per lift shall be levied, but the total amount of compensation during a year shall not exceed 10% (Ten Percent) of the annual maintenance charges of relevant year. The Superintending Engineer on representation from the firm may reduce the amount of compensation and his speaking decision in writing shall be final. Even after levying the compensation equivalent to 10 % (Ten percent) of the contract amount if the firm does not attend the complaint, the firm will not be paid AMC for the defaulting period.*
 11. *Any work which may be rendered necessary due to revision of the existing Govt. Municipal or elevator acts promulgated subsequent to the date of installation of elevator or new design/development/modernization work will be covered under maintenance contract. The lift will have to be got inspected for requisite clearance from the Nodal inspecting agency after every specified time fixed by the Nodal agency.*
 12. *The firm shall become liable for compensation in accordance with the Indian law and Regulations in the event of any accident occurring to any person using, intending to use the elevator or otherwise due to the fault in the elevator on account of failure to keep the lifts in proper working order or non compliance of statutory provision for safety measures.*
 13. *The parts if replaced by the firm shall be OEM parts matching with the existing equipment. Defective/removed /unserviceable parts will be the property of the firm.*
 14. *The bill of maintenance charges should be properly prepared and scrutinized by the Chartered Accountant of the firm with the supporting papers of price indices at the time of submission of first maintenance contract bill of financial*

- year.
15. After completion of maintenance contract or termination of contract mid-way due to any reason what-so-ever, the firm will hand over the lift in working order with every parts /assembly intact. In case, if any part / assembly is found missing/defective or of substandard specifications due recovery will be made for such a deficiency and other measures to effect such recovery as deemed fit will be taken against the firm.
 16. The department will have prerogative to discontinue the maintenance contract of any or all the lifts without assigning any reason at any time for any or all the lifts without paying any compensation for such an act. However, a valid one-month notice will be given before taking any such action as mentioned above or maintenance charges will be paid for the period for which notice falls short.
 17. Separate agreement of AMC shall be prepared yearly on agreed rates, terms and conditions on completion of one-year free maintenance period. It shall stand concluded and will become operative from the next day of expiry of free maintenance period even without signing of contract agreement.
 18. 10% (Ten percent) security shall be deducted from each bill of the firm which shall be maximum to 5% of contract value and shall be refunded after completion of AMC period. Or alternatively security can be deposited by the firm in shape of bank guarantee for the required amount and validity.

AMC CHARGES

20. After completion of free maintenance period of one year from the date of completion as above, the firm will be bound to carry out paid comprehensive maintenance i.e. repair and replacement of all installation including consumable items etc. for next ten years for which the firm will quote the rates on BOQ template.
21. The bidder will arrange the necessary safety certificate from Chief Electrical Inspector including insurance and all other formalities. However, department will reimburse the Govt. fee and other charges subsequently.

Payment of this maintenance will be done on half yearly basis after deducting the Statutory taxes.

22. The standard AMC rates are as following: -

(i)	1st year (after one year guarantee period)	@ 4% of capital cost
(ii)	2nd year	@ 4.5% of capital cost
(iii)	3rd year	@ 4.75% of capital cost
(iv)	4th year	@ 5% of capital cost
(v)	5th year	@ 5.5% of capital cost
(vi)	6th year	@ 5.75% of capital cost
(vii)	7th year	@ 6% of capital cost
(viii)	8th year	@ 6.5% of capital cost
(ix)	9th year	@ 6.75% of capital cost
(x)	10th year	@ 7% of capital cost

The lower of above mentioned rates and quoted AMC rates will be paid to L-1 bidder.

These additional conditions shall supersede the similar conditions found contrary elsewhere in DNIT.

TECHNICAL SPECIFICATION FOR MEDICAL GAS PIPE LINE SYSTEM

A MEDICAL OXYGEN SYSTEM

1.0 Liquid tank (Indian)

SCOPE OF SUPPLY

- a) Design, manufacture and supply of vacuum + perlite insulated vertical storage tank (Non-Thermosiphon) as per technical specification and flow scheme enclosed.
- b) Design, fabrication and supply of Low Pressure Atmospheric Vaporizer as per technical specification and GA cum foundation drawing enclosed

DOCUMENTATION FOR STORAGE TANK

Operating and maintenance manual - 1 set along with shipments shall be given.

Quality test certificate - 1 set for Cryogenic pressure vessels shall be submitted along with the shipment. The cryogenic tank Quality certificates shall comprise of:

- a) Approval letter along with approved drawings from CCOE for inner vessel
- b) Certificate from third party inspection Agency for inner vessel
- c) Material Heat chart for inner vessel pressure parts.
- d) Mechanical property test report for production test coupon
- e) History sheet for inner vessel
- f) Material test report for pressure parts (inner vessel)
- g) Name plate photocopy
- h) Certificate of safety valve, pressure gauge, level gauge

DOCUMENTATION FOR VAPORISER

Inspection and test reports - 1 set along with the equipments shall be provided

Operation & Maintenance manual - 1 set along with the equipments shall be provided

INCLUSIVE

- Civil foundation/ foundation bolts, any other civil work within battery limit
- Spares, bursting disc, etc for the equipment.
- Unloading, Erection and Commissioning of Equipment at site
- Interconnecting piping between tank and vaporizer and downstream of vaporizer
- Fencing, gates, fire-fighting equipment etc required on the tank yard layout.
- CCOE license for the use of equipment
- Cold test at our Works/ Site
- Liquefied gases for commissioning of the system

INSPECTION

2.0 Oxygen Manifold (Indian)

The oxygen cylinder manifold should comprise of two cylinder Banks which can accommodate 16 cylinders in each Bank (means 16+16) complete with copper tail pipes with bull nose fittings of RH External threading suitable for cylinder valves conforming to IS 3234 (Oxygen service) and Cylinder support system.

Manifold should be suitable to withstand a pressure of 140 Kg/cm², along with high pressure copper annealed tail pipes with Brass adapter suitable for Oxygen Cylinders and manifold.

Top frame comprising of high pressure copper pipes of size 1/2" I.D. x 14swg with high pressure brass fittings made of high tensile brass and connections through non- return valves.

High pressure copper tail pipes, made of high pressure copper pipe of size 1/4" I.D. x 16 swg.

The middle and bottom frame to be provided to fit both round and flat bottom cylinders safely. The manifold should be tested (hydraulically) at 250kg / cm sq.

The copper tail pipes are fitted to the individual non return valves of the cylinder manifold for easy removal of cylinders without disturbance to system operation.

Each manifold should be provided with one terminal header and a NPT connection for the Automatic control panel.

3.0 Fully Automatic Oxygen Gas Control System – (Imported) as per NFPA -99 Std with latest amendments / HTM -2022/02-01 of UK

Digital / Analog Display Gas Manifold should be fully automatic, self – shifting to reserve bank on exhaustion of the service bank without interruption of gas delivery to the system. A critical connections should be gas specific, non-interchangeable and should be designed to eliminate gas supply error. The manifold control system should supply a flow of 1000 L/ Min at 50 psi. The dual line regulator/single vent Medical Gas Manifold control unit should include right and left header bars and pigtails for the appropriate medical gas. The installed system should automatically switch over to the reserve bank when the primary bank is depleted. When the depleted cylinders are replaced with full cylinders the system should automatically reset itself in preparation for the next bank change. The primary side bank in use and the remaining side bank on reserve. This designation should automatically change from left to right and right to left as each bank is depleted and, in turn, refitted with full gas cylinders.

The LED indicator should show a depleted bank by turning red. A buzzer should also sound to indicate an empty bank. When the system is reset by replacing the depleted cylinders, the indicator should turn green and also silence the buzzer. If the manifold is connected to the health care facility's central alarm system that should also indicate that the bank was depleted and, in turn, was reset. The only manual activity Medical gas Manifold requires is the changing of the depleted cylinders. When a bank is depleted, Manifold should automatically switch to the fresh bank, delivering an uninterrupted gas supply to the health care facility. Changeover is performed by solenoid valves contained in the control cabinet. In the event of an electrical power failure, both

solenoid valves should automatically open to provide an uninterrupted gas flow. Under normal operating conditions, the gas should leave the high pressure cylinders through the pigtails into the header bars.

The pigtails should have on-way Valves (check valves) to allow the replacement of depleted cylinders without gas pressure back-flow into the remaining depleted cylinders on that bank. In the event a safety relief device on an individual cylinder should activate or a pigtail should leak excessively, the local check valve should also prevent loss of gas from the rest of the cylinders on that bank.

The gas should flow through the manually operated shutoff valve into the primary regulator. This regulator should reduce the high cylinder pressure to an intermediate pressure. The intermediate pressure gas flows through the solenoid valve to the line regulator for its final (Line) pressure reduction for use in the health care facility. Two line pressure regulators should be installed in parallel, and each should be capable of maintaining a constant dynamic delivery pressure at the maximum designed flow rate of the system.

The solenoid valve should be the key to the automatic mechanism of the manifold. This component ensures that the flow of gas is not interrupted and the pressure does not fluctuate during normal operation. When the operating bank pressure falls to a predetermined level, which is controlled by the preset pressure switches (for high at 60 PSI and for low at 40PSI), the switches should activate the solenoids to switch to the fresh (reserve) cylinder bank.

The manifold control cabinet should have three means of giving continuous information on the system status: first pressure gauges to indicate the bank pressure and the delivery pressure; second six indicator LEDs, two green that indicate which cylinders are in use, two yellow for Reserve Ready and two red that indicate a bank is now depleted; third, a loud audible buzzer gives an alarm when either or both banks are depleted.

The six indicators should be controlled by sensing the bank pressure. Replacing the depleted cylinders on the empty bank resets the system, changing the indicator from red to yellow. At the same time the yellow LED should change to green to go from Reserve Ready to In Service. LEDs should show red prior to initial pressurization or whenever both cylinder banks are below the present value.

4.0 Emergency Oxygen Manifold (Indian)

The oxygen cylinder manifold should comprise of one cylinder Bank which can accommodate 12 cylinders complete with copper tail pipes with bull nose fittings of RH External threading suitable for cylinder valves conforming to IS 3234 (Oxygen service) and Cylinder support system.

Manifold should be suitable to withstand a pressure of 140 Kg/cm², along with high pressure copper annealed tail pipes with Brass adapter suitable for Oxygen Cylinders and manifold.

Top frame comprising of high pressure copper pipes of size 1/2" I.D. x 14swg with high pressure brass fittings made of high tensile brass and connections through non-return valves.

High pressure copper tail pipes, made of high pressure copper pipe of size 1/4" I.D. x 16 swg.

The middle and bottom frame to be provided to fit both round and flat bottom cylinders safely. The manifold should be tested (hydraulically) at 250kg / cm sq.

The copper tail pipes are fitted to the individual non return valves of the cylinder manifold for easy removal of cylinders without disturbance to system operation.

5.0 Terminal / Gas Outlet with probes– as per NFPA-99 std with latest amendments / HTM - 2022/02-01 of UK (Imported)

Oxygen

Air-4Bar

Air-7Bar

N2O

Vacuum

AGSS/WAGD

Surface mount, non interchangeable, self sealing outlets, outlets should consist of a roughing in assembly and a finishing assembly. A non removable positive- pin keying arrangement for each specific gas service. Installed in the mounting box a fully assembled brass secondary check valve.

Design of outlet should be such that it should have 100% metal construction for corrosion resistance fire safety & push button mechanism for quick release of adaptor. The secondary check valve automatically should form a positive seal to prevent a gas flow when the finishing assembly is removed. The secondary check valve to include 7" (17.78cm) of 1/2" Type K copper tubing with a label affixed which identifies the specific gas by name and colour. A plastic cap inserted at the end of the inlet tube. Rotation of the inlet tube should allow gas connection from the top or bottom. the finishing assembly should consists of a die cast chrome plated cover plate , a machined brass housing for the primary check valve, and a positive –pin keying device to prevent accidental installation into a roughing in assembly of a dismal gas. The finishing assembly incorporates a double seal arrangement which automatically engages when a hose adapter or patient treatment device is removed from the outlet. The design of the outlet should be such that if can be easily repaired without disassembly of the outlet.

The finishing assembly should have a colour coded (specific gas) keying disc to prevent connection of hose adapters or patient treatment device to the wrong gas service. The primary check allows absolutely no gas flow to take place until the keying devices are engaged. It should be manufactured in accordance with all applicable NFPA and CGA standards. The locking device should be in the probe instead of gas outlet.

Matching probe for outlets – Imported as per NFPA-99 / HTM 02-01 UL Listed / CE Marked Matching probes to the gas outlet mentioned above. That is adapter for Gas outlets each adapter should have suitable barb or threads so that it can be connected to tube or flow meter /suction regulator. Adapter should have clear gas service embossed on it.

6.0 Oxygen Flow meter & Humidifier Bottle for critical area – (Imported)European CE Certified with notified body no./UL listed

- The graduated scale should have an oval shape this allows a "lens effect" get the scale values easy-reading in any condition of use.
- I/O switch button green and red allows the operator to quickly lock and reactivate the flowmeter gas supply, keeping unchanged the previous flow preset value.

When the flowmeter is not working, the green button is visible and pushing it, the flow is activated. On the contrary, to stop the flow, the red button must be pushed.

- It should have ADJUSTING KNOB WITH set the flow value you need to deliver to the patient.
- The flowmeter should have an integrated pressure reducer for the stabilization of supplied pressure at 2.8bar, to guarantee always and in any condition the flow accuracy of the device. The flowmeter can be used in any hospital with different pressure from the plants and it is not necessary to calibrate it.
- The outlet nipple should have a double thread interchangeable by the end user.

- The flowmeter should have 50 mm adjusting knob with soft grip inserts for easy handling
- The humidifier should completely made of polycarbonate and it can be sterilized in autoclave at 121 °C for 15 min
- For the inlet connection it should have some snap inserts, identified with color-code, with different threads to be chosen by the end user
- An ergonomic and big size rotating nut allows to easily connect and disconnect the humidifier to the oxygen supply device, the 360° rolling positioning hose connector $\varnothing 6\div 9$ mm allows an easy use of the humidifier.
- The bottle should have hollow shape, besides being a design unique element, offers the operator an easy and safe handling.
- The humidifier should have an integrated relief valve

6a Oxygen Flow meter & Humidifier Bottle – (Imported) CE Certified with 4 digit notified body no./UL Listed for other area

Brass body chrome plated Flowmeter with colour coding to match with the gas being used. The housings should be made of polypropylene to ensure high durability. The flow range should be 0-15 LPM. The Flowmeter should be fitted with matching adaptor (probe) for Oxygen Gas Outlet Point.

Humidifier bottle should be compatible with Oxygen Flowmeter & it should be reusable type. The bottle should be shatterproof & made of polypropylene/polycarbonate. Metal components of humidifier bottle should be made of brass with anti-corrosion nickel plating.

D-Type Big size Medical Oxygen Cylinder ISI Mark (220 CU.FT.)

1. D-Type high pressure seamless cylinder for medical oxygen gas, cylinder are ISI marked confirming to IS: 7285 part 2, certified by the Bureau of Indian Standards (BIS) and approved by the chief controller of explosive (CCOE) Government of India.
2. Cylinder made from Manganese Steel.
3. 46.7 Ltr. water capacity (220 CU.FT.).
4. Fitted with bull nose type valve as per IS: 3224, and neck cap.
5. Valve made of Brass and Chrome Plated.
6. Working pressure 150 Kg./cm² at 15 deg. C.
7. Hydraulic test pressure 250 Kg./cm².
8. Color code of the cylinder should as per IS 3933-1966 with updating till date.

B MEDICAL NITROUS OXIDE SYSTEM

1.0 Nitrous Oxide Manifold (Indian)

The N₂O cylinder manifold should comprise of two cylinder Banks which can accommodate 2 cylinders in each Bank (means 2+2) for cylinder valves conforming to IS 3234 (N₂O service) complete with copper tail pipes with fittings.

Manifold should be suitable to withstand a pressure of 140 Kg/cm², along with high pressure copper annealed tail pipes with Brass adapter suitable for Nitrous Cylinders and manifold. Top frame comprising of high pressure copper pipes of size 1/2" I.D. x 14 swg with high pressure brass fittings made of high tensile brass and connections through non-return valves.

High pressure copper tail pipes, made of high pressure copper pipe of size 1/4" I.D. x 16 swg.

The middle and bottom frame to be provided to fit both round and flat bottom cylinders safely. The manifold should be tested (hydraulically) at 250 kg / cm sq.

The copper tail pipes are fitted to the individual non return valves of the cylinder manifold for easy removal of cylinders without disturbance to system operation.

Each manifold should be provided with one terminal header and a NPT connection for the Automatic control panel.

2.0 Fully Automatic Nitrous Oxide Gas Control System – As per NFPA-99 std with latest amendments / HTM -2022/02-01 of UK(Imported)

Gas Manifold should be fully automatic, self – shifting to reserve bank on exhaustion of the service bank without interruption of gas delivery to the system. A critical connections should be gas specific, non-interchangeable and should be designed to eliminate gas supply error. The manifold control system should supply a flow of 1000 L/ Min at 50 psi. The dual line regulator/single vent Medical Gas Manifold control unit should include right and left header bars and pigtails for the appropriate medical gas. The installed system should automatically switch over to the reserve bank when the primary bank is depleted. When the depleted cylinders are replaced with full cylinders the system should automatically reset itself in preparation for the next bank change. The primary side bank in use and the remaining side bank on reserve. This designation should automatically change from left to right and right to left as each bank is depleted and, in turn, refitted with full gas cylinders.

The LED indicator should show a depleted bank by turning red. A buzzer should also sound to indicate an empty bank. When the system is reset by replacing the depleted cylinders, the indicator should turn green and also silence the buzzer. If the manifold is connected to the health care facility's central alarm system that should also indicate that the bank was depleted and, in turn, was reset. The only manual activity Medical gas Manifold requires is the changing of the depleted cylinders. When a bank is depleted, Manifold should automatically switch to the fresh bank, delivering an uninterrupted gas supply to the health care facility. Changeover is performed by solenoid valves contained in the control cabinet. In the event of an electrical power failure, both solenoid valves should automatically open to provide an uninterrupted gas flow. Under normal operating conditions, the gas should leave the high pressure cylinders through the pigtails into the header bars.

The pigtails should have on-way Valves (check valves) to allow the replacement of depleted cylinders without gas pressure back-flow into the remaining depleted cylinders on that bank. In the event a safety relief device on an individual cylinder should

Activate or a pigtail should leak excessively, the local check vale should also prevent loss of gas from the rest of the cylinders on that bank.

The gas should flows through the manually operated shutoff valve into the primary regulator. This regulator should reduce the high cylinder pressure to an intermediate pressure. The intermediate pressure gas flows through the solenoid valve to the line regulator for its final (Line) pressure reduction for use in the health care facility. Two line pressure regulators should be installed in parallel, and each should be capable of maintaining a constant dynamic delivery pressure at the maximum designed flow rate of the system.

The solenoid valve should be the key to the automatic mechanism the manifold. This component ensures that the flow of gas is not interrupted and the pressure does not fluctuate during normal operation. When the operating bank pressure falls to a predetermined level, which is controlled by the preset pressure switches (high and low) , the switches should activate the solenoids to switch to the fresh (reserve) cylinder bank .

The manifold control cabinet should have three means of giving continuous information on the system status: first pressure gauges to indicate the bank pressure and the delivery pressure: second six indicator LEDs , two green that indicate which cylinders is in use, two yellow for Reserve Ready and two red that indicate a bank is now depleted : third, a loud audible buzzer gives an

alarm when either or both banks are depleted.

The six indicators should be controlled by sensing the bank pressure. Replacing the depleted cylinders on the empty bank resets the system, changing the indicator from red to yellow. At the same time the yellow LED should change to green to go from Reserve Ready to In Service. LEDs should show red prior to initial pressurization or whenever both cylinder banks are below the present value.

3.0 Emergency N2O System – (Indian)

The Emergency supply manifold should be connected to downstream of the manifold control panel. The assembly should consist of 1 (one) cylinders connection supplying a manually adjusted regulator via a common header assembly. The delivery system is isolated from the main system by an isolation valve. Pressure gauges should indicate cylinder and delivery pressure & valves conforming to IS 3234 (N2O service)

C MEDICAL COMPRESSED AIR SYSTEM

1.0 Duplex MEDICAL DRY COMPRESSED AIR SUPPLY SYSTEM -as per NFPA-99 std with latest amendments / HTM -2022/02-01 of UK(Imported)

a) The total plant capacity running and standby should be 110 scfm capacity @ 100psi oil-less air compressors and associated equipment, one vertical ASME Tank and one control panel. The entire system including the receiver should be mounted on a common structural steel stack base. The only field connections required would be system intake, exhaust and power connection at the control panel. All components should be completely pre-piped and pre-wired to single-point service connections. All interconnecting piping and wiring should be completed and operationally tested at the site of manufacturer.

b) The medical air compressors should be of the totally oil-less scroll air-cooled design. Connecting rod and bearings should be packed with lifetime lubrication and sealed.

c) Each compressor should be belt driven by a suitable HP, 3 phase, 50 cycle, 415 volt, ODP NEMA construction motor. Slide bases for convenient belt tension adjustment and totally enclosed OSHA approved belt guards should be provided.

d) Each air compressor should have a capacity of 55 scfm at 100 PSIG.

e) The system should include individual compressor inline intake filters, discharge check valves of bronze construction, safety relief valves, bronze intake and discharge flexible connectors, solenoid unloaders, isolation valves, air cooled after coolers for each compressor, high discharge temperature shut down switches on each cylinder, pressure control switches, as well as copper tubing with shut-off cock for gauge and switches. The system should include a 120 gallon. Pressure storage tank of ASME construction rated for 200-PSI MWP service. The tank should be equipped with a pressure gauge, safety relief valve, 3-way by-pass; gauge glass and automatic electronic tank drain with manual override. The inside of the tank should be coated for rust protection with a two component coating which provides a hard, durable lining. Provide spring vibration isolators for each compressor.

f) The system should include a UL listed control panel in a NEMA 12 enclosure with the following accessories for each pump:

g) Externally operable fusible disconnect with door interlock, control circuit transformer with fused primary and secondary coils, H-O-A switch, magnetic starter with 3 leg overload protection, hour meter, motor running light. Provide the panel with a multiple position selector switch for selection of normal operation (automatic alternation) or manual selection of lead and lag pumps if

one of the pumps is taken out of service due to scheduled maintenance. Provide audible and visual local alarm (complete with indicating lights and individual sets of auxiliary contacts wired to the terminal strip for remote alarm indication) for the following: compressor temperature malfunctions and reserve compressor in use.

Provide manual reset for thermal malfunction shutdown. All control and alarm functions should remain energized while any compressor in the system remains electrically on-line. The lag compressor should be able to start automatically if the lead compressor fails to operate. All models should operate between 65-90 dBA

D Duplex MEDICAL VACCUM CENTRAL SYSTEM

1.0 VACUUM (SUCTION) SUPPLY SYSTEM – as per NFPA-99 std with latest amendments / HTM -2022/02-01 of UK (Imported)

Medical Vacuum should be provided by vacuum plant reference and capable of providing a flow rate of 4200 LPM with one Pump running and one pump standby, pumps running simultaneously at a vacuum level of 19” Hg. The total plant capacity should be 150 SCFM .

The Oil Lubricated Rotary Vane Medical vacuum System should provided superior performance with minimal maintenance. The packaged system should contain all necessary controls and components to meet or exceed NFPA99 recommended guidelines. Systems should be available in

simplex and all multiplex arrangements. The factory packaged vacuum system consists of rotary vane vacuum pumps, pre-wired control panel, receiver, and interconnecting wiring and piping, requiring only two plumbing connection. The Medical Vacuum systems should be available as base mounted with vertical receiver size. The vacuum pumps should be continuous duty, rotary vane, oil-sealed, air cooled, direct driven units capable of continuous operation over a working range of 18" to 29" Hg. Each pump should have single shaft seals and should be equipped with an automatic gas ballast valve to prevent condensation of water vapor, extending the life of the oil and the system.

The pump should include an integral, multi-stage oil-removal system featuring a built in exhaust demister that should remove and reclaim 99.9% of the exhausted oil. Additionally each pump should include exhaust back pressure gauge to indicate the need for filter maintenance and an oil sight glass for monitoring oil level. Lubrication should be provided by the integral, fully re-circulating oil supply. The pump inlet should be protected by means of a wire mesh screen. An internal anti suck back valve should be included to prevent oil from entering the vacuum piping network. Pump vanes, because of their construction, should provide superior heat transfer and long life. The pumps should be dynamically balanced and virtually vibration free.

Each pump should be driven by a direct flanged three-phase, standard TEFC motor via a pin and bush coupling. All models should operate between 58-83 dBA,. Pumps require standard automotive grade SAE-30 non-detergent oil for lubrication.

The UL listed / CE marked electrical control panel should be mounted in a control cabinet. The standard control panel includes the following components:

Integral circuit breaker disconnected with door interlock, across-the-line motor starters with three-phase overload protection

A programmable logic controller to cycle lead pump with each use

Hand off Automatic selector switch for each pump

Lag pump in use indicator light with horn and connection for remote annunciation

Hour meters to monitor factory recommended service intervals.

Pump running lights to indicate pump in operation.

Each system should include an ASME coded receiver rated for full vacuum service. The system receiver should include a 4-1/2" vacuum gauge, manual drain, and three- valve by pass. Additionally, each system should include properly sized inlet and exhaust flex connectors and vibration isolation pads for field installation. the pump has the facility that in case one pump stop the standby pump should automatically start. if any pump fails the system should automatically revert to the stand by pump. All the status monitoring of the pump can be connected to the Master Alarm. The system should also include factory installed 5 micron pump inlet filters to promote longer life.

3 Ward Vacuum Unit with Suction Jar - Imported CE certified with 4 digit notified body no./ UL Listed for critical area

- The digital vacuum regulator should have a digital vacuum gauge with monochromatic LCD display, it is available with three possible end of scale: -250 mbar, -600 mbar and -1000 mbar.
- The scale should be able to set in mbar/hpa or mmhg by the end user
- The numerical display should show the vacuum value and a sector bar proportional to the adjusted de-pressure. The reading resolution is 1 mbar/hpa (1 mmhg).
- The frontal part of the digital gauge should be equipped with 3 buttons: one to switch ON/OFF the vacuum regulator, the other 2 for various settings such as: set the timer for the automatic switch off of the regulator; select the unit scale (mbar/hPa or mmHg); set up a preferred vacuum value; zeroing the device at any time.
- The device should have a quick I/O switch button that allows the operator to quickly lock and reactivate the vacuum, keeping unchanged the previous preset value. When the device is suctioning, the red button is outside and by pushing it, the operator can stop the vacuum at any time. While, to reactivate the vacuum, at the same pre-set value, the operator have to simply push the green button (visible when the device is not working).
- A vacuum adjustment knob with Soft Grip inserts for an easy handling. The operator has regulate the level of vacuum as needed by patient.
- Suctionjar shouldbe made of polycarbonate autoclave upto121°C.Thejar capacityis 1000ml . Thefloat&cap assemblyincludesa patientportinletthatishorizontal tohelp preventkinking of suctiontubing. All collection bottleassembliesallow visual inspection offluidlevel,color &consistency&canbesteam autoclaved or gas sterilized. 3b Ward Vacuum Unit with Suction Jar - Imported CE certified with 4 digit notified body no. / UL listed for other area

W.V.Unitshouldhavesofttouchknobfor easyaccess to(a) On/offmode(b) Regulation mode (c)fullflowofvacuum pressure directlyformvacuumline.Mode.Theanaloguegauge shouldhave 2” diacolor coded;glow-in-the-darkfacefor easyreadabilityunder any condition.Highvacuumsetting0-760”Hg.

Suctionjar shouldbe made of polycarbonate autoclave upto121°C.Thejar capacityis 1000ml.

The float & cap assembly includes a patient port inlet that is horizontal to help prevent kinking of suction tubing. All collection bottle assemblies allow visual inspection of fluid level, color & consistency & can be steam autoclaved or gas sterilized. Polycarbonate bottles offer the additional advantage of eliminating breakage.

Filter is designed to help protect the vacuum system from contamination due to aerosols or collection bottle overflow. This high efficiency bacteria filter features a hydrophobic, micro-porous membrane which filters air with maximum efficiency while helping block the flow of aqueous fluids and aerosol contaminants.

Filter efficiency is superb: 99.97% D.O.P. retention (.3 micron particle size). Filters are available with 1/8" NPT male pipe thread on one end to connect to almost any vacuum regulator and a 1/4" hose barb for connection of vacuum tubing.

4 Theatre Vacuum Unit with Suction Jar - Imported CE certified with 4 digit notified body no. / UL listed

- Suction jar should be made of polycarbonate autoclave up to 121°C. The jar capacity is 2000 ML. The float & cap assembly includes a patient port inlet that is horizontal to help prevent kinking of suction tubing. All collection bottle assemblies allow visual inspection of fluid level, color & consistency & can be steam autoclaved or gas sterilized. Polycarbonate bottles offer the additional advantage of eliminating breakage.

DA Duplex AGSS/WAGD SYSTEM

AGSS/WAGD SUPPLY SYSTEM – as per NFPA-99 std / HTM -2022/02-01 of UK (Imported)
Waste Anesthetic Gas Disposal System (WAGD)/Anesthetic Gas
Scavenging System (AGSS) Imported -as per NFPA-99 Std /HTM -2022/02-01 of UK

The duplex oil less rotary van medical vacuum systems are skid mounted with vertical reservoirs suitable for OT with total plant capacity of minimum 10 SCFM (280 LPM).

The WAGD pumps should be continuous duty dry-running units with carbon graphite self-lubricating rotary vanes.

The pumps should be air cooled and direct driven, capable of continuous operating over a working range of 0" to 25.5 Hg. The pumps should be completely self-contained units, requiring no external coolers, pumps, separators or reservoirs.

Lubrications should be provided by the self-lubricating self-adjusting carbon graphite vanes. The carbon graphite vanes should have a life of 8,000 to 15,000 hours, depending on the size of the pump.

The pump inlet should be protected by means of an integral, 5 micron inlet filter. The rotary design should be dynamically balanced and virtually vibration free.

The pump should be constructed of heavy-duty aluminium alloy, providing superior heat transfer and long life.

The pump should be equipped with large cooling fins and a sound-attenuating enclosure to assure cool, quiet operation.

Remote switches are not required for WAGD system as per NFPA-99 Guidelines. The WAGD arrangement should have a reservoir hence it provides the WAGD service around the clock. It should be duplex model of WAGD.

If pump in use fails second pump will start automatically without fluctuating in line pressure. This equipment should operate at 83 DBA. The pump should require no oil or other service liquid for operation. Each pump should drive by a direct-flanged three-phase standard TEFC motor via a pin and bush coupling. The UL listed electrical controls should be mounted in a NEMA 12 control cabinet.

The standard controls include:

- a) Combination circuit breaker disconnects, non reversing, across-the-line motor starter with three-phase overload protection
- b) A programmable controller to cycle lead pump with each use.
- c) Hand-Off Automatic selector switches
- d) Lag pump in use indicator light with horn and connection for remote annunciation
- e) Hour meter to monitor factory recommended service intervals
- f) Running lights indicating pump in operation
- g) The system should be supplied with properly sized inlet, discharge flex connectors and vibration isolation pads for field installation. As options, the system can be supplied with a discharge silencer and/or bacterial filters for field installation.

E MEDICAL COPPER PIPE

Copper Piping :

Installation:

Installation of piping should be carried out as per international standards with utmost cleanliness. Only pipes, fittings and valves which have been degreased as per International standards should be used. Pipe fixing clamps for up to 28mm diameter. Pipes should be non ferrous suitable for the diameter of the pipe. For the pipes of the size above 28mm rigid metallic hanging or cemented supports to be used.

The main lines to the building to be taken overhead through metallic poles or through underground ducts with inspection removable slabs, All pipe joints should be made using inert gas flux less brazing method. All joints should be of copper to copper and should be brazed by silver brazing filler material without flux while being brazed joints shall be continuously purged with oil free dry nitrogen to prevent the formation of copper oxide on the inside surface of the joint. All pipes should be installed without springing or forcing. All pipes should be protected against mechanical injury in a manner satisfactory to authorities having jurisdiction.

Test: After erection, all the new pipes cleaned or purged with the help of dry nitrogen gas.

Complete system should be tested with dry nitrogen at 2 times of working pressure for 24 hours.

Painting: All existing and proposed exposed pipes should be painted with two coats of Synthetic enamel paint & color codification as per international standards. All concealed pipes to have gas identification bands / labels at appropriate distance. Similarly all pipes which need embedding in

the wall should be tested/painted/labelled and properly insulated.

Certification: To be certified that pipes are suitable for the particular service and complete cross connection (anti-corrosion) test will be carried out.

Distribution piping system:

MATERIAL (PIPE):

Solid drawn, seamless, deoxidized, non arsenical, half hard, tempered and degreased materials conforming to BS: EN 13348 Medical Grade Kite Marked Pipe

All copper pipes will be KITE MARKED for medical use before dispatch and the pipe will be delivered plugged or capped at both ends.

Pipe sizes to be used as under:

54mmOD X 1.2mm thk

42mmOD X 1.2mm thk

28mmOD X 1.00mm thk

22mmOD X 1.00mm thk

15mmOD X 1.00mm thk

12mmOD X 1.00mm thk

Fittings will be made of copper conforming to BS 864 and suitable for a steam of working pressure of 35 bar and especially made for brazed socket type connections.

F MEDICAL AREA LINE PRESSURE ALARM:

Medical Gas Alarm – As per NFPA -99 std with latest amendments / HTM -2022/02-01 of UK (Imported)

2 service

3 services

4 services

6 services

Area Alarms are designed to include all necessary displays, factory wiring, transformers and circuitry requiring only 230 VAC primary powers. Internal voltage should be stepped down to 5 VDC and 15 VDC for control circuit Power. Voltage to external pressure or vacuum transducers should be 15 VDC.

The Area Alarm should have digital display facility. Each area alarm should monitor up to 6 or 12 medical gas & / or Vacuum services.

Area alarm panels should be modular in design. Each gas monitored should have a light Emitting Diode (LED) display to continuously indicate actual line pressure. A vertical series of LED's should further indicate relative line pressure.

The control module should include a silence/enter button, a Test/Shift button, an Up button and a Down button. These buttons should be used to silence the audible alarm, set up the alarm panel and to test the alarm panel. The test button should test all modules one at a time. An LED on the control module should illuminate green to indicate Power on.

The LED should show Normal pressure at 50 psi . apart from Normal it should also show low risk of 40 PSI as low-pressure and 60 psi as high. High risk of 30 psi as low pressure & 70 psi as High pressure.

Line pressure modules should be available in dual display configuration, dual display modules should accept any Combination of pressure or Vacuum.

The back box should contain factory installed copper tube extensions 6" Long , 3/8" ID (1/2"OD) , to accept installer furnished lines form the medical gas system.

Each inlet tube should accept gas – specific DISS fittings for transducers, to prevent cross-connection. The power supply should be installed in the back box Power supply should include an

on / off rocker switch and a fuse holder.

The audible alarm tone should pulsate, 90 dBA at 2 meters. The audible signal should be cancelled only by the alarm silence button or fault correction. The display should remain illuminated to indicate the presence of the alarm condition. The alarm should automatically reset with the correction of the fault condition. A new alarm should occur while the panel is silenced, the audible alarm should reactivate. The area alarm should store the last four alarm conditions in memory at the alarm panel. These conditions can be indicated by using the buttons on the alarm panel control module.

The alarm should be capable to be connected with the HIS system.

Line pressure Alarm panel for Medical Gas Piping System should monitor the following indication:-

2 gas service :

G MEDICAL AREA VALVE SERVICE UNIT (VALVE BOX WITH ISOLATION VALVE) AS PER ENCLOSED TECHNICAL SPECIFICATIONS

ZONE VALVE BOX CE Marked with CE no./ UL Listed

1/2" x 3/4" (2 Gas)

1/2" x 1/2"x 3/4" (3 Gas)

1/2" x 1/2"x 1/2"x 3/4" (4 Gas)

1/2"x1/2"x1/2"x 1/2" x1/2"X 3/4" (6Gas)

Adopter having opening by quarter turn of handle. The valve should be pneumatically tested as per BSEN 1057 for twice the working pressure and degreased for medical gas service before supply.

Valve boxes should be equipped with components for shutting off and supervising individual /parts of central systems in hospital, laboratories and the like. They should be allowed the ward staff to allow isolating of the areas for maintenance and repair work. The pressure monitoring of the distribution system is done by pressure gauges. In case of emergency the door can be glass break opened or by un-locking using the key.

H MEDICAL LINE VALVE, AS PER TECHNICAL SPECIFICATIONS ISOLATING VALVE

15mm OD

22mm OD

28mm OD

42mm OD

54mm OD

All ball valves as per BS 1057 are rated at 400 psig, as well as full vacuum (29.9" Hg). Valves go

from full ON to full OFF by turning the vinyl-gripped valve handle 90°. Locking-type handles may be ordered separately when required. Copper tubing is factory installed to help prevent valve seat damage during soldering. Main and riser valves are not required to be installed in a box unless specially noted or required.

I Bedhead panel for Low Equity Ward Areas, 1500mm length, with provision of Gas outlets & provided with electrical sockets & accessories complete as per enclosed tender technical specifications

Bed Head Panel – CE Marked / UL Listed

The system should provide a safe, efficient means of delivering services to patients/staff in general ward application.

The Bed Head Panel should meet the following criteria.

Robust design in extruded aluminium sections

Ability to house medical gas terminal units and Electrical Sockets.

Ease of installation via separate wall mounting plates.

The system should consist of a number of aluminium extrusions joined together to form a carcass to suit the particular application.

Each Bed Head Panels will have three extruded section compartments

- . One for MGPS outlets with copper pipe
- . One for electrical receptacles 6, 6/16 Amps receptacles
- . One for low voltage like nurse call, data points & voice points

Each Bed unit should have

- . Length of panel should be 1500 mm.
- . 1 Nurse Call Button – Provision only
- . Gas Outlets as per list attached O₂, Air-4, Vac (Provision only – Gas outlets calculated separately)
- . Electricals – 2 nos. (5/15 Amps switched socket)
- . Electricals – 2 nos. (5 Amps switched socket)
- . 1 IV Pole with 4 Bottle Holder

Note: All system for Medical Gas Pipe line System must be certified by third party: i.e. (i) - For system installed as per NFPA standard, NFPA appointed inspector must certify system and relevant documents for inspector must be submitted with bid documents. (ii) - For system installed as per HTM standard, HTM appointed Pharmacist must certify system and relevant document for pharmacist must be submitted with bid documents.

J Technical Specifications for Modular Pre- Fabricated Operation theatres Ceiling Construction – (Indian) (cladding type OT)

The inner ceiling will be constructed with 1.60mm thick EGP sheet panel / SS with 120 GSM as per IS 277, backed by 12-mm gypsum board panel. The Panel will be flame resistance to BIS 1142 part 3. The EGP sheet will be indigenous of reputed make and will be provided with test certificate. The inner surface ceiling will be fixed to the brick ceiling with essential supports.

The individual ceiling panels will be welded together. All joints will be filled with metal filler (Dupont / 3M) make and will be sanded flush on site till ready to receive the plastic finish. Ceiling panel joints will not be visible after the final wall coating is applied.

The gap between the inside and outside surfaces of the theatre will be variable to suit the architects' layout, but will be sufficient for the flush mounting of equipments.

The gap between the inner and outer ceiling will be left to accommodate the equipment at a later date and to enable services, pipes, conduits etc, to be run within the gap. All ceiling-mounted equipment will be flush mounted and sealed into theatre. All the sharp edges and corners will be in

radius to avoid bacterial contamination. The ceiling and wall panel design will be such that is allow to installation and support of all equipment and the provision of openings required for the installations, without affecting rigidity and strength. Access boxes will be fitted to the rear of all ceiling & wall-mounted equipment to enable maintenance to be carried out from outside the operating theatre. There will be 4 return air ducts with grills provided to meet the HVAC requirements.

K Sterile Anti-bacterial Coating – (cladding type OT) (Imported)

Anti-bacterial epoxy and Anti-fungus sterile coating will be applied on the EGP/SS finished walls & ceiling with atleast 3-4 coats to achieve a thickness of minimum 200 micron. Before application of sterile wall coating an appropriate primer will be applied. The Primer will be supplied along with the paint and will be imported.

The prima will be applied prior to coating of Anti – bacterial & Anti- Fungus sterlite paint an EGP /SS walls & ceiling. 3 to 4 coates will be applied to achieve a thickness of 200micrones.

Sterile coating and primer will be applied on the surface by air-less spray gun. Sterile coating will be to withstand with commonly used cleaners in the operation rooms and even withstanding with regular steam cleaning.

We will provide the colour of paints approved by Engineer-in-Charge.

L Planair Ceiling (Plenum box – Air Diffuser) – (cladding type OT) (Indian)

The plenum box (2400mm x 2400mm) will be made of high quality Aluminium 2mm thick & Air diffuser will be made of Woven polyester cloth that will introduce the highest air quality into the Operation Theatre. There will be 6-8, H-14 HEPA filters 0.3 microns size (as per plenum size) with 99.97% efficiency to ensure high quality clean air & tight control of bacteria infection system. Air will be diffused into the theatre uniformly over the total area through perforated aluminium sheet / SS 304. The air distribution system serving to the Operation Theatre will be tested as per DIN 4799 standards / HTM 03-01 standard.

The Unidirectional laminar flow installation & lighting system will be design to provide the Operation Theatre as key to preventing patients being infected during operation lies on the design of sterilized air conditioning system and the flow pattern of draught as well as the quality of engineering.

The airflow should be Unidirectional, downwards and the average velocity of the diffusers should be 25 to 35 fpm . It should have a low noise recirculation system, compliance with noise level of ≤ 45 to 48dB.

The ceiling will incorporate supports to secure it to the main structural frame of the modular operating theatre.

M Double peripheral lights– (cladding type OT) (Indian)

Double peripheral OT lights each set having two lights IP 54 Grade will be provided with stepped finish aluminium reflector and will be of A class for use in clean room application. The peripheral light diffusers will be constructed from opal prismatic diffuser material in aluminium frames.

Light will be generated from high frequency electronic ballast's complete with colour corrected fluorescent tubes. The ceiling will incorporate supports to secure it to the main structural frame of the modular operating theatre. The laminar flow ceiling will be able to provide integrated lamp support system, ease of maintenance and long life system. Control equipment for the peripheral lighting will be provided in the theatre control panel to allow independent control of the lighting levels by the surgical team.

The operation procedures can never be affected by shadows, shimmering lights and dazzling eyes. This has been achieved by the lighting system with sufficient illumination level at the wound site and to provide flicker less design lighting control system

Controls for the peripheral lighting will be provided in the theatre control panel to allow independent control of the lighting levels by the surgical team.

N Surgeon's Control Panel with Separate Distribution Board – (Indian)

The Control panel will be “Tiled Membrane” type, can be configured to incorporate all the services that Operation Theatre staff required. The connection between the surgeon control panel and the distribution board will be by a multiplexed system, providing a PWM signal on a two-core cable.

The panel will contain 6 services Tiles as follows:

- a). Time day clock
- b). Time Elapsed Clock
- c). Temperature , Humidity Indicator & pressure indicator , Hepa filter status.
- d). General/peripheral Lighting control
- e). Medical Gas Alarm Panel – upto 6 gases
- f). Hand Free telephone with memory card.

Time Day Clock will be digital type and clocks have high brightness characters, not less than 30mm in height. Time Elapsed Day Clock will be digital type and clocks have high brightness characters, not less than 30mm in height. Temperature Indicator will indicate the theatre temperature will be connected to the local pressure switches of Air-Conditioning system. Indicator will be digital type have high brightness characters, not less than 30mm in height.

General Lighting System incorporates all the necessary controls of the lighting system inside the theatre. The medical gas alarm will indicate High and Low gas pressure for each gas service present in the operating theatre and will have an audible buzzer with mute facility. The medical gas alarms will be connected to local pressure switches located downstream of the last isolation valves. A Hand Free Set Telephone system incorporated in the panel with memory type card.

The size of the each tile will not be more than 300mm x 200mm. Colour will be RAL 9002 for the frame and membrane fascia. The Control Panel will be designed for front – access only.

All high voltage equipment is installed in a separate enclosure. The remote cabinet will house the operating lamp transformers, mains failure relays, electrical distribution equipment and circuit protection equipment for all circuits within the operating theatre. All internal wiring will terminate in connectors with screw and clamp spring connections of the Clip-on type mounted, on a DIN rail and labelled with indelible proprietary labels. Individual fuses or miniature circuit breakers will protect all internal circuits. All internal wires will be marked with plastic ferrule type cable markers, for ease of identification.

O X-ray Viewing Screen – (cladding type OT) (Indian)

The theatre will be equipped with a 2-plate X-Ray viewing screen. It will be designed to provide flicker free luminance for the film viewing purpose. It is installed flushed with the theatre wall for hygienic and ease of cleaning purpose. The X-Ray viewing screen is designed for the purpose of front access. The X-Ray viewing screen will be illuminated by 4 pieces of high frequency fluorescent lamps and the dimming will controlled by the usage of dimming ballast with Philips make rotary control. The diffuser is able to diffuse the light evenly and to provide enough luminance for film viewing. It is made of high quality opaque acrylic sheet. The film is held firmly by using spring-loaded clips for ease of mounting and demounting. The body is built by using electrolysed steel with powder coated to BS standards.

P Static dissipative Flooring (Tile Form) – (cladding type OT)(Imported)

The floor finish in the operating room will be 2mm Static dissipative PVC tiles, laid on a semi conductive adhesive base. The floor finish will terminate at the room perimeter passing over a concealed cove former and continuing up the wall for 100mm.

Flooring will fulfil EN 649 of US requirements. It will have chemical resistance as per EN 423 . It will have electrical resistance conforming to EN 1081/IEC 61340.

All joints will be welded and the plastic wall finish will overlap the floor coving by 25mm, to provide a continuous sealed surface.

A floor screed will be provided, flat to within a tolerance of +/- 3mm over any 3-metre area. Onto this sub floor, a self-levelling compound will be laid prior to laying of the floor finish.

The self-levelling compound will be of the type that does not promote bacteriological growth. Copper grounding strips (0.05mm thick, 50mm width) will be laid flat on the floor in the conductive adhesive and connect to copper wire of grounding

Q Scrub Station – (cladding type OT) (Indian)

The scrub station will be equipped with 2 bay bay scrub stations. The scrub station will be made of high-grade stainless steel 304 with stain polish finish and wired to the current IEE regulations & BS 7971. The scrub stations control system will be based on advanced microprocessor. The scrub station will be sensor-activated 24VAC. The scrub station will be provided with user selectable time out control. The supply will not be interrupted in case of power failure or maintenance.

The station will be equipped with thermostatic mixing valve to control the temperature of hot / cold water supply. The washing faucet will be made of Chrome plated brass hand.

R Swivel Single arm Anesthesia Ceiling Pendant - Imported

Multi-movement Pendant is a new design motorized Single arm(900mm)with up & down movement of 515 mm and load carrying capacity of 80 kg. The arm can be rotated upto 330°-340°with adjustable stopper. An extremely quiet electric motor reduces noise to a minimum, dampened stoppers and very low hand forces for horizontal movements contribute to an ergonomically optimised workplace. The newly developed pneumatic brake system can be adapted to various safety requirements and construction facilities. Modern and very quiet, high performance motors as well special spindles are used to realise precise & steady movement. As a safety feature the motor is equipped with an over load protection. The large interior cross section for supply lines offers completely new applications with 120 mm diameter. The stoppers are infinitely variable from 0-330°-340° service head is provided with the modular design square in shape to achieve maximum supply with minimum required space. service head is designed to hosts, Base, Gas Module, Electric Module and shelves . Upto 8 Gas outlets & 10 Electrical switches. Racks & shelves are provided to mount the equipments like monitor etc. Surgeon pendant will have 2 arms with shelves as per following details:

- a. Horizontal arm system - 1
- b. Weight carrying capacity - 80kg
- c. 5/15 Amp. Electrical sockets with switches - 8 to 10 Nos.
- d. Shelves with side rails - 2 Nos.
- e. Provision to fix Gas outlets(i.e.) Oxygen- 2, Vacuum- 2, Air 4 bar-1, Air 7 bar-1, N2O -1 & WAGD-1 no.
- f. Gas interface set for interface plate - 1No.
- g. Ceiling mounting system for interim ceiling upto 1000 mm - 1 No.
- h. Interface plate with electrical fittings - 1No.
- i. Ceiling cover for interim ceiling - 1No.

S Swivel Double arm Surgeon Pendant (Imported)

Multi-movement Pendant is a new design motorized (1000+800)mm arm with up & down movement of 515 mm and load carrying capacity of 80 kg. The arm can be rotated upto 330°-340° with adjustable stopper. An extremely quiet electric motor reduces noise to a minimum, dampened stoppers and very low hand forces for horizontal movements contribute to an ergonomically optimised workplace. The newly developed pneumatic brake system can be adapted to various safety requirements and construction facilities. Modern and very quiet, high performance motors as well special spindles are used to realise precise & steady movement. As a safety feature the motor is equipped with an over load protection. The large interior cross section for supply lines offers completely new applications with 120 mm diameter. The stoppers are infinitely variable from 0-330°-340° service head is provided with the modular design square in shape to achieve maximum supply with minimum required space. Service head is designed to hosts, Base, Gas Module, Electric Module and shelves . Upto 8 Gas outlets & 10 Electrical switches. Racks & shelves are provided to mount the equipments like monitor etc. Surgeon pendant will have 2 arms with shelves as per following details:

- a. Horizontal arm system - 2
- b. Weight carrying capacity - 80kg
- c. 5/15 Amp. Electrical sockets with switches - 8Nos.
- d. Shelves with side rails - 2 Nos.
- e. Provision to fix Gas outlets(i.e.) Oxygen- 2, Vacuum- 2, Air 4 bar-1, Air 7 bar-1 & WAGD-1 no.
- f. Gas interface set for interface plate - 1
- g. Ceiling mounting system for interim ceiling upto 1000 mm-1no .
- h. Interface plate with electrical fittings - 1No
- i. Ceiling cover for interim ceiling - 1No

T Automatic Sliding Door

The main door will be of Single Flap with frame size 1500mm wide x 2100mm height.

Frames

The constructions Frames will be in accordance with the existing prefabricated wall thickness, with the necessary anchors for hidden fastenings to the wall panel, with horizontal upper drive gear boxes and in the double door width, included hinged-up inspection fascia. Running in front of the wall. Floor instand for the frame pillar: 30 mm.

The frames will be provided in Aluminium extruded profiles which will withstand better structural load. Aluminium profiles will be anodised to make dust free. The frame thickness will be 2.0mm & sheet thickness will be 1.5mm The apparent frames will have a width of 50 mm. only extruded profiles shall be used for construction of frames.

Sandwich door leaf of thickness 35 – 40 mm will be completely covered with a high-density solid care board for silent movement and in order to prevent the door from buckling by using a special glue on both sides, steel ground to grain size 240, enamel

Door leaves

Sandwich door leaf of thickness 35 – 40 mm will be completely covered with a high-density solid care board for silent movement and in order to prevent the door from buckling by using a special glue on both sides, steel ground to grain size 240, enameled or coated.

The total thickness shall be 60mm

The door leaves will be manufactured without impact at the front surface. They will close tightly and side .A rubber rebate will be installed at the front and rear to prevent the door from closing sharply.

Each leaf will have:

A pull steel handles on one wall at each side, which allows the door to be opened with hand, elbow and knee.

Moderately heavy mortise lock, upward closing, pre-fitted for profile cylinder, including closing angle, basquille rod and 2 steel cover collars.

Inspection window

An inspection window will be installed in the, glass strips in stainless steel sheet of thickness 1,5 mm, with glass 35 mm (window above 70 mm).

Coating in NCS-colour in accordance with the architect's / hospital's choice. Double panes with 2 laminated safety glasses , installed hermetically between the windows.

The window size will be 300x300mm

U Vertical Blend Motorized Window (Indian)

Window made of double glaze glass with vacuum impregnation with motorized vertical blends.

Window size should be 1000 mm x 1000 mm.

V LED light-Double Dome (imported) CE certified / UL listed

(a)The double dome operating light must be designed for the use in high demanding surgical procedures. State-of-the-art LED bulbs should be used to ensure a low energy consumption and a long service life.

(b)Outer handles at the light head should be provided to allow for non-sterile positioning.

(c) Light head must be designed with smooth transitions and surfaces, without slots, gaps or exposed screwing to ensure fast and effective cleaning.

(d) The light head with streamlined shape is favourable within laminar flow. The light head must be resistant to disinfectant.

(e)For sterile positioning an ergonomic, exchangeable and centrally positioned sterile handle within the light head should be provided.

(f) All main joints of surgical light must be provided with unlimited rotation (360°). Light head and suspension must be sealed dustproof.

(g) Color temperature should be homogeneous at every illumination intensity.

(h) Control of illumination intensity must be possible via wall control panel

(i) Classification

a. Protection class acc. to IEC 60601-1 -

i. Mains connection component - Protection class 1

ii. Light head – SELV

b. Protection class acc. to IEC 60529

i. Arm system/mains connection component - IP 30

ii. Light head - IP 42

c. Classification in accordance with EU Directive 93/42/EEC Annex IX - Class I

d. UMDNS-Code (Universal Medical Device Nomenclature System) - 12-282

e. IEC 60601-1 - Medical electrical equipment – Section 1-1

f. IEC 60601-2-41 - Medical electrical equipment – Section 2-41

g. IEC 60601-1-2 - Medical electrical equipment – Section 1-2

(j) The surgical light should be complete with all components for ceiling mount and electrical feed-in, incl. finalised installation.

(k)Technical data for main dome: - 1nos.

i. Central illumination intensity Ec 160000 Lux

ii. Light field diameter at a distance of 1 m 200 mm

iii. Depth of illumination L1+L2 1300 mm

iv. Average Color rendering index Ra 95

v. Color rendering index R9 (red) 93

vi. Color temperature 5000K

vii. Central illumination at 1m distance with:

I. Tube 100%

II. one mask: 40%

III. tube and one mask: 40%

IV. two masks:	48%
V. tube and two masks:	48%
viii. Central irradiance Ee	580 W/ m ² ± 50 W/ m ²
ix. Ee/Ec ratio -	3.5 W/m ² x Lux
x. Adjusting the illumination intensity	40000 to 160000 Lux
xi. Number of LED	66 units
xii. Number of LED stripes	11 units
xiii. Service life LED bulbs	approx. 30000 hour
xiv. Replacement of LED bulbs	possible
xv. Ambient light mode (Endolight)	300 Lux
xvi. Diameter of light head	620 mm

(L) Technical data for satellite dome - 1 nos.

i. Central illumination intensity Ec	120000 Lux
ii. Light field diameter at a distance of 1 m	200 mm
iii. Depth of illumination L1+L2	1300 mm
iv. Average Color rendering index Ra	95
v. Color rendering index R9 (red)	93
vi. Color temperature	5000K
vii. Central illumination at 1m distance with:	
I. Tube	100%
II. one mask:	41%
III. tube and one mask:	41%
IV. two masks:	49%
V. tube and two masks:	49%
viii. Central irradiance Ee	430 W/ m ² ± 50 W/ m ²
ix. Ee/Ec ratio -	3.5 W/m ² x Lux
x. Adjusting the illumination intensity	40000 to 120000 Lux
xi. Number of LED	48 units
xii. Number of LED stripes	8 units
xiii. Service life LED bulbs	approx. 30000 hours
xiv. Replacement of LED bulbs	possible
xv. Ambient light mode (Endolight)	300 Lux
xvi. Diameter of light head	620 mm

X Storage Unit (Indian)

The storage unit should be made with 1.50 mm thick EGP Zinc coated sheet panels. Storage Cabinet should be divided in two equal parts and each part should have individual glass doors with high quality locking system. Each part should be provided with racks.

Y Pressure Relief Damper (Indian)

Pressure Relief Dampers should be provided in each room to prevent cross contamination of air from clean and dirty areas. Suitably sized air pressure relief damper should be strategically placed, enabling differential room pressure to be maintained and ensure that when doors are opened between clean and dirty area. Counter-weight balancing system should be provided in the PRD to maintain positive pressure inside the operation room. Air pressure stabilizers should have unique capability of controlling differential pressure to close tolerance. The PRD should remain closed at pressure below the set pressure and should open fully at pressure only fractionally above the threshold pressure. Blades should be of SS304 grade.

Z Writing Board (Indian)

One Operating List Board should be provided in each Operating Theatre and should be made of Ceramic Magnetic white board. Operating List Board should be flush mounted.

13 HATCH BOX (Indian)

A Hatch of 600mm x 600mm size should be provided in the Operation Theatre as specified in the scope of the work to remove waste materials from the Operation Theatre to Dirty linen Area just adjacent to Operation Theatre. Each Hatch should be equipped with two doors and the door should be operated electronically. The Hatch should be designed in such a way that only one door should be opened at one time. The UV light should be so installed that it is kept on while both the doors are closed, this UV light has to be automatically turned off in case of opening of either of the doors. There should be indicators on both sides of the OT so that the door open/close status can be monitored from both ends. Hatch Box should be manufactured from Stainless Steel (Grade 304).

14.(ii) HD Camera PAL for OT Ceiling Light:
for displaying real time images during surgery

Features: Centrally mounted in the light head

Touch screen Surface Controls

Glass Surface for hygiene requirements

Technical Data:

Image Device Sensor: 1/3"

Video standards: Full HD 1920x1080

Pixels: 20,00,000

Video outputs: 1x Y/Pb/Pr, 1x DVI, 2x HD SDI

LAN, RS232, RS485

Zoom: 10x optical zoom

12x digital

Electronic

Minimum Illumination: 12 Lux

Signal to Noise Ratio: >50dB

Minimum Working distance: 10mm- wide end

800 -tele-end

Image rotation: Via OP lighting, 360 deg

Power connection: Yes

Image stabilizer: Auto, manual

Focus: Auto, manual

Iris: Auto, manual

White balance: Auto, manual

14.(iii) Flat Panel Monitor

Should be 23" High Definition Progressive Scan Flat-panel Monitors with ceiling mounted spring arm suspension to support high-definition/HDTV progressive Scan images and should be able to support and display DVI/HDTV, RGBHV, S-Video, Composite video signals. The flat Panel suspension should be ready with the cables for integration of High Definition Digital (DVI/HDTV). RGBHV (High Resolution), SVHS (S-Video), Composite video signals to travel from the various sources of video like endoscopic camera, room camera, in light Camera, high definition flat panel monitors, while assuring native resolution /signal. Each Monitor should at least meet the following technical criteria: Resolution: 1600 dots x 1200 dots, Progressive Scan Display Colors: 16 Million Colors, Inputs: DVI, RGBHV, S-Video, Composite Video, Synchronization: 2.5-5.0 Vpp separated sync, Response time: <25ms, Travel: 33Qc- 340c, Forward Tilt: 3Qc -40c, Backward Tilt: 45c-5Qc, Cable Kit for Integration: DVI, Fiber Optic. RGBHV, S-Video, Composite

19 Isolation Panel 10KVA

Isolation Panel System of minimum 10KVA capacity should be provided for every operation theatre which ensures the safety of staff and patient. System should have isolators provided through leakage relays etc. (If required) according to IEC recommendation. This unit should be EN/CE/UL/BIS/FDA/IEC certified. These systems are to be commissioned by specialists. Should be medical grade Isolation panel

Should have fault detection feature

Should be compliant to CEI 64-8 / IEC 60364-7-710/BS7671 Standard

Should be compact and mountable on wall or flush on brick wall

The IPS should be able to integrate with HIS/BMS and Surgeon Control Panel as standard

Isolation panel system should have facility to detect fault of leakage current for each circuit (minimum 12 circuits) and same should be integrated with touch screen control panel of MOT and alarm status should be displayed on the touch screen control panel

20 Internal Ducting

The internal ducting inside of the Operation theatre should be done duly fabricated out of 22 /24 swg Aluminium sheet complete with flanges and accessories such as GI suspenders and GI supports completely sealed with Silicon sealant duly insulated with Aluminium foil Nitrile rubber self-adhesive type insulation.

SPECIAL CONDITION OF CONTRACT

Qualification Criteria

A. To qualify for award of the contract:-

- a) The Bidders should be public undertaking Autonomous Body, Public Ltd./Pvt. Ltd./Partnership Company or Proprietary firm/Company at least for the minimum three years in existence from the date of Notification of this tender.
- b) The bidder must have experience of having successfully completed Supply Installation Testing & Commissioning of Liquid Tank, central medical gas pipeline system, modular operation theatre and operation maintenance in Govt./PSU hospital during last minimum 3 years ending last day of month previous to the one in which applications are invited should be either of the following:
 - i. Three similar completed (S/I/T/C of central medical gas pipeline system, modular operation theatre and operation maintenance in Govt. / PSU hospital) works costing not less than the amount equal to 40% of the estimated cost.
 - ii. Two similar completed (S/I/T/C of central medical gas pipeline system, modular operation theatre and operation maintenance in Govt. / PSU hospital) works costing not less than the amount equal to 50% of the estimated cost.
 - iii. One similar completed (S/I/T/C of central medical gas pipeline system, modular operation theatre and operation maintenance in Govt. / PSU hospital) work costing not less than the amount equal to 80% of the estimated cost.

Cost of work shall mean gross value of the completed work including the cost of materials supplied by the Govt./Client, but excluding those supplied free of cost. This should be certified by an officer not below the rank of Executive Engineer/Project Manager or equivalent (calculated on the basis of 10% value added compounded per year). Bidder must compulsorily submit Completion Certificate & Complete order copy in this regard otherwise Bid will be rejected.

c) The applicants should have minimum Average Annual financial turnover during the last 3 years, ending 31st March of the previous financial year, at least 30% of the estimated cost.

The Balance Sheet should be duly audited by a Chartered Accountant (10% compounded value per year to be added)

d) The applicants should not have incurred any loss in more than three years during the last three years ending last day of tender duly certified by the Chartered Accountant.

e) The applicant's performance for each work completed in the last 3 years and in hand should be certified by an officer not below the rank of Executive Engineer/Project Manager or equivalent and should be obtained in sealed cover.

f) The bidder must have been awarded CMC (Comprehensive Maintenance Contract)/operation contract of similar work by at least one 100 bedded Govt. Hospitals & should be operational.

g) The bidders should be authorized distributor of the foreign principal from last 3 years w/o break. Bidder to submit affidavit that he shall supply the equipment and spares of the same brand for which he is distributor for 10 Years.

h) Bidders should clearly mention country of origin with name of Mfg. company for each and every imported products quoted by them and origin of country for imported products must be from USA, UK & EU only and failing which bid will be straightway rejected.

i) Bidders should not quote any optional items. Firm must quote strictly as per the desired specifications and items mentioned in Tender requirement and fulfilling intent and purpose of the work failing which bid will be rejected.

j) Bidders should submit an affidavit that all items will be provided strictly as per approved makes.

k) Bidders should submit original leaflet & letter of authority from the manufacturer of BSEN 13348 Kite Marked Medical Grade Copper pipe & fittings without original leaflet & letter of authority tenders should be straightway rejected.

l.) The contractor shall arrange & provide License to operate and use liquid oxygen system as a part of this contract from government of India at no added extra cost and must complete all statutory obligations.

m) Bidders should submit an affidavit that their Company has never been Blacklisted or Debarred

by any Central/State Govt. Organization.

n) Before start of work the sample of material are to be approved by Engineer-in-charge.

**NOTE: All system for medical gas pipeline system must be certified by third party:
i.e.**

- (i) – For system installed as per NFPA standard, NFPA appointed inspector must certify system and relevant documents for inspector must be submitted with bid documents.**
- (ii) – For system installed as per HTM standard, HTM appointed Pharmacist must certify system and relevant document for pharmacist must be submitted with bid documents.**

**SPECIAL CONDITIONS FOR COMPREHENSIVE MAINTENANCE CONTRACT
(MEDICAL GAS PIPELINE SYSTEM)**

After completion of the installation the firm shall get the installations inspected from authorized person deputed by department and prepare as built drawings with complete detail of installations along with inventory of equipment with their make Sr. No. model size etc.. the firm shall also obtain a certificate of OEM of the equipment installed for proper installation and backup guarantee by OEM of major items.

The firm after successful completion of the work, shall stand guarantee for all material, equipment and installation for one year from date of completion. This will include repair, replacement and all labour of all installation including consumable items if any. **This will be treated as free maintenance period. The firm will hand over the system as per para above before completion of Defect Liability period / free maintenance period free maintenance period / Defect Liability of period will be considered as extended till hand over the system. The decision for allotment of maintenance work will be on the discretion of client department.** However for operation of system during this period the firm shall be paid @ 1% of the value of original work done. The decision for allotment of operation and maintenance work will be allotted on the discretion of client department.

After completion of free maintenance period of one year from the date of completion as above, the firm will be bound to carry out paid comprehensive maintenance i.e. repair and replacement of all installations including consumable items etc. and operation of system for next Four year for which the firm will be paid as under: -

A.

1. For 1st year (After free maintenance period or actual handover the system to Client deptt. whichever is later) @ (5.50% of the original work done.
2. For 2nd year @ 6.05% of the original work done.
3. For 3rd year @ 6.66% of the original work done.
4. For 4th year @ 7.30% of the original work done

NOTE:-

The contractor would submit an affidavit in the technical bid that he shall undertake to carry comprehensive maintenance as brought out in the DNIT. In case of failure to do so, the department is at liberty to take any due action including proceeding under criminal negligence against the firm / contractor.

Payment of this maintenance will be done on quarterly basis. After deducting the statutory taxes.

Other terms and conditions of comprehensive maintenance contract have been as depicted under heading addition condition for free maintenance period and annual maintenance contract of this DNIT.

IMPORTANT:-

After completion testing and commissioning the installations will be handed over to the authorized authority of Hospital. The contract for operation and comprehensive maintenance contract on the rates terms and conditions for the period as per this DNIT / Agreement will be done with the firm by authorized authority of Hospital. The firm will be bound to carry out the comprehensive maintenance and operation contract accordingly for which necessary payments etc. will be done by Hospital authority.

Note:- Operation means day and night around the year (24x7x365)

ABBREVIATION

TECHNICAL SPECIFICATIONS (5 KVA to 2500 KVA) DG SETS

Detailed Specifications :- (Diesel Generating Sets 5 KVA, 7.5 KVA, 10 KVA, 15 KVA, 20 KVA, 25 KVA, 30 KVA & 40 KVA)

Diesel Engine and Alternator should be close coupled and mounted on a base plate of robust construction.

1. DIESEL ENGINE : (Manufactured in India)

Diesel Engine shall be Liquid Cooled, electric start developing required B.H.P. at 1500/3000 rpm WITH Class A-I Governor or Electronic Governor suitable for alternator to deliver specified continuous KVA output at 0.8 lagging PF at NTP conditions (Rating shall be tested at Unity PF). The Diesel Engine should be capable of providing 10 % overload for one hour continuous running at full load after every 11 Hours continuous running.

The Diesel Engine shall be complete with the following accessories:-

- Engine instrument Panel consisting of starting switch/push button, Lube Oil and Pressure Gauges, Water Temperature Gauge, RPM indicator and Hour meter.
- Low lube oil pressure safety required in Engines, High Water temperature safety for water cooled Engines is required. The safety should include audio alarm and trip facility also to avoid damage to the engine.
- Radiator.
- Exhaust silencer of Residential type.
- 12V/24V starting system complete with starter motor, charging alternator and Cutout.
- Lead Acid battery of suitable ratings with connecting cables. The batteries shall be supplied in uncharged conditions and of Make : EXIDE/ STANDARD FURUKAWA/ AMARON/ TATA-GREEN/ AMCO/ LUMINOUS/ PACESETTER.
- The Diesel Engine fitted with Common Rail Direct Injection Fuel Pump shall be only accepted.

The Engine should confirm to applicable Emission Norms.

The Engine shall be accepted only which conforms to BIS : 10000/1/2 or BS:5514.

2. ALTERNATOR :-

The Alternator shall be self – excited, self – regulated of specified KVA rating in three phase at 220V/415 Volts, 50 Hz, 1500/ 3000 RPM and 0.8 pf lagging (Rating shall be tested at Unity PF). The alternators shall be of brushless type only. The alternators shall be screen-protected drip proof with Min. IP-21 or improved degree of protection for outdoor installations. The class of insulation of the Alternator would be F/H. The rated voltage of Alternator will be 415 V for 3 phase.

Make of Alternator: Kirloskar / Kirloskar Green/ Crompton – Greaves/ Leroy Somer / Trident/ Stamford/ Meccalte.

3. AMF CONTROL PANEL:-

Automatic mains failure (AMF) control panel shall be able to start up the DG set and can transfer the load on to D.G. set on mains failure without requiring any human intervention, similarly, on restoration of main supply, it shall be able to transfer the load to mains supply and switch off the D.G. Set automatically.

The AMF panel enclosure should be with the IP-53 degree of protection and shall be fabricated from minimum 16 SWG thick steel sheet duly pre-treated and aesthetically finished and Power coated.

The AMF Control Panel shall have the following instruments:

- a) Microprocessor based relay with composite/separate meter for digital display of:
 1. Generator voltage/AC Mains voltage.
 2. Generator Current.
 3. Load Current.
 4. Power Factor.
 5. Frequency.
 6. Energy.
 7. Three attempts engines start/ engines cranking relay.
 8. On delay timer for load change over.
 9. On delay timer for engine shut off.
- b) Mode selector switch for setting the panel on any one position such as off or auto or manual or test.
- c) Engine On-Off switch (Push button type)
- d) MCCB/Fuses of suitable rating shall be provided.
- e) Rectangular Aluminium Bus Bars (one number for each phase, neutral and Earthing terminal) of adequate ratings duly colour coded with heat shrinkable PVC Sleeves or Copper Cables.
- f) Two contactors/ACB of suitable rating (one for DG set & one for AC mains) with over load relay.
- g) Under + Over Voltage Relay.
- h) Automatic Battery charger with on-off switch, voltmeter and ammeter for charging the battery from mains. This will be addition to the battery charging alternator fitted on the engine.
- i) Instrument & Control Fuses/MCB.
- j) Four number indicating lamps to indicate 'load on mains' 'set running' 'load on set' and 'battery charger on'.
- k) Audio visual alarm for 'Low lubricating oil pressure' 'High water temperature' (for water cooled), 'Start failure', and 'DG overload'
- l) Any other switch, instrument, relay or contactor etc. essential for smooth and trouble free function of DG set with AMF Panel (to be specified by the tenderer in their offer with complete detail of the item).
- m) All Electro components/ parts such as MCCB/ MCB/FUSE/ Contactor/ Meters should be

4. MANUAL CONTROL PANEL :-

The Control Panel shall be made out of fabricated sheet 16 gauge (min) thick duly powder coated of suitable size for indoor/outdoor floor mounting installation. Aluminium Busbar/copper cables, internal wiring with suitable provision for/connection incoming/outgoing leads. The Control Panel shall include following instruments:-

- a. Composite meter for digital display of
 - i. Voltage
 - ii. Current.
 - iii. Frequency
- b. One MCB/MCCB/ACB of suitable Rating.
- c. Push Button switch for on off operation.
- d. Indication lamps.
- e. Automatic Battery charger with on-off switch, voltmeter and ammeter for charging the battery from mains. This will be addition to the battery charging alternator fitted on the engine.

5. SOUND PROOF ENCLOSURE (CANOPY)

The generator shall be in a sound proof (Acoustic) enclosure suitable for Diesel Generating Set complete in all respect having following specification/ Feature:-

Fabricated as per standard specification of manufacturer, stuffing done with suitable Foam/Rock. Rock wool supported with Tissue Paper or perforated sheets having holes. Residential type silencer provided to lower the noise of exhaust outlet. Canopy treated for antirust with powder coating. Should have fresh Air inflow and proper ventilation. Modular in construction and provided with lockable doors. The Sound proof enclosure shall be strictly as per CPCB prevalent norms. The sheet thickness should be 18 gauge (min) as per manufacturer standard and as per CPCB rules.

CABLING:

Supply & erection of underground Aluminum armoured cable ISI mark including necessary connections, thimbling, glands alongwith digging & re-filling of cable trenches, complete in all respect, inclusive of cost of earth excavation. Makes Finolex, Havells, Gloster, Grandlay, Polycab/ RR Kabel, Plaza, Kalinga, Hyglow (ISI Marked) suitable for D.G. Set as per manufacturer standard / recommendation.

SWITCHES : Change over switch, Supply & erection of change over switch, TPN on angle iron frame including earthing, necessary connections complete in all respect, Make:- Havells, MEX, SSK, Standard, DPPL, Crystal ,C&S – Capacity 32, 63, 100, 200 Amps.

Main Switch :- I) Supply & Erection of following Main switches, TPN Re-wireable/HRC on angle iron frame including earthing necessary connections complete in all respect, Make:- MEX, SSK, DPPL, Standard, Havells, Crystal. Capacity 32, 63, 100, 200 Amps.

EARTHING

- a) Supply and erection of plate earthing as per IS specification with 600mm x 600mm x 3mm of copper plate below ground upto 2.13 meter with 20mm x 3mm copper strip of electrolytic grade as per specification. The strip is to be inserted through G. I. pipe of medium class of suitable size. Earthing should be complete with charcoal, salt & provision of watering arrangement & manhole cover of size 1 ft x 1ft including all bricks masonry work, digging & refilling etc., complete in all respect as required inclusive of the cost of earth excavation work & required material.

Detailed Specifications :- (Diesel Generating Sets 50 KVA to 320 KVA)

Diesel Engine and Alternator should be close coupled and mounted on a base plate of robust construction.

1. **DIESEL ENGINE : (Manufactured in India)**

Diesel Engine shall be Liquid Cooled, electric start developing required B.H.P. at 1500 rpm suitable for alternator to deliver specified continuous KVA output at 0.8 lagging PF at NTP conditions (Rating shall be tested at Unity PF). The Diesel Engine should be capable of providing 10 % overload for one hour continuous running at full load after every 11 Hours continuous running. Diesel Engine should be fitted with Electronic Governor.

The Diesel Engine shall be complete with the following accessories:-

- a) Engine instrument Panel consisting of starting switch/push button, Lube Oil and Pressure Gauges, Water Temperature Gauge, RPM indicator and Hour meter.
- b) Low lube oil pressure safety required in Engines, High Water temperature safety for water cooled Engines is required. The safety should include audio alarm and trip facility also to avoid damage to the engine.
- c) Radiator.
- d) Exhaust silencer of Residential type.
- e) 12V/24V starting system complete with starter motor, charging alternator and Cutout.
- f) Lead Acid battery of suitable ratings with connecting cables. The batteries shall be supplied in uncharged conditions and of Make:
EXIDE/ STANDARD FURUKAWA/ AMARON/ TATA-GREEN/ AMCO/ LUMINOUS/ PACESETTER.

Diesel Engine of direct injection or Diesel Engine fitted with common Rail Direct Injection Pump shall be accepted.

The Engine should confirm to applicable Emission Norms. The Diesel Engine shall be accepted only which conforms to BIS: 10000/1/2 or BS:5514.

2. **ALTERNATOR :-**

The Alternator shall be self – excited, self – regulated of specified KVA rating in three phase at 415 Volts, 50 Hz, 1500 RPM and 0.8 pf lagging (Rating shall be tested at Unity PF). The alternators shall be of brushless type only. The alternators shall be screen-protected drip proof with Min. IP-21 or improved degree of protection for outdoor installations. The class of insulation of the Alternator would be F/H. The rated voltage of Alternator will be 415 V for 3 phase.

Make of Alternator : Kirloskar / Kirloskar Green/ Crompton – Greaves/ Leroy Somer / Trident/ Stamford/ Meccalte.

3. **AMF CONTROL PANEL :-**

Automatic mains failure (AMF) control panel shall be able to start up the DG set and can transfer the load on to D.G. set on mains failure without requiring any human intervention, similarly, on restoration of main supply, it shall be able to transfer the load to mains supply and switch off the D.G. Set automatically.

The AMF panel enclosure should be with the IP-53 degree of protection and shall be fabricated from minimum 16 SWG thick steel sheet duly pre-treated and aesthetically finished and Power coated.

The AMF Control Panel shall have the following instruments:

- a) Microprocessor based relay with composite/separate meter for digital display of:
 1. Generator voltage/AC Mains voltage.
 2. Generator Current.
 3. Load Current.
 4. Power Factor.
 5. Frequency.
 6. Energy.
 7. Three attempts engines start/ engines cranking relay.
 8. On delay timer for load change over.

- 9. On delay timer for engine shut off.
- b) Mode selector switch for setting the panel on any one position such as off or auto or manual or test.
- c) Engine On-Off switch (Push button type)
- d) MCCB/Fuses of suitable rating shall be provided.
- e) Rectangular Aluminium Bus Bars (one number for each phase, neutral and Earthing terminal) of adequate ratings duly colour coded with heat shrinkable PVC Sleeves or Copper Cables.
- f) Two contactors/ACB of suitable rating (one for DG set & one for AC mains) with over load relay.
- g) Under + Over Voltage Relay.
- h) Automatic Battery charger with on-off switch, voltmeter and ammeter for charging the battery from mains. This will be addition to the battery charging alternator fitted on the engine.
- i) Instrument & Control Fuses/MCB.
- j) Four number indicating lamps to indicate 'load on mains' 'set running' 'load on set' and 'battery charger on'.
- k) Audio visual alarm for 'Low lubricating oil pressure' High water temperature' (for water cooled), 'Start failure', and 'DG overload'
- l) Any other switch, instrument, relay or contactor etc. essential for smooth and trouble free function of DG set with AMF Panel (to be specified by the tenderer in their offer with complete detail of the item).
- m) All Electro components/ parts such as MCCB/ MCB/FUSE/ Contactor/ Meters should be of L&T/ ABB/ SCHNIEDER/ AE/ ENERZON/ GE/ HAVELLS/ SIEMENS make.

4. **MANUAL CONTROL PANEL :-**

The Control Panel shall be made out of fabricated sheet 16 gauge (min) thick duly powder coated of suitable size for indoor/outdoor floor mounting installation. Aluminium Busbar/copper cables, internal wiring with suitable provision for / connection incoming/ outgoing leads. The Control Panel shall include following instruments:-

- a. Composite meter for digital display of
 - i. Voltage
 - ii. Current.
 - iii. Frequency
- b. One MCB/MCCB/ACB of suitable Rating.
- c. Push Button switch for on off operation.
- d. Indication lamps.
- e. Automatic Battery charger with on-off switch, voltmeter and ammeter for charging the battery from mains. This will be addition to the battery charging alternator fitted on the engine.

5. **SOUND PROOF ENCLOSURE (CANOPY)**

The generator shall be in a sound proof (Acoustic) enclosure suitable for Diesel Generating Set complete in all respect having following specification/ Feature :-

Fabricated as per standard specification of manufacturer, stuffing done with suitable Foam/ Rock wool. Rock wool supported with Tissue Paper or perforated sheets having holes. Residential type silencer provided to lower the noise of exhaust outlet. Canopy treated for antirust with powder coating. Should have fresh Air inflow and proper ventilation. Modular in construction and provided with lockable doors. The Sound proof enclosure shall be strictly as per CPCB prevalent norms. The sheet thickness should be 18 gauge (min) as per manufacturer standard and as per CPCB rules.

CABLING :

Supply & erection of underground Aluminum armoured cable ISI mark including necessary connections, thimbling, glands alongwith digging & re-filling of cable trenches, complete in all

respect, inclusive of cost of earth excavation. Makes Finolex, Havells, Gloster, Grandlay, Polycab, RR Kabel, Plaza, Kalinga, Hyglow (ISI Marked) suitable for D.G. Set as per manufacturer standard / recommendation.

SWITCHES : Change over switch, Supply & erection of change over switch, TPN on angle iron frame including earthing, necessary connections complete in all respect, Make:- Havells, MEX, SSK, Standard, DPPL, Crystal, C&S – Capacity 200, 320, 400, 630, 800, 1000, 1250 Amps.

Main Switch :- I) Supply & Erection of following Main switches, TPN Re-wireable/HRC on angle iron frame including earthing necessary connections complete in all respect, Make:- MEX, SSK, DPPL, Standard, Havells, Crystal. Capacity 200, 320, 400, 630, 800, 1000 Amps.

EARTHING

- a) Supply and erection of plate earthing as per IS specification with 600mm x 600mm x 3mm of copper plate below ground upto 2.13 meter with 20mm x 3mm copper strip of electrolytic grade as per specification. The strip is to be inserted through G. I. pipe of medium class of suitable size. Earthing should be complete with charcoal, salt & provision of watering arrangement & manhole cover of size 1 ft x 1ft including all bricks masonry work, digging & refilling etc., complete in all respect as required inclusive of the cost of earth excavation work & required material.
- b) Supply and erection of copper strip earthing of 25mm x 3mm copper earth strip & suitable size medium class GI pipe including all necessary material and termination etc. complete in all respect.

Detailed Specifications :- (Diesel Generating Sets 400 KVA to 2500 KVA)

Diesel Engine and Alternator should be close coupled and mounted on a base plate of robust construction.

1. DIESEL ENGINE : (Manufactured in India)

Diesel Engine shall be Liquid Cooled, electric start developing required B.H.P. at 1500 rpm suitable for alternator to deliver specified continuous KVA output at 0.8 lagging PF at NTP conditions (Rating shall be tested at Unity PF). The Diesel Engine should be capable of providing 10 % overload for one hour continuous running at full load after every 11 Hours continuous running. Diesel Engine 400 KVA and above should be fully electronic i.e. governing, fuel injection, monitoring of engine and its parameters should be all electronic. Diesel Engine Monitoring & Controlling & Controller for Generator Operation Monitoring & Synchronization Function shall be Independent of Each other.

The Diesel Engine shall be complete with the following accessories:-

- a) Engine instrument Panel consisting of starting switch/push button, Lube Oil and Pressure Gauges, Water Temperature Gauge, RPM indicator and Hour meter.
- b) Low lube oil pressure safety required in Engines, High Water temperature safety for water cooled Engines is required. The safety should include audio alarm and trip facility also to avoid damage to the engine.
- c) Radiator.
- d) Exhaust silencer of Residential type.
- e) 12V/24V starting system complete with starter motor, charging alternator and Cutout.
- f) Lead Acid battery of suitable ratings with connecting cables. The batteries shall be supplied in uncharged conditions and of Make :
EXIDE/ STANDARD FURUKAWA/ AMARON/ TATA-GREEN/ AMCO/ LUMINOUS/ PACESETTER.

The Engine should confirm to applicable Emission Norms. The Diesel Engine shall be

2. ALTERNATOR (LT) :-

The Alternator shall be self – excited, self – regulated of specified KVA rating in three phase at 415 Volts, 50 Hz, 1500 RPM and 0.8 pf lagging (Rating shall be tested at Unity PF). The alternators shall be of brushless type only. The alternators shall be screen-protected drip proof with Min. IP-21 or improved degree of protection for outdoor installations. The class of insulation of the Alternator would be F/H. The rated voltage of Alternator will be 415 V for 3 phase.

Make of Alternator : Kirloskar / Kirloskar Green/ Crompton – Greaves/ Leroy Somer / Trident/ Stamford/ Meccalte.

2A. ALTERNATOR (HT) for 1500/2000/2275/2500 KVA in addition to LT:-

The Alternator shall be self – excited, self – regulated of specified KVA rating in three phase at 3.3/6.6/11KV, 50 Hz, 1500 RPM and 0.8 pf lagging (Rating shall be tested as per standard design of Manufacturer). The alternators shall be of brushless type only. The alternators shall be screen-protected drip proof with Min. IP-21 or improved degree of protection for outdoor installations. The class of insulation of the Alternator would be F/H. The rated voltage of Alternator will be 3.3/6.6/11 KV for 3 phase as per Manufacturer design with Latest amendment.

Make of Alternator : Kirloskar / Leroy Somer / Stamford/ TDPS/ABB/ Siemens.

3. AMF CONTROL PANEL :-

Automatic mains failure (AMF) control panel shall be able to start up the DG set and can transfer the load on to D.G. set on mains failure without requiring any human intervention, similarly, on restoration of main supply, it shall be able to transfer the load to mains supply and switch off the D.G. Set automatically.

The AMF panel enclosure should be with the IP-53 degree of protection and shall be fabricated from minimum 16 SWG thick steel sheet duly pre-treated and aesthetically finished and Power coated.

The AMF Control Panel shall have the following instruments :

- a) Microprocessor based relay with composite/separate meter for digital display of :
 1. Generator voltage/AC Mains voltage.
 2. Generator Current.
 3. Load Current.
 4. Power Factor.
 5. Frequency.
 6. Energy.
 7. Three attempts engines start/ engines cranking relay.
 8. On delay timer for load change over.
 9. On delay timer for engine shut off.
- b) Mode selector switch for setting the panel on any one position such as off or auto or manual or test.
- c) Engine On-Off switch (Push button type)
- d) MCCB/Fuses of suitable rating shall be provided.
- e) Rectangular Aluminium Bus Bars (one number for each phase, neutral and Earthing terminal) of adequate ratings duly colour coded with heat shrinkable PVC Sleeves or Copper Cables.
- f) Two contactors/ACB of suitable rating (one for DG set & one for AC mains) with over load relay.
- g) Under + Over Voltage Relay.
- h) Automatic Battery charger with on-off switch, voltmeter and ammeter for charging the battery from mains. This will be addition to the battery charging alternator fitted on the engine.
- i) Instrument & Control Fuses/MCB.
- j) Four number indicating lamps to indicate 'load on mains' 'set running' 'load on set' and 'battery charger on'.

- k) Audio visual alarm for 'Low lubricating oil pressure' High water temperature' (for water cooled), 'Start failure', and 'DG overload'
- l) Any other switch, instrument, relay or contactor etc. essential for smooth and trouble free function of DG set with AMF Panel (to be specified by the tenderer in their offer with complete detail of the item).
- m) All Electro components/ parts such as MCCB/ MCB/FUSE/ Contactor/ Meters should be of L&T/ ABB/ SCHNIEDER/ AE/ ENERZON/ GE/ HAVELLS/ SIEMENS make.

4. **MANUAL CONTROL PANEL (LT) :-**

The Control Panel shall be made out of fabricated sheet 16 gauge (min) thick duly powder coated of suitable size for indoor/outdoor floor mounting installation. Aluminium Busbar/copper cables, internal wiring with suitable provision for / connection incoming/ outgoing leads. The Control Panel shall include following instruments :-

- a. Composite meter for digital display of
 - i. Voltage
 - ii. Current.
 - iii. Frequency
- b. One MCB/MCCB/ACB of suitable Rating.
- c. Push Button switch for on off operation.
- d. Indication lamps.
- e. Automatic Battery charger with on-off switch, voltmeter and ammeter for charging the battery from mains. This will be addition to the battery charging alternator fitted on the engine.

4A. **MANUAL CONTROL PANEL (HT) :-**

The Control Panel shall be made out of fabricated sheet 14 gauge (min) thick duly powder coated of suitable size for outdoor floor mounting installation. Aluminium Busbar, internal wiring with suitable provision for / connection incoming/ outgoing leads. The Control Panel shall include following instruments :-

- a. Composite meter for digital display of
 - i. Voltage
 - ii. Current.
 - iii. Frequency
- b. One VCB of suitable Rating.
- c. Push Button switch for on off operation.
- d. Indication lamps.
- e. Automatic Battery charger with on-off switch, voltmeter and ammeter for charging the battery from mains. This will be addition to the battery charging alternator fitted on the engine.
- f. Neutral Ground Resistor (NGR) Panel suitable for 3.3/6.6/11KV shall be included with HT Manual Control Panel.

5. **SOUND PROOF ENCLOSURE (CANOPY)**

The generator shall be in a sound proof (Acoustic) enclosure suitable for Diesel Generating Set complete in all respect having following specification/ Feature:-

Fabricated as per standard specification of manufacturer, stuffing done with suitable Foam/ Rock wool. Rock wool supported with Tissue Paper or perforated sheets having holes. Residential type silencer provided to lower the noise of exhaust outlet. Canopy treated for antirust with powder coating. Should have fresh Air inflow and proper ventilation. Modular in construction and provided with lockable doors. The Sound proof enclosure shall be strictly as per CPCB prevalent norms. The sheet thickness should be 18 gauge (min) as per manufacturer standard and as per CPCB rules.

CABLING :

Supply & erection of underground Aluminum armoured cable ISI mark including necessary connections, thimbling, glands alongwith digging & re-filling of cable trenches, complete in all

respect, inclusive of cost of earth excavation. Makes Finolex, Havells, Gloster, Grandlay, Polycab, RR Kabel, Plaza, Kalinga, Hyglow (ISI Marked) suitable for D.G. Set as per manufacturer standard / recommendation.

SWITCHES : Change over switch, Supply & erection of change over switch, TPN on angle iron frame including earthing, necessary connections complete in all respect, Make:- Havells, MEX, SSK, Standard, DPPL, Crystal , C&S – Capacity 630, 800, 1000, 1250 Amps.

Main Switch :- I) Supply & Erection of following Main switches, TPN Re-wireable/HRC on angle iron frame including earthing necessary connections complete in all respect, Make:- MEX, SSK, DPPL, Standard, Havells, Crystal. Capacity 630, 800, 1000 Amps.

EARTHING

- a) Supply and erection of plate earthing as per IS specification with 600mm x 600mm x 3mm of copper plate below ground upto 2.13 meter with 20mm x 3mm copper strip of electrolytic grade as per specification. The strip is to be inserted through G. I. pipe of medium class of suitable size. Earthing should be complete with charcoal, salt & provision of watering arrangement & manhole cover of size 1 ft x 1ft including all bricks masonry work, digging & refilling etc., complete in all respect as required inclusive of the cost of earth excavation work & required material.
- b) Supply and erection of copper strip earthing of 25mm x 3mm copper earth strip & suitable size medium class GI pipe including all necessary material and termination etc. complete in all respect.
- c) Foundation of DG set will be made suitable for capacity of DG set as under:
Specification:- Const. of foundation for Diesel Generator of size length and width 300mm more all around the DG set having foundation with 150mm CC 1:4:8 with stone aggregate 40mm nominal size in foundation and brick work in cement mortar 1:6:600mm (300mm underground and 1000mm above ground) and earth filling inside and cement concrete 1:1:5:3 slab with stone aggregate 20mm nominal size with steel reinforcement 10mm dia 150mm center to centre both way. Including cement plaster 1:4 all around as per PWD specification and up to entire satisfaction of Engineer-In-Charge of work.

TECHNICAL BID DOCUMENTS

- a. Compliance report of the NIT specifications.
- b. Manufacturing proof i.e. SSI Registration Certificate/ Large Medium Registration Certificate or any other proof in case of original manufacturer.
- c. G. S.T. Registration No. & details alongwith attested copy of that.
- d. Copy of PAN card & PAN details including the details of Assessing Authority.
- e. Complete tender form duly stamped & signed on each page must be put in Technical Bid without quoting rates/ taxes and duties.
- l. Any other supporting technical documents.

PAYMENT TERMS:

For D.G. Set supply:

90% shall be released after successful delivery at Site.

Balance 10% after satisfactory installation & commissioning at Site.

AMC for DG Set:

Quarterly Payment shall be released supporting with 10% Bank Guarantee.

Regarding downtime penalty shall be AMC + 10% if AMC service not rendered by the bidders.

DELIVERY PERIOD:

3 months for supply of material.

NOTE :

All other remaining documents other than mentioned above be put in the Technical Bid as per requirement of the NIT.

TERMS & CONDITIONS :-

1. **F.O.R.**

Destination anywhere in Haryana, Chandigarh and other Haryana government offices located outside the State.

2. The bidder must submit authority letter from Diesel Engine manufacturer alongwith valid Nodel Agency Certificate for DG Sets in Diesel engine manufacturer name, failing which offer will be rejected straightway.

3. DG sets shall meet the requirements of Environmental (Protection) Rules 1986 as laid down by Min. of Environmental & Forests read with GSR 371 (E) dated 17.2.2002. GSR 520 (E) dated 1.7.2003 and No.448 (E) dated 12.07.2004 in respect of noise and emission norms. The supplier shall furnish copy of Type approval certificate from authorized agency for emission norms and noise level norms for each DG Set giving detail of Model No. of Engine and Alternator which such approval is applicable. The tenderer shall furnish copy of COP for each Model of DG Set form and authorized agency with the tender.

4. **Warrantee:** One year from the date of satisfactory trial working of sets or commissioning at destination.

5. Rates of AMC including parts (Comprehensive) for 5 years after the warrantee period.

6. **AUTHORITY LETTER**

In case offers are submitted by the Authorised Dealer, letter of Authority from the Diesel Engine manufacturer to quote rates on their behalf must be furnished alongwith their offers, duly supported with the documents as required above. The authority letter must be signed and stamped by the Proprietor/ Partner/ M.D./ Director/ Manager of the firm/ company and must be valid for the period of rate contract.

7. **INSPECTION : (FOR GENUINESS OF MATERIAL)**

The stores for inspection may be offered to this office within the stipulated delivery period and the inspection will be carried out by the representatives of the indenting Deptts. before despatch of D.G. Set at Diesel Engine manufacturers premises. You are, therefore, requested to keep adequate stock ready for inspection at your godown and dispatch only such material, which has been duly inspected and accepted. The inspection of stores shall only be arranged after execution of agreements.

SECURITY is to be kept till expiry of warrantee period by the office of Director General Supplies & Disposals Haryana.

8. **SPARES AVAILABILITY:**

Guarantee that the equipment being offered is the latest model and that spare for the equipment will be available for a period of at least 10 years and also guarantee that they will keep the institution informed of any update of the equipment over a period of next 10 years.

9. Tenderer should also have Service Centers throughout Haryana & Chandigarh. He should submit list of such Authorised Service Centres along with complete address Phone Nos. and Email etc.

CONDITION :

The Diesel Generating Sets above 1000 KVA, which are not approved from Central Pollution Control Board nodel agency, have to submit Performance Certificate of approx. 25 Nos. Diesel Generating Sets from 1010 KVA to 2500 KVA which are installed with Govt. Departments or Private Consumers with minimum 2 years performance.

FINANCIAL DOCUMENTS :-

Rates offered must be quoted including Taxes (but excluding GST), Duties, Freight, etc.

ADDITIONAL CONDITIONS FOR OPERATION AND MTC. CONTRACT

1. AMC means annual comprehensive maintenance contract after completion of free maintenance period specified in the agreement.
2. The work will be carried out as per relevant IS: Specifications and other general codes and practices.
3. GST / Income / labour cess as and if applicable will be deducted from all bills. However, certificate for TDS will be issued by the department.
5. The jurisdictions of court shall be at concerned district head quarter.
1. After expiry of free maintenance period, AMC shall come into force. AMC charges for first year will be calculated on updated value of original work contract agreement. The first maintenance period will be from expiry of free maintenance period.
2. The firm will maintain a reasonable inventory of genuine spares parts in their service depot, so that faults in the system do not remain unattended for want of spares. During the free maintenance period lift will have to be maintained and inspected regularly.
3. The firm will deploy only trained and appropriate skilled personnel to keep the equipment properly adjusted and they will use all reasonable care to maintain the elevator in proper and safe operating conditions,
4. This maintenance contract includes replacement of all minor and major parts/assemblies including their cost and cost of all other material/consumable and tools etc. and labour required to maintain these lifts in proper working order.
10. The firm shall remove the breakdown during or after working hours and even on holidays on receipt of information at the firm control station from the authorized representatives of PW (B&R) Department or the client department in whose premises the system is working. The firm will intimate the complaint number to the complainant at the time of reporting the breakdown .Machine room / Control room keys shall be made available to authorized technician of the firm on arrival at site. The break-down rectification report shall be signed by the department for record of issue of spares and keeping time record of the firms service personnel. The firm personnel will also sign the log book of respective system in token of attending the complains & removal of defects and other observations recorded by department officers /officials to complete satisfaction.
1. The firm shall set right the system in working condition within 24 (Twenty four) hours for the minor defects and within 4(four) days including day of complaint for the major breakdown after receipt of the complaint at their center, if service center of the firm exists at that station and within 48(Forty Eight) hours and 6(six) days for minor and major breakdown respectively, in case service center of the firm does not exist at that station. If the complaint is not attended within the specified period ,beside not paying AMC charges for delayed period, compensation of two days AMC charges for every delay of one day or part thereof shall be levied ,but the total amount of compensation during a year shall not exceed 10% (Ten Percent) of the annual maintenance charges of relevant year. The Superintending Engineer on representation from the firm may reduce the amount of compensation and his speaking decision in writing shall be final. Even after levying the compensation equivalent to 10 % (Ten percent) of the contract amount if the firm does not attend the complaint, the firm will not be paid AMC for the defaulting period.
2. Any work which may be rendered necessary due to revision of the existing Govt. Municipal or elevator acts promulgated subsequent to the date of installation of system or new design/development/modernization work will not be covered under maintenance contract.
3. The firm shall become liable for compensation in accordance with the Indian law and

Regulations in the event of any accident occurring to any person due to the fault in the system on account of failure to keep the system in proper working order or non compliance of statutory provision for safety measures.

4. The parts if replaced by the firm shall be OEM parts matching with the existing equipment. Defective/removed /unserviceable parts will be the property of the firm.
5. The bill of maintenance charges should be properly prepared and scrutinized by the Chartered Accountant of the firm with the supporting papers of price indices at the time of submission of first maintenance contract bill of financial year.
6. After completion of maintenance contract or termination of contract mid way due to any reason what-so-ever, the firm will hand over the system in working order with every parts /assembly intact. In case, if any part / assembly is found missing/defective or of sub standard specifications due recovery will be made for such a deficiency and other measures to effect such recovery as deemed fit will be taken against the firm.
7. The department will have prerogative to discontinue the maintenance contract of any or all the lifts without assigning any reason at any time without paying any compensation for such an act. However, a valid one month notice will be given before taking any such action as mentioned above or maintenance charges will be paid for the period for which notice falls short.
8. Separate agreement of operation & AMC shall be prepared yearly on agreed rates, terms and conditions on completion of one year free maintenance period. It shall stand concluded and will become operative from the next day of expiry of free maintenance period even without signing of contract agreement.
9. 10% (Ten percent) security shall be deducted from each bill of the firm subject to maximum 5% of agreement value and shall be refunded after completion of Operation & AMC period. Or alternatively security can be deposited by the firm in shape of bank guarantee for the required amount and validity i.e upto expiry to 5 years after completion.
10. These additional conditions shall supersede the similar conditions found contrary elsewhere in DNIT.

ADDITIONAL CONDITIONS FOR SUBSTATION/ OVER HEAD HT/LT AND DG SET

1. The transformer, G.O switch LT panel, Shall be got inspected / approved from Engineer-in-Charge or his authorized representative before its installation at site. The inspecting authorized / approving authority may get tested the above noted items at the work of manufacture's firm, if desired by the inspecting / approving authority.
2. The contractor shall be responsible for getting inspected / passed the electrical substation from Chief Electrical inspector, Haryana, Chandigarh & he will also make necessary payments of fees for this purpose to his office. The department will however give render necessary assistance to the contractor in this regard.
3. All testing charges of the various equipments of electrical substation required by DHBVNL authorities will be borne by the contractor.
4. The Contractor shall submit the original manufacture's test certificate in respect of DG set, Transformer, LT panel, HT panel MCCB's, PVC armored underground LT cable, XLPE 11 KV cables, CT's, PT's, Isolator and electronics Digital metering panel.
5. The Voltmeter, Amp. Meter etc. will be of AE / IMP make.

6. The tenderer must be himself 'A' class electrical contractor license holder from Chief Electrical inspector, Haryana for execution of 11 KV works and is specialized for doing the same type of works.
7. The Air Circuit breaker and MCCB in LT panel shall be of same make.
8. The material and installation will be got checked by the contractor from local DHBVNL authorities during execution. Makes as approved by DHBVNL will be allowed.
9. It will be mandatory for contractor to get the complete installation cleared / approved from CEI Haryana after completion. The inspection fee will be deposited by the firm. Metering equipment will also be got cleared from DHBVNL by the contractor including depositing necessary fee etc.
10. All material will be got inspected from department before dispatch to site of work.
11. Firm / contractor will offer inspection of all major materials at manufacturer place and will bear the to and fro including boarding & loading expense.

ADDITIONAL CONDITIONS FOR EPABX, LAN, FIRE ALARM, PUBLIC ADDRESS, CCTV CAMERAS AND INFORMATION DISPLAY SYSTEM/BMS/AUDIO VISUAL SYSTEM

1. Bidders to submit along with the data sheet of their make & model as per BOQ along with their technical bid.
2. Bidders should submit along with technical bid certificate from OEM regarding technical compliance of their model as per technical specification attached on their letter head.
3. Bidder should submit along with technical bid certificate from OEM that their products/ Brands are not debarred / blacklisted from Govt. semi Govt. deptt. / Undertaking.
4. The bidder to submit the authorization letter from OEM along with technical bid
5. Bidder to submit backup guarantee of principle manufacturer.
6. In addition to above the contractor will have to arrange certificate from OEM that the installation have been checked by him and the material installed is genuine and the OEM stands for back up guarantee of material/ equipment's.
7. Bidder should submit list of works executed & their performance certificates of similar work in addition to the above contractor.

NONE SUBMISSION OF ABOVE ALONGWITH TECHNICAL BID WILL LEAD TO OUTRIGHT REJECTION OF TECHNICAL BID ADDITIONAL CONDITIONS FOR OPERATION AND MTC. CONTRACT

1. AMC means annual comprehensive maintenance contract after completion of free maintenance period specified in the agreement.
2. The work will be carried out as per relevant IS: Specifications and other general codes and practices.
3. GST / Income / labour cess as and if applicable will be deducted from all bills. However, certificate for TDS will be issued by the department.
4. The jurisdictions of court shall be at concerned district head quarter.
5. After expiry of free maintenance period, AMC shall come into force. AMC

- charges for first year will be calculated on updated value of original work contract agreement. The first maintenance period will be from expiry of free maintenance period.
6. The firm will maintain a reasonable inventory of genuine spares parts in their service depot, so that faults in the system do not remain unattended for want of spares. During the free maintenance period lift will have to be maintained and inspected regularly.
 7. The firm will deploy only trained and appropriate skilled personnel to keep the equipment properly adjusted and they will use all reasonable care to maintain the elevator in proper and safe operating conditions,
 8. This maintenance contract includes replacement of all minor and major parts/assemblies including their cost and cost of all other material/consumable and tools etc. and labour required to maintain these lifts in proper working order.
 9. The firm shall remove the breakdown during or after working hours and even on holidays on receipt of information at the firm control station from the authorized representatives of PW (B&R) Department or the client department in whose premises the system is working. The firm will intimate the complaint number to the complainant at the time of reporting the breakdown. Machine room / Control room keys shall be made available to authorized technician of the firm on arrival at site. The break-down rectification report shall be signed by the department for record of issue of spares and keeping time record of the firm's service personnel. The firm personnel will also sign the log book of respective system in token of attending the complains & removal of defects and other observations recorded by department officers /officials to complete satisfaction.
 10. The firm shall set right the system in working condition within 24 (Twenty four) hours for the minor defects and within 4(four) days including day of complaint for the major breakdown after receipt of the complaint at their center, if service center of the firm exists at that station and within 48(Forty Eight) hours and 6(six) days for minor and major breakdown respectively, in case service center of the firm does not exist at that station. If the complaint is not attended within the specified period ,beside not paying AMC charges for delayed period, compensation of two days AMC charges for every delay of one day or part thereof shall be levied ,but the total amount of compensation during a year shall not exceed 10% (Ten Percent) of the annual maintenance charges of relevant year. The Superintending Engineer on representation from the firm may reduce the amount of compensation and his speaking decision in writing shall be final. Even after levying the compensation equivalent to 10 % (Ten percent) of the contract amount if the firm does not attend the complaint, the firm will not be paid AMC for the defaulting period.
 11. Any work which may be rendered necessary due to revision of the existing Govt. Municipal or elevator acts promulgated subsequent to the date of installation of system or new design/development/modernization work will not be covered under maintenance contract.
 12. The firm shall become liable for compensation in accordance with the Indian law and Regulations in the event of any accident occurring to any person due to the fault in the system on account of failure to keep the system in proper working order or non-compliance of statutory provision for safety measures.
 13. The parts if replaced by the firm shall be OEM parts matching with the existing equipment. Defective/removed /unserviceable parts will be the property of the firm.
 14. The bill of maintenance charges should be properly prepared and scrutinized by the Chartered Accountant of the firm with the supporting papers of price indices at the time of submission of first maintenance contract bill of financial year.
 15. After completion of maintenance contract or termination of contract midway due to any reason what-so-ever, the firm will hand over the system in working order with every parts /assembly intact. In case, if any part / assembly is found missing/defective

- or of substandard specifications due recovery will be made for such a deficiency and other measures to effect such recovery as deemed fit will be taken against the firm.
16. The department will have prerogative to discontinue the maintenance contract of any or all the lifts without assigning any reason at any time without paying any compensation for such an act. However, a valid one month notice will be given before taking any such action as mentioned above or maintenance charges will be paid for the period for which notice falls short.
 17. Separate agreement of operation & AMC shall be prepared yearly on agreed rates, terms and conditions on completion of one year free maintenance period. It shall stand concluded and will become operative from the next day of expiry of free maintenance period even without signing of contract agreement.
 18. 10% (Ten percent) security shall be deducted from each bill of the firm subject to maximum 5% of agreement value and shall be refunded after completion of Operation & AMC period. Or alternatively security can be deposited by the firm in shape of bank guarantee for the required amount and validity i.e upto expiry to 5 years after completion.
 19. These additional conditions shall supersede the similar conditions found contrary elsewhere in DNIT.
 20. AMC (Annual comprehensive maintenance contract) during next four years after free mtc period will be paid as below: -
 - (a) 1st year after free mtc period @ 3%
 - (b) 2nd year after free mtc period @ 3.5%
 - (c) 3rd year after free mtc period @ 4 %
 - (d) 4th year after free mtc period @ 4.5% of original work.

ADDITIONAL CONDITION FOR MAINTENANCE OF HVAC SYSTEM

1. The firm shall set right the breakdown in working condition within 24 hours for the minor defects and 48 hours for the major breakdown after receipt of the complaint at their centre. If the complaint is not attended to within the specified period and monthly examination is not done on due date compensation for delayed period, compensation @ 0.5% work done of original work for every delay of one day or part thereof shall be levied but the total amount of compensation shall not exceed 5% of the work done of original work. The Superintending Engineer may, on representation from the firm, reduce the amount of compensation and his decision in writing shall be final. If the firm does not attend to the complaint / monthly examination for further four days of the above specified period i.e. 24 and 48 hours the same shall be got attended to at his risk and cost from other source.
2. The firm will also attend to the breakdown after normal working hours, if necessary, to keep the system in working condition. In a such case department will provide necessary assistance but no extra charges will be paid.
3. The part, if replaced by the firm shall be OEM parts matching with the existing equipment. Defective / removed parts will be the property of the firm.
4. The department will have prerogative / option to discontinue the maintenance work of complete / part system without assigning any reason at any time without paying any compensation for such an act. However, a valid one month notice will be given before taking any such action as mentioned above or maintenance charges will be paid to firm for the period for which notice falls sort.
5. All T&P items required shall be of the agency.
6. The successful tenderer will have to train two persons nominated by the department for proper handling and minor routine maintenance.
7. The system will have to be serviced & demonstrated once in every three months

during defect liability period free of cost.

8. Retention Money for AMC

10% (Ten percent) retention money shall be deducted from running bills subject to a maximum of 5% of the agreement amount and shall be refunded 100% after completion of work to the satisfaction of Engineer-in-Charge and handing over (back) complete installation in good / working condition. However, retention money can be released against unconditional Bank Guarantee in favour of department valid for 60 days beyond AMC period.

- 9.** The firm shall become liable to pay compensation in event of any accident occurring to the person using or intending to use the system instrument due to the fault in the system on account of non keeping the system in proper working order and other safety measures.

SPECIAL CONDITIONS FOR COMPREHENSIVE MAINTENANCE CONTRACT (HVAC)

After completion of the installation the firm shall get the installations inspected from authorized person deputed by department and prepare as built drawings with complete detail of installations along with inventory of equipment with their make Sr. No. model size etc.. the firm shall also obtain a certificate of OEM of the equipment installed for proper installation and backup guarantee by OEM of major items.

The firm after successful completion of the work, shall stand guarantee for all material, equipment and installation for one year from date of completion. This will include repair, replacement and all labour of all installation including consumable items if any. **This will be treated as free maintenance period. The firm will hand over the system as per para above before completion of Defect Liability period / free maintenance period free maintenance period / Defect Liability of period will be considered as extended till hand over the system. The decision for allotment of maintenance work will be on the discretion of client department.** However for operation of system during this period the firm shall be paid @ 2% of the value of original work done. The decision for allotment of operation and maintenance work will be allotted on the discretion of client department.

After completion of free maintenance period of one year from the date of completion as above, the firm will be bound to carry out paid comprehensive maintenance i.e. repair and replacement of all installations including consumable items etc. and operation of system for next Four year for which the firm will be paid as under: -

A.

1. For 1st year (After free maintenance period or actual handover the system to Client deptt. whichever is later) @ (4%+2%=6% of the original work done.
2. For 2nd year @ 6.60% of the original work done.
3. For 3rd year @ 7.26% of the original work done.
4. For 4th year @ 8% of the original work done

NOTE:-

The contractor would submit an affidavit in the technical bid that he shall undertake to carry comprehensive maintenance as brought out in the DNIT. In case of failure to do so, the department is at liberty to take any due action including proceeding under criminal negligence against the firm / contractor.

Payment of this maintenance will be done on quarterly basis. After deducting the statutory taxes.

Other terms and conditions of comprehensive maintenance contract have been as depicted under heading addition condition for free maintenance period and annual maintenance contract of this DNIT.

IMPORTANT:-

After completion testing and commissioning the installations will be handed over to the authorized authority of Hospital. The contract for operation and comprehensive maintenance contraction the rates terms and conditions for the period as per this DNIT / Agreement will be done

with the firm by authorized authority of Hospital. The firm will be bound to carry out the comprehensive maintenance and operation contract accordingly for which necessary payments etc. will be done by Hospital authority.

Note:- Operation means day and night around the year (24x7x365)

Error: Subreport could not be shown.

Section 6

Bill of Quantities

Preamble

- 1) The Bill of quantities shall be read in conjunction with the instructions to Bidders, Conditions of contract, Technical Specifications and Drawings.
- 2) The quantities given in the Bill of Quantities are estimated and provisional, and are given to provide a common basis for bidding. The basis of payment will be the actual quantities of work ordered and carried out, as measured by the contractor and verified by the Engineer and valued at the rates and prices tendered in the priced Bill of Quantities, where applicable, and otherwise at such rates as the Engineer may fix within the terms of the Contract.
- 3) The rates and prices tendered in the priced Bill of Quantities shall, except in so far as it is otherwise provided under the Contract, include all constructional plant, labour, supervision, materials, erection, maintenance, insurance, profit, all taxes (but excluding GST) and duties, together with all general risks, liabilities and obligations set out or implied in the Contract.
- 4) The rates and prices shall be quoted entirely in Indian Currency.
- 5) A rate or price shall be entered against each item in the Bill of Quantities, whether the quantities are stated or not. The cost of Items against which the contractor has failed to enter a rate or price shall be deemed to be covered by other rates and prices entered in the Bill of Quantities.
- 6) The whole cost of complying with the provisions of the Contract shall be included in the items provided in the priced Bill of Quantities, and where no Items are provided the cost shall be deemed to be distributed among the rates and prices entered for the related Items of work.
- 7) General directions and descriptions of work and materials are not necessarily repeated or summarized in the Bill of Quantities. References to the relevant sections of the contract documentation shall be made before entering rates or prices against each item in the Bill of Quantities.
- 8) Errors will be corrected by the Employer for any arithmetic errors pursuant to clause of the Instructions to Bidders.
- 9) Any items of work not provided in the contract schedule of rates if required to be executed will be paid as per Haryana PWD schedule of rates 2021 plus ceiling premium as applicable in DNIT subject to the premium tendered by the contractor. In case of non schedule item, these will be paid by the 'Engineer' based on market rates of that time after getting approval from the competent authority and will be binding upon the contractor.
- 10) The work will be carried out strictly in accordance with the PWD book of specification 1990 edition, CPWD Specifications and MoRT&H Specifications as applicable and that will form part and parcel of this contract agreement.

- 11) The 'Engineer' shall be entitled to order work against any item or work shown in this contract schedule of rates hereinafter called the "Schedule" to any extent and without any limitation whatsoever as may be required in his opinion for the purpose of work irrespective of the fact the quantities are omitted altogether in the "Schedule" or shown more or less than the work ordered to be carried out.
- 12) In this contract schedule of rates only essential portion of items has been written, but it will deem to cover the entire items as fully described in Haryana PWD schedule rates 2021 till the date of opening of tender and will be applicable on this contract schedule of rates.
- 13) All the items in this contract schedule of rates 2021 subject to the foot notes given in the Haryana PWD schedule of rates 2021 till the date of opening of tender and will be applicable on this contract schedule of rates.
- 14) Quantities given in the BOQ may vary at the time of execution of works done at site by the contractor.
- 15) Unless otherwise specified all material, machinery and labour input are to be arrange by the contractor.
- 16) All amendments issued to the Haryana PWD schedule of rates will be applicable on the contract schedule of rates.
- 17) As and when contractor gives condition that arrangement of water shall be made by the department, it shall be deemed that all the charges incurred thereon shall be borne by the department and recovery on the total work done shall be made from him.
- 18) No claim will be entertained from the contractor in case of any mistake in description, rate or unit occurred on account of typing or comparison or over sight. If there is any mistake, the same shall be rectifiable by the 'Engineer' at any stage as per Haryana PWD schedule of rates 2021 and all the amendments received from time to time.
- 19) The premium should be quoted above or below for HSR items and individual rates for NS Items. No conditional offer should be made. In case any conditions is tendered, this will be considered as null and void and only the premium or discount quoted by the tender shall be accepted. In case any tender refused to accept the above afterwards, his earnest money will be forfeited or the action as per conditions of Bid Security Declaration Form shall be taken.
- 20) Tender premium will not be allowed on new N.S. items.
- 21) Rate quoted by the contractor for each N.S. item shall be for complete job including all taxes (but excluding GST) , carriage etc. Nothing extra on any account shall be paid.
- 22) The payment will be made according to the actual work done by the contractor.

(E) Format for Equipment/Machinery Lease Agreement

EQUIPMENT/MACHINERY LEASE AGREEMENT

The Lease Agreement (the “agreement”) is made and entered on dated _____, by and between (“Lessor” and (“ Lessee”) (collectively referred to as the parties).

The parties agree as follows:-

1 Lessor hereby leases to Lessee the following machinery and equipment:

2 LEASE TERM: The Lessee will start on dated _____ (begin date) and will end on dated _____ (end date).

3 LEASE PAYMENT: Lessee agrees to pay lessor as rent for the equipment/ machinery the amount of Rs. _____ (“RENT”) each month in advance on the first day of each month at _____ (Address for rent payment) or at any other address designated by Lessor. s

4 LATE PAYMENT: If any amount under this agreement is more than _____ days late, lessee agree to pay a late fees of Rs. _____ per day.

5 SECURITY DEPOSIT: Prior to taking possession of the Equipment/ machinery, Lessee shall deposit with Lessor in trust, a security deposit of Rs. _____ as security for the performance by Lessee of the terms under this agreement and for any damages caused by Lessee or Lessee’s agents to the equipment/ machinery during the lease term. Lessor may use part or all of security deposit to repair any damage to Equipment/ machinery caused by Lessee or Lessee’s agents. However, lessor is not just limited to security deposit amount and lessee remains liable for any balance. Lessee shall not use or apply any such security at any time in lieu of payment of rent. If lessee breaches any terms or conditions of this Agreement, Lessee shall forfeit any deposit, as permitted by law.

6. DELIVERY: Lessee shall not be responsible for all expenses and costs i) at the beginning of the Lease Term, of transporting the equipment/ machinery Lessee’s premises and ii) at the end of the Lease Term, of transporting the equipment/ machinery back to Lessor’s premises.s

7. POSSESSION AND SURRENDER OF EQUIPMENT/ MACHINERY: Lessee shall be entitled to possession of the equipment/ machinery on the first day of Lease Term. At the expiration of the lease term, Lessee shall surrender the equipment/ machinery to Lessor by delivering the equipment/ machinery to Lessor or Lessor agents in good condition and working order, ordinary wear and tear excepted, as it was at the commencement of the agreement.

8. USE OF EQUIPMENT/ MACHINERY: Lessee shall only use the equipment/ machinery in a careful and proper manner and will comply with all laws, rules, ordinances, statues and orders regarding the use, maintenance of storage of the equipment/ machinery.

9. CONDITIONS OF EQUIPMENT/ MACHINERY AND REPAIR: Lessee or Lessee’s agent has inspected the equipment/ machinery and acknowledges that the equipment/ machinery is in good and acceptable condition.

10. **MAINTENANCE, DAMAGE AND LOSS:-** Lessee will, at Lessee's sole expense, keep and maintain the equipment/ machinery clean and in good working order and repair during the Lessee Term. In the event the equipment/ machinery is lost or damaged beyond repair, Lessee shall pay to Lessor the replacement cost of equipment/ machinery, in addition, the obligations of this Agreement shall continue in full force and effect through the Lease term.
11. **INSURANCE:** Lessee shall be responsible to maintain insurance on the equipment/ machinery with losses payable to Lessor against fire, theft, collision and other such risks as are appropriate and specified by Lessor, upon request by Lessor, Lessee shall provide proof of such insurance.
12. **OWNERSHIP:** The equipment/ machinery is and shall remain the exclusive property of Lessor.
13. **BINDING EFFECT:** The covenants and conditions contained in the Agreements shall apply to and bind the Parties and the heirs, legal representatives, successors and permitted assigns of the Parties.
14. **GOVERNING LAW:** This agreement shall be governed and constructed in accordance with the Laws of State of Haryana.
15. **NOTICE:** Any notice required or otherwise given pursuant to this Agreement shall be in writing and mailed certified return receipt requested, postage prepaid, or delivered by courier or speed post to Lessor/ Lessee.

Address of the Lessor	Address of the Lessee

Either party may change such address from time to time by providing notice as set for the above.

In witness whereof, the parties have caused this Agreement to be executed the day and year first above written.

_____ [name of Contractor]

Gentlemen :

In accordance with the provisions of the Conditions of Contract, sub-clause 51.1 (“Advance Payment”) of the above-mentioned Contract, _____ [name and address of Contractor] (hereinafter called “the Contractor”) shall deposit with _____ [name of Employer] a bank guarantee to guarantee his proper and faithful performance under the said Clause of the Contract in an amount of _____ [amount of Guarantee]* _____ [in words].

We, the _____ [bank of financial institution], as instructed by the Contractor, agree unconditionally and irrevocably to guarantee as primary obligator and not as Surety merely, the payment to _____ [name of Employer] on his first demand without whatsoever right of obligation on our part and without his first claim to the Contractor, in the amount not exceeding _____ [amount of guarantee]* _____ [in words].

We further agree that no change or addition to or other modification of terms of the Contractor or Works to be performed thereunder or of any of the Contract documents which may be made between _____ [name of Employer] and the Contractor, shall in any way release us from any liability under this guarantee, and we hereby waive notice of any such change, addition or modification.

This guarantee shall remain valid and in full effect from the date of the advance payment under the Contract until _____ [name of Employer] receives full repayment of the same amount from the Contractor.

Yours truly,

Signature and Seal of the guarantor _____
Name of Bank _____
Address _____
Date _____

* An amount shall be inserted by the Bank or Financial Institution representing the amount of the Advance Payment, and denominated in Indian Rupees.

(H) Indenture For Secured Advances

INDENTURE FOR SECURED ADVANCES

FORM 31

(for use in cases in which the contract is for finished work and the contractor has entered into an agreement for the execution of a certain specified quantity of work in a given time).

This indenture made the _____ day of _____, 20____
BETWEEN _____ (hereinafter called the contractor which expression shall
where the context so admits or implies be deemed to include his executors, administrators and
assigns) or the one part and the Employer of the other part.

Whereas by an agreement dated _____ (hereinafter called the said
agreement) the contractor has agreed.

AND WHEREAS the contractor has applied to the Employer that he may be allowed advanced
on the security of materials absolutely belonging to him and brought by him to the site of the works
the subject of the said agreement for use in the constructions of such of the works as he has
undertaken to execute at rates fixed for the finished work (inclusive of the cost of materials and
labour and other charges).

AND WHEREAS the Employer has agreed to advance to the Contractor the sum of Rupees
_____ on the security of materials the
quantities and other particulars of which are detailed in Accounts of Secured Advances attached to the
Running Account bill for the said works signed by the Contractor on _____ and the Employer has
reserved to himself the option of making any further advance or advances on the security of other
materials brought by the Contractor to the site of the said works.

Now THIS INDENTURE WITNESSETH that in pursuance of the said agreement and in
consideration of the sum of Rupees _____ on or before the execution of these
presents paid to the Contractor by the Employer (the receipt where of the Contractor doth hereby
acknowledge) and of such further advances (if any) as may be made to him as a for said the
Contractor doth hereby covenant and agree with the President and declare as follows:

- (1) That the said sum of Rupees _____ so advanced by the Employer to the
Contractor as aforesaid and all or any further sum of sums advanced as aforesaid shall be employed
by the Contractor in or towards expending the execution of the said works and for no other purpose
whatsoever.
- (2) That the materials details in the said Account of Secured Advances which have been
offered to and accepted by the Employer as security are absolutely the Contractor's own
property and free from encumbrances of any kind and the contractor will not make any
application for or receive a further advance on the security of materials which are not
absolutely his own property and free from encumbrances of any kind and the Contractor
indemnified the Employer against all claims to any materials in respect of which an
advance has been made to him as aforesaid.
- (3) That the materials detailed in the said account of Secured Advances and all other materials
on the security of which any further advance or advances may hereafter be made as
aforesaid (hereafter called the said materials) shall be used by the Contractor solely in the
execution of the said works in accordance with the directions of the 'Engineer'.

- (4) That the Contractor shall make at his own cost all necessary and adequate arrangements for the proper watch, safe custody and protection against all risks of the said materials and that until used in construction as aforesaid the said materials shall remain at the site of the said works in the Contractor's custody and on his own responsibility and shall at all times be open to inspection by the 'Engineer' or any officer authorized by him. In the event of the said materials or any part thereof being stolen, destroyed or damaged or becoming deteriorated in a greater degree than is due to reasonable use and wear thereof the Contractor will forthwith replace the same with other materials of like quality or repair and make good the same required by the 'Engineer'.
- (5) That the said materials shall not be any account be removed from the site of the said works except with the written permission of the 'Engineer' or an officer authorized by him on that behalf.
- (6) That the advances shall be repayable in full when or before the Contractor receives payment from the Employer of the price payable to him for the said works under the terms and provisions of the said agreement. Provided that if any intermediate payments are made to the Contractor on account of work done than on the occasion of each such payment the Employer will be at liberty to make a recovery from the Contractor's bill for such payment by deducting there from the value of the said materials than actually used in the construction and in respect of which recovery has not been made previously, the value for this purpose being determined in respect of each description of materials at the rates at which the amounts of the advances made under these presents were calculated.
- (7) That if the Contractor shall at any time make any default in the performance or observance in any respect of any of the terms and provisions of the said agreement or of these presents the total amount of the advance or advances that may still be owing of the Employer shall immediately on the happening of such default be re-payable by the Contractor to be the Employer together with interest thereon at twelve per cent per annum from the date or respective dates of such advance or advances to the date of repayment and with all costs, charges, damages and expenses incurred by the **Employer** in or for the recovery thereof or the enforcement of this security or otherwise by reason of the default of the Contractor and the Contractor hereby covenants and agrees with the **Employer** to repay and pay the same respectively to him accordingly.
- (8) That the Contractor hereby charges all the said materials with the repayment to the Employer of the said sum of Rupees _____ and any further sum of sums advanced as aforesaid and all costs, charges, damages and expenses payable under these presents PROVIDED ALWAYS and it is hereby agreed and declared that notwithstanding anything in the said agreement and with- out prejudice to the power contained therein if and whenever the covenant for payment and repayment here-in-before contained shall become enforceable and the money owing shall not be paid in accordance there with the **Employer** may at any time thereafter adopt all or any of the following courses as he may deem best :
- (a) Seize and utilize the said materials or any part thereof in the completion of the said works on behalf of the contractor in accordance with the provisions in that behalf contained in the said agreement debiting the contractor with the actual cost of effecting such completion and the amount due to the contractor with the value of work done as if he had carried it out in accordance with the said agreement and at the rates thereby provided. If the balance is against the contractor, he is to pay same to the **Employer** on demand.
- (b) Remove and sell by public auction the seized materials or any part there of and out of the

moneys arising from the sale retain all the sums aforesaid repayable or payable to the **Employer** under these presents and pay over the surplus (if any) to the Contractor.

- (c) Deduct all or any part of the moneys owing out of the security deposit or any sum due to the Contractor under the said agreement.
- (9) That except in the event of such default on the part of the contractor as aforesaid interest on the said advance shall not be payable.
- (10) That in the event of any conflict between the provisions of these presents and the said agreement the provisions of these presents shall prevail and in the event of any dispute or difference arising over the construction or effect of these presents the settlement of which has not been here-in-before expressly provided for the same shall be referred to the Employer whose decision shall be final.
